Falling Leaves Jan 29 2020 The emotionally wrenching yet ultimately uplifting memoir of a Chinese woman struggling to win the love and acceptance of her family. Born in 1937 in a port city a thousand miles north of Shanghai, Adeline Yen Mah was the youngest child of an affluent Chinese family who enjoyed rare privileges during a time of political and cultural upheaval. But wealth and position could not shield Adeline from a childhood of appalling emotional abuse at the hands of a cruel and manipulative stepmother. Determined to survive through her enduring faith in family unity, Adeline struggled for independence as she moved from Hong Kong to England and eventually to the United States to become a physician and writer. A compelling, painful, and ultimately triumphant story of a girl's journey into adulthood, Adeline's story is a testament to the most basic of human needs: acceptance, love, and understanding. With a powerful voice that speaks of the harsh realities

of growing up female in a family and society that kept girls in emotional chains, *Falling Leaves* is a work of heartfelt intimacy and a rare authentic portrait of twentieth-century China. "Riveting. A marvel of memory. Poignant proof of the human will to endure."

**A Leaf In The Bitter Wind** Dec 30 2019 One of the best ways to understand history is through eye-witness accounts. Ting-Xing Ye's riveting first book, *A Leaf in the Bitter Wind*, is a memoir of growing up in Maoist China. It was an astonishing coming of age through the turbulent years of the Cultural Revolution (1966 - 1974). In the wave of

revolutionary fervour, peasants neglected their crops, exacerbating the widespread hunger. While Ting-Xing was a young girl in Shanghai, her father's rubber factory was expropriated by the state, and he was demoted to a labourer. A botched operation left him paralyzed from the waist down, and his health deteriorated rapidly since a capitalist's well-being was not a priority. He died soon after, and then Ting-Xing watched her mother's struggle with poverty end in stomach cancer. By the time she was thirteen, Ting-Xing Ye was an orphan, entrusted with her brothers and sisters to her Great-Aunt, and on welfare. Still, the Red Guards punished the children for being born into the capitalist class. Schools were being closed; suicide was rampant; factories were abandoned for ideology; distrust of friends and neighbours flourished. Ting-Xing was sent to work on a distant northern prison farm at sixteen, and survived six years of backbreaking labour and severe conditions. She was mentally tortured for weeks until she agreed to sign a false statement accusing friends of anti-state activities. Somehow finding the time to teach herself English, often by listening to the radio, she finally made it to Beijing University in 1974 as the Revolution was on the wane — though the acquisition of knowledge was still frowned upon as a bourgeois desire and study was discouraged. Readers have been stunned and moved by this simply narrated personal account of a 1984-style ideology-gone-mad, where any behaviour deemed to be bourgeois was persecuted with the ferocity and illogic of a witch trial, and where a change in politics could switch right to wrong in a moment. The story of both a nation and an

individual, the book spans a heady 35 years of Ye's life in China, until her eventual defection to Canada in 1987 — and the wonderful beginning of a romance with Canadian author William Bell. The book was published in 1997. The 1990s saw the publication of several memoirs by Chinese now settled in North America. Ye's was not the first, yet earned a distinguished place as one of the most powerful, and the only such memoir written from Canada. It is the inspiring story of a woman refusing to “drift with the stream” and fighting her way through an impossible, unjust system. This compelling, heart-wrenching story has been published in Germany, Japan, the US, UK and Australia, where it went straight to #1 on the bestseller list and has been reprinted several times; Dutch, French and Turkish editions will appear in 2001.

**Goethe and the Sciences: A Reappraisal** Sep 18 2021 of him in like measure within myself, that is my highest wish. This noble individual was not conscious of the fact that at that very moment the divine within him and the divine of the universe were most intimately united. So, for Goethe, the resonance with a natural rationality seems part of the genius of modern science. Einstein's 'cosmic religion', which reflects Spinoza, also echoes Goethe's remark (*Ibid.* , Item 575 from 1829): Man must cling to the belief that the incomprehensible is comprehensible. Else he would give up investigating. But how far will Goethe share the devotion of these cosmic rationalists to the beautiful harmonies of mathematics, so distant from any pure and 'direct observation'? Kepler, Spinoza, Einstein need not, and would not, rest with discovery of a pattern within, behind, as a source of, the phenomenal world, and

they would not let even the most profound of descriptive generalities satisfy scientific curiosity. For his part, Goethe sought fundamental archetypes, as in his intuition of a Urpflanze, basic to all plants, infinitely plastic. When such would be found, Goethe would be content, for (as he said to Eckermann, Feb. 18, 1829): . . . to seek something behind (the Urphänomenon) is futile. Here is the limit. But as a rule men are not satisfied to behold an Urphänomenon. They think there must be something beyond. They are like children who, having looked into a mirror, turn it around to see what is on the other side.

