Crime And Punishment Apr 26 2020 A few words about Dostoevsky himself may help the English reader to understand his work. Dostoevsky was the son of a doctor. His parents were very hard-working and deeply religious people, but so poor that they lived with their five children in only two rooms. The father and mother spent their evenings in reading aloud to their children, generally from books of a serious character. Though always sickly and delicate Dostoevsky came out third in the final examination of the Petersburg school of Engineering. There he had already begun his first work, "Poor Folk." This story was published by the poet Nekrassov in his review and was received with acclamations. The shy, unknown youth found himself instantly something of a celebrity.

A brilliant and successful career seemed to open before him, but those hopes were soon dashed. In 1849 he was arrested.

Crimes and Trials of the Century Oct 01 2020 Describes some of the most famous crimes and court trials in the United States from 1919 to 2004, including cases involving John Scopes, Alger Hiss, Charles Manson, Ted Bundy, O.J. Simpson, and Scott Peterson.

'Hate Crime' and the City Dec 15 2021 This title widens understanding by demonstrating that many offenders are just ordinary people who offend in the context of their everyday lives.

Crime and Power Oct 25 2022 This textbook makes a concerted effort to expose crimes committed by those wielding unfettered personal power and crimes by corporations, business and states, crimes against human and non-human species and the environment. It examines an increasingly complex interplay of issues which surely should be at the heart of any criminology programme. This text adopts a fresh and innovative approach to exposing the crimes of the powerful, situating and understanding crimes and victimisations as it does within a framework where questions of structural and personal power in society are key. Fourteen case studies are threaded throughout the book and this methodology is used as a teaching resource for studying and uncovering the crimes of the powerful. The first three chapters comprehensively contextualise the problems of crime and power and establish the importance of power to understanding crime and victimisation in society. The chapters within Part I and Part II of the book then explore individual and group power respectively. Each of these chapters explore a case study or case examples followed by 'Pause for Thought' questions. Bigger 'Go Further' study questions are posed at the close of these chapters challenging students to engage in their own case study research to investigate the dynamics of crime and power.

Criminology Aug 31 2020 This highly acclaimed criminology text presents an up-to-date review of rational choice theories, including deterrence, shaming, and routine activities. It also incorporates current examples of deterrence research regarding domestic violence, drunk driving, and capital punishment, and features thought-provoking

discussion of the relativity of crime. The authors explore the crime problem, its context, and causes of crime. The organization of the text reflects the fact that the etiology of crime must be at the heart of criminology. It examines contemporary efforts to redefine crime by focusing on family violence, hate crimes, white-collar misconduct with violent consequences, and other forms of human behavior often neglected by criminologists. Extensive discussion of evolving laws is included, and while the prevalence of the scientific method in the field of criminology is highlighted, the impact of ideology on explanations of crime is the cornerstone of the book. Comprehensive introductory textbook that looks at competing answers to the question, "Why do people commit crimes?" Student-friendly figures, features, highlights, and full-color photos. Each chapter includes learning objectives, discussion questions, and lists of key terms and concepts, key criminologists, and important legal cases. The eighth edition includes updates throughout and expanded coverage of biosocial theories of crime and life-course criminology.

On Crimes and Punishments May 20 2022 Cesare Beccaria's influential Treatise on Crimes and Punishments is considered a foundational work in the field of criminology. Three major themes of the Enlightenment run through the Treatise: the idea that the social contract forms the moral and political basis of the work's reformist zeal; the idea that science supports a dispassionate and reasoned appeal for reforms; and the belief that progress is inextricably bound to science. All three provide the foundation for accepting Beccaria's proposals. It is virtually impossible to ascertain which of several versions of the Treatise that appeared during his lifetime best reflected Beccaria's thoughts. His use of many Enlightenment ideas also makes it difficult to interpret what he has written. While Enlightenment thinkers advocated free men and free minds, there was considerable disagreement as to how this might be achieved, except in the most general terms. The editors have based this translation on the 1984 Francioni text, the most exhaustive critical Italian edition of *Dei delitti e delle pene*. This edition is the last that Beccaria personally oversaw and revised. This translation includes an

outstanding opening essay by the editors and is a welcome introduction to Beccaria and the beginnings of criminology.

