*Cases and Materials on Oil and Gas Law* Sep 06 2020 This new and somewhat shorter edition of the popular textbook on the law of oil and gas focuses first on the "upstream" portion of the oil and gas industry. Chapter 1 examines the common law of oil and gas ownership and the remedies that protect and restrict ownership rights. Chapter 2 focuses on the foundational business relationship used to develop oil and gas in the United States--the oil and gas "lease." Chapter 3 examines common problems encountered in oil and gas conveyancing. Chapter 4 explores legislative and regulatory responses to problems created by common-law ownership concepts, focusing on oil and gas conservation law. Chapter 5 examines the body of law designed to regulate environmental impacts by following the oil and gas development process chronologically, from land acquisition to abandonment. Chapter 6 considers transactions other than leasing and conveying that are frequently encountered in the industry, including assignments, farmout agreements, operating agreements, drilling contracts, and gas sales contracts. Finally, Chapter 7 examines the complex body of law that must be considered when oil and gas development is taking place on property owned by the federal, state, or tribal governments. Many instructors will build the basic oil and gas law course around Chapters 1 through 4 and save Chapters 5 through 7 for advanced courses.

Cases and Materials on the English Legal System Jun 15 2021

This title, a companion volume to *The Law Making Process*, is the definitive collection of cases and materials on the workings of the English legal system. Written by the foremost scholar in the field, it surveys how the law functions from the trial process (from pre-trial proceedings to the funding of trials), the role of the jury, and the legal profession. This edition takes account of all recent major legislative and judicial changes and updates the material on the established areas of the law. The book takes a 'law in context' approach, setting out those factors beyond the legal environment which impact on and inform the changes within it. The collection is required reading for all students seeking a thorough knowledge and in-depth understanding of how the English legal system operates.

Text, Cases and Materials on Medical Law and Ethics presents a valuable collection of materials relating to often controversial areas of the law. Comprising extracts from statutes, cases and scholarly articles alongside expert author commentary and guidance which signposts the key issues and principles, this book is an ideal companion to this increasingly popular subject. Fully revised, this new edition incorporates expanded content, including: updated coverage of consent and decision making, including the the *Montgomery v Lanarkshire Health Board* (2015) judgment; the impacts of the EC directive for clinical trials and GDPR on the research use of patient data; and discussion of other recent developments in the case law, including the 2017 Charlie Gard litigation, the 2016 Privy Council decision in *Williams v Bermuda* on negligence causation, and the UK Supreme Court judgment in *A & B v SS for Health* (2017) on funding for patients from Northern Ireland seeking terminations elsewhere. Providing a comprehensive and up-to-date resource on this topical area of the law, this textbook is an invaluable reference tool for students of medical law as well as those studying medicine.

*Cases, Materials and Text on Property Law* Aug 25 2019 This casebook presents a deep comparative analysis of property law systems in Europe (ie the law of immovables, movables and claims), offering signposts and stepping stones for the reader wishing to explore this fascinating area. The subject matter is explained with careful attention given to its history, foundations, thought-patterns, underlying principles and basic concepts. The casebook focuses on uncovering differences and similarities between Europe's major legal systems: French, German, Dutch and English law are examined, while Austrian and Belgian law are also touched upon. The book combines excerpts from primary source materials (case law and legislation) and from doctrine and soft law. In doing so it presents a faithful picture of the systems concerned. Separate chapters deal with the various types of property rights, their creation, transfer and destruction, with

security rights (such as mortgages, pledges, retention of title) as well as with harmonising and unifying efforts at the EU and global level. Through the functional approach taken by the Ius Commune Casebooks this volume clearly demonstrates that traditional comparative insights no longer hold. The law of property used to be regarded as a product of historical developments and political ideology, which were considered to be almost set in stone and assumed to render any substantial form of harmonisation or approximation very unlikely. Even experienced comparative lawyers considered the divide between common law and civil law to be so deep that no common ground - so it was thought - could be found. However economic integration, in particular integration of financial markets and freedom of establishment, has led to the integration of particular areas of property law such as mortgage law and enforceable security instruments (eg retention of title). This pressure towards integration has led comparative lawyers to refocus their interest from contract, tort and unjustified enrichment to property law and delve beneath its surface. This book reveals that today property law systems are closer to one another than previously assumed, that common ground can be found and that differences can be analysed in a new light to enable comparison and further the development of property law in Europe.