*Learning with Children's Melodies/Aprende con Melodías Infantiles* May 15 2021 The focus of *Learning with Children's Melodies/Aprende con Melodías Infantiles* is to recognize the need to transition children of Hispanic heritage into an English-speaking school system by building a classroom culture that not only recognizes the bilingual reality of its students but uses the language difference of the students as a vehicle to create linguistic empowerment. Each of the lessons is based on children's songs from various ethnic cultures that make up the United States of America, including Latin American traditional songs. Literacy is accomplished more rapidly if reading materials have cultural relevance. If the protagonists of a story are Hispanic, the Hispanic students will be more attentive to the lesson. In the first lesson song, "Los Pollitos" (the little chicks), there are personifications of children with attributes of all children. The embodiment of childlike personality traits into the little chicks catches the interest of students that are English-

speaking and Spanish-speaking. Repetition of vocabulary learned in the morning circle and in the other learning centers throughout the day will increase retention. Happy learning to you and your class!

Worldly Stage Nov 08 2020 "In seventeenth-century China, as formerly disparate social spheres grew closer, the theater began to occupy an important ideological niche among traditional cultural elites, and notions of performance and spectatorship came to animate diverse aspects of literati cultural production. In this study of late-imperial Chinese theater, Sophie Volpp offers fresh readings of major texts such as Tang Xianzu's Peony Pavilion (Mudan ting) and Kong Shangren's Peach Blossom Fan (Taohua shan), and unveils lesser-known materials such as Wang Jide's play The Male Queen (Nan wanghou). In doing so, Volpp sheds new light on the capacity of seventeenth-century drama to comment on the cultural politics of the age. Worldly Stage arrives at a conception of theatricality particular to the classical Chinese theater and informed by historical stage practices. The transience of worldly phenomena and the vanity of reputation had long informed the Chinese conception of theatricality. But in the seventeenth century, these notions acquired a new verbalization,

as theatrical models of spectatorship were now applied to the contemporary urban social spectacle in which the theater itself was deeply implicated."

**House of Leaves** May 27 2022 "A novelistic mosaic that simultaneously reads like a thriller and like a strange, dreamlike excursion into the subconscious." —The New York Times

Years ago, when *House of Leaves* was first being passed around, it was nothing more than a badly bundled heap of paper, parts of which would occasionally surface on the Internet. No one could have anticipated the small but devoted following this terrifying story would soon command. Starting with an odd assortment of marginalized youth -- musicians, tattoo artists, programmers, strippers, environmentalists, and adrenaline junkies -- the book eventually made its way into the hands of older generations, who not only found themselves in those strangely arranged pages but also discovered a way back into the lives of their estranged children. Now this astonishing novel is made available in book form, complete with the original colored words, vertical footnotes, and second and third appendices. The story remains unchanged, focusing on a young family that moves into a small home on Ash Tree Lane where they discover something is terribly wrong: their house is bigger on the inside than it is on the outside. Of course, neither Pulitzer Prize-winning photojournalist Will Navidson nor his companion Karen Green was prepared to face the consequences of that impossibility, until the day their two little children wandered off and their voices eerily began to return another story -- of creature darkness, of an ever-growing abyss behind a

closet door, and of that unholy growl which soon enough would tear through their walls and consume all their dreams.

*Leaf* Jun 03 2020 How much power does a single man, let alone a single leaf, have in the

industrial world? In this wordless, all-ages graphic novel, our protagonist discovers a leaf that radiates a vibrant light. He returns to a detailed metropolis ? depicted in somber grays and blues ? and searches for answers. During his quest, he stumbles upon a man who knows what's really happening in the city's labyrinthine ducts; a woman who spends her life studying and classifying obsolete flora; and the truth about the ever-dwindling environment. Leaf is a graphically stunning story that unfolds with a dream-like pace. Shaded in pencil and punctuated by spot colors, drawn in a delicate but concretely realized tonal approach reminiscent of Shaun Tan's *The Arrival* and Chris Van Allsburg's *Jumanji*, Chinese cartoonist Daishu Ma's first foray onto American shelves is ultimately a hopeful vision of the coexistence of the urban and natural worlds.