Future Crimes Oct 21 2019 One of the world's leading authorities on global security, Marc Goodman takes readers deep into the digital underground to illuminate the alarming ways criminals, corporations and even countries are using new and emerging technologies against you—and how this makes everyone more vulnerable than you ever thought possible. Technological advances have benefited our world in immeasurable ways—but there is an ominous flip side. Criminals are often the earliest, and most innovative, adopters of technology, and modern times have led to modern crimes. Today's criminals steal identities, drain online bank accounts and wipe out computer servers. It's disturbingly easy to activate baby monitors to spy on families, pacemakers can be hacked to deliver a lethal jolt of electricity and thieves are analyzing your social media in order to determine the best time for a home invasion. Meanwhile, 3D printers produce AK-47s, terrorists can download the recipe for the Ebola virus and drug cartels are building drones. This is just the beginning of the tsunami of technological threats coming our way. In *Future Crimes*, Marc Goodman rips open his database of hundreds of real cases to give us front-row access to these impending perils. Reading like a sci-fi thriller, *Future Crimes* raises tough questions about the expanding role of technology in our lives. *Future Crimes* is a call to action for better security measures worldwide, but most importantly, it will empower readers to protect themselves against looming threats—before it's too late.

Handbook of Transnational Crime and Justice Mar 26 2020 Transnational crime and justice will characterize the 21st century in same way that traditional street crimes dominated the 20th century. In the *Handbook of Transnational Crime and Justice*, Philip Reichel and Jay Albanese bring together top scholars from around the world to offer perspectives on the laws, crimes, and criminal justice responses to transnational crime. This concise, reader-friendly handbook is organized logically around four major themes: the problem of transnational crime; analysis of specific transnational crimes; approaches to its control; and

regional geographical analyses. Each comprehensive chapter is designed to be explored as a stand-alone topic, making this handbook an important textbook and reference tool for students and practitioners alike.

Sex Crime and the Media Mar 18 2022 Sex crime has become one of the most intense areas of public and political concern in recent decades. This book explores the complex influences that shape its construction in the press. Media representations give important cues as to how we should perceive the nature and extent of sex crime, how we should think and feel about it, how we should respond to it, and the measures that might be taken to reduce risk. Understanding the media construction of sex crime is central to understanding its meaning and place in our everyday lives. Unlike much of the existing research, this book explores the construction of sex crime at every stage of the news production process. It then locates the findings within a wider context of cultural, economic and political change in late modernity. The book: considers the construction process from the perspective of both journalists and their sources (including survivors) shows how increased market competition and tabloidisation has altered fundamentally the way in which news is produced, communicated and consumed unpacks and analyses the press construction of sex crime in this context discusses representations of the full range of sex crimes from consensual homosexual offences and prostitution to serial rape and sex murder explores the representation of risk and prevention, victim and offender discourses, the criminal justice process and the symbolic role of sex crime in public life draws upon extensive empirical research in Northern Ireland, while addressing issues relevant to advance capitalist societies across the globe The book closes by suggesting how positive and realistic change might be achieved, both in the way sex crimes are reported and in the role that relevant agencies play as sources in the construction process.

Assets, Crimes and the State Apr 19 2022 Organised crime, corruption, and terrorism are considered to pose significant and unrelenting threats to the integrity, security, and stability of contemporary societies. Alongside traditional criminal enforcement responses, strategies focused on following the money trail of such crimes have become increasingly

prevalent. These strategies include anti-money laundering measures to prevent 'dirty money' from infiltrating the legitimate economy, proceeds of crime powers to target the accumulated assets derived from crime, and counter-terrorist financing measures to prevent 'clean' money from being used for terrorist purposes. This collection brings together 17 emerging researchers in the fields of anti-money laundering, proceeds of crime, counter-terrorist financing and corruption to offer critical analyses of contemporary anti-assets strategies and state responses to a range of financial crimes. The chapters focus on innovative anti-financial crime measures and assemblages of governance that have become a feature of late modernity and on the ways in which individual nation states have responded to anti-money laundering and counter-terrorist financing requirements in light of their specific social, political, and economic contexts. This collection draws on perspectives from law, criminology, sociology, politics, and other disciplines. It adopts a much-needed international approach, focusing not only on expected jurisdictions, such as the United States and United Kingdom, but also on analysis from countries such as Qatar, Kuwait, Iran, and Nigeria. The authors stand out for their fresh and original research, which places them at the cutting edge of the subject. This book provides a comprehensive, insightful, and original study of an important and developing field for academics, students, practitioners, and policymakers in multiple jurisdictions.

Safety Crimes Jul 22 2022 Every year in the UK, hundreds of workers are killed just doing their jobs, thousands more die of illnesses caused by their work and tens of thousands suffer major injuries such as amputations, loss of sight, serious burns, and so on. Worldwide, two million people are killed by work each year. Yet with the exception of high profile cases such as the gas leak at Bhopal, India, which killed tens of thousands, this crime wave fails to attract the interest of the

politicians, the media or - least forgiveably of all - the knowledge industry of criminology. This book is concerned with crimes against worker and public safety, providing an account and analysis of this increasingly important field, and setting this within the broader context of corporate and white-collar crime. It uses case studies and original analyses of official data to illustrate key points and themes, drawing upon both well known and high profile instances of safety crimes as well the mass of ubiquitous 'mundane' or 'routine' deaths and injuries. Thus the book examines how much safety crime is there, how are such offences rendered invisible, and how can their extent be unearthed accurately? Throughout the book the authors analyse the social, legal and political processes that ensure that safety crimes remain subject to under-enforcement and under-criminalisation. This analysis identifies key moments in the historical development of criminal law and regulation, and assesses the prospects for criminalising safety crimes in the context of contemporary neo-liberal regulatory policies. The theoretical and political justifications for dominant approaches to the regulation and sanctioning of safety criminals are subject to critique in order to develop alternative, more effective, means of criminalisation and punishment. The book concludes with an original analysis of safety crimes that allows us to understand the complexities of the conditions of their production, and develop a more realistic appraisal of the prospects for their amelioration.

Crime and Punishment in Islamic Law Nov 21 2019 In *Crime and Punishment in Islamic Law: A Fresh Interpretation*, Mohammad Kamali considers problems associated with and proposals for reform of the hudud punishments prescribed by Islamic criminal law, and other topics related to crime and punishment in Shariah. He examines what the Qur'an and hadith say about hudud punishments, as well as just retaliation (qisas), and discretionary punishments (ta'zir), and looks at modern-day applications of Islamic criminal law in 15 Muslim countries. Particular attention is given to developments in Malaysia, a multi-religious society, federal state, and self-described democracy, where a lively debate about hudud has been on-going for the last three decades.

Malaysia presents a particularly interesting case study of how a reasonably successful country with a market economy, high levels of exposure to the outside world, and a credible claim to inclusivity, deals with Islamic and Shariah-related issues. Kamali concludes that there is a significant gap between the theory and practice of hudud in the scriptural sources of Shariah and the scholastic articulations of jurisprudence of the various schools of Islamic law, arguing that literalism has led to such rigidity as to make Islamic criminal law effectively a dead letter. His goal is to provide a fresh reading of the sources of Shariah and demonstrate how the Qur'an and Sunnah can show the way forward to needed reforms of Islamic criminal law.

War Crimes and the Culture of Peace Feb 17 2022 In 1996, Louise Arbour was appointed by the Security Council of the United Nations as Chief Prosecutor for the International Criminal Tribunals for the former Yugoslavia and Rwanda. Reflecting on these experiences, she argues in *War Crimes and the Culture of Peace* that the level of public awareness and understanding of the significance of these events is minimal in part as a result of the way in which international criminal law is practiced. Justice Arbour contends that previous efforts to unite concepts of international law and criminal law in the practice of these tribunals are evolving, and suggests that the ties between personal criminal accountability and peace should be central to the decisions made in the future concerning procedural models for the permanent International War Crimes Tribunals. As a result, the public might better understand the context and causes of such crime, and the notion of crime as a breach of the peace would be made central to these trials. Justice Arbour delivered *War Crimes and the Culture of Peace* as the fifth annual Senator Keith Davey Lecture at Victoria University at the University of Toronto in January 2001.

The Lies and Crimes of Sweet Caroline Nov 26 2022 Born to a mother who doesn't want her, living in a world that doesn't understand her, fuelled by anger and hatred, Caroline dreams of a different life. To survive the one she's been given, she channels that anger and hatred, and behind her fragile, beautiful exterior hides a woman who will do

anything to get what she wants. Together with girlfriend Leoni, she takes from those who often deserve no better, blackmailing, stealing and killing, comfortable at last in her own skin, living her own uncompromising way. But the world she has chosen to inhabit is a dangerous one, and not even Caroline is infallible. When a blackmail attempt goes wrong, her life is in danger. Has she gone too far this time? What can a woman do when death seems inevitable? In this dark thriller, meet a new kind of hero and walk with Caroline through the seedy underbelly of life, where sex, blackmail, revenge and even murder are all in a day's work.

Women and Crime Jan 16 2022 This text provides a comprehensive and unique view into the world of women interacting with the criminal justice system.

Forensic Investigation of Sex Crimes and Sexual Offenders Sep 24 2022 The investigation of sex crimes is a specific function for many law enforcement agencies, requiring an understanding of how to investigate, process crime scenes, interact with victims and offenders, and prepare for court. This book draws on new methods of investigation and the effects of such crimes on victims.

American Murder Jan 24 2020 Investigating the way Hollywood scoops up notorious criminals and turns them into legends, this entertaining who's-who guide provides thumbnail sketches of such killers as Ma Barker, Black Beard, Al Capone, John Wesley Hardin, and Charles Starkweather. Noting that some figures are glamorized in popular culture (Jesse James), while others are demonized (Charles Manson), this encyclopedic collection explores the legends' emotional truths as depicted in movies, stories, and songs. Facts of the real cases behind these notorious criminals are also presented, including the landmark rulings that pioneered new approaches to criminal justice.

Sex Crimes and the Criminal Justice System (First Edition) Aug 23 2022 The anthology *The Hidden World of the Sex Offender: Readings on Sex Crimes and the Criminal Justice System* gives readers insight into the hidden world of the sex offender. This carefully curated selection of readings examines deviant sexual behaviors from historical and

geographical perspectives, and discusses how some of them were not only permitted, but encouraged in certain societies and eras. Students learn about types of sex offenders and differences between nuisance sex offenders and dangerous sex criminals. Specific chapters are devoted to the characteristics of offenders, aberrant forms of sexual behavior, paraphilias, pedophilia, child pornography, and cyber-predators, and sex trafficking. Most notable is the text's attention to the often overlooked topics of female sex offenders and the forms, extent, victimology, and future of male prostitution. *The Hidden World of the Sex Offender* asks students to thoughtfully consider issues such as the role of fantasy in aberrant forms of behavior, and how both ritualism and symbolism play integral parts in sexual practice. The anthology can be used in courses in sex crimes and sexual deviancy, and those devoted to how the criminal justice system deal with them. Stephen Holmes, who earned his Ph.D. in criminal justice at the University of Cincinnati, is an associate professor at the University of Central Florida. He has numerous book chapters, books, and articles to his name. Dr. Holmes's most recent book is *Violence in the United States*. Ronald Holmes is an emeritus professor in the Department of Justice Administration at the University of Louisville, and a world-renowned author and expert on serial murder, sex crimes, and criminal profiling. He received his doctorate from Indiana University and has completed more than five hundred psychological profiles for police departments across the United States.

Crime and Art Oct 13 2021 This volume brings together work by authors who draw upon sociological and criminological methods, theory, and frameworks, to produce research that pushes boundaries, considers new questions, and reshape the existing understanding of "art crimes", with a strong emphasis on methodological innovation and novel theory application. Criminologists and sociologists are poorly represented in academic discourse on art and culture related crimes. However, to understand topics like theft, security, trafficking, forgery, vandalism, offender motivation, the efficacy of and results of policy interventions, and the effects art crimes have on communities, we must develop the theoretical and methodological models we use for analyses. The

readership of this book is expected to include academics, researchers, and practitioners in the fields of criminology, sociology, law, and heritage studies who have an interest in art and heritage crime.

War Crimes and the Conduct of Hostilities Aug 19 2019 ŠThis comprehensive collection addresses an overlooked area: war crimes and the conduct of hostilities. It uplifts aspects that are particularly under-appreciated, including cultural property, fact-finding, arms transfer, chemical weapons, sexual viole

Criminal Conversations Mar 06 2021 "The essays in this book set out to explore the ways in which Victorians used newspapers to identify the causes of bad behavior and its impacts, and the ways in which they tried to "distance" criminals and those guilty of "bad" behavior from the ordinary members of society, including identification of them as different according to race of sexual orientation. It also explores how threats from within "normal" society were depicted and the panic that issues like "baby-farming" caused." "Victorian alarm was about crimes and bad behavior which they saw as new or unique to their period - but which were not new then and which, in slightly different dress, are still causing panic today. What is striking about the essays in this collection are the ways in which they echo contemporary concerns about crime and bad behavior, including panics about "new" types of crime. This has implications for modern understandings of how society needs to understand crime, demonstrating that while there are changes over time, there are also important continuities."--BOOK JACKET.Title Summary field provided by Blackwell North America, Inc. Victims and Viragos Apr 07 2021 This book considers the experiences of eighteenth-century women, in the Metropolitan area, as both the victims and perpetrators of a variety of crimes, and as participants, in different forms, in the era's criminal justice system. In doing so, it makes extensive use of primary as well as secondary sources. The book is written so as to be readily accessible to the general reader as well as to academics, and eschews the more arcane language that sometimes surrounds gendered subjects. The eight chapters are broad enough to cover an extensive range of crimes while remaining manageable in size.

Vitally, the book considers the impact of what was largely an urban, rather than rural, environment on women's lives, and how this affected their offending and victimisation patterns.

Crime and Criminology Jul 10 2021 With its unique blend of social science and legal research, the thirteenth edition of *Crime and Criminology* offers students a broad context in which to study this dynamic subject, from its history and theories to its ongoing debates and discussions. In engaging, straightforward language, leading scholar and author Sue Titus Reid provides students with a solid understanding of the integral relationship between the law and theories of criminal behavior. The first criminology textbook to be published in a thirteenth edition, this popular and time-tested volume is an essential resource for students and scholars of this ever-changing--and always fascinating--topic. FEATURES OF THIS EDITION * Covers many new issues, including the impact of terrorism and the economic downturn on the criminal justice system, victims with disabilities, healthcare and Medicare fraud, and the decriminalization of marijuana for personal use * Updates and expands coverage of rehabilitation and deterrence, statutory rape, elder abuse, domestic violence, intimate partner violence, hate crimes, gun control, property crimes, and more * Presents new research on families, twins, adoptees, and how brain function may be used to explain criminal behavior * Brings all data up to date--including every statute, case, and theory * Integrates engaging pedagogy throughout (tables, figures, and graphs; chapter overviews, review questions, and activities; a glossary of key terms; "Exhibits," "Media Focus," and "Global Focus" boxes highlighting timely issues; and two appendices) * Supplemented by an Instructor's Manual with Test Bank and PowerPoint-based lecture slides on CD

Wicked Ladies Jan 04 2021 In recent years, much has been published on women, crime and justice in English history. However, for a variety of reasons, particularly the ready availability of source material for the capital, such research has tended to have an overwhelmingly Metropolitan focus. This book aims to redress the balance for the 'long' eighteenth century by concentrating on women from outside the London

area. Although vitally important to the wider country, the Metropolis always contained a small minority of the country's female offenders and defendants, albeit a significantly higher percentage of the latter than its share of the national population. The capital also had a rather different criminal justice and policing system to that found in the rest of the country at this time. The book focuses on women's experiences in provincial England as both the perpetrators of various crimes and as suspects or defendants in the country's criminal justice system. The areas considered range from the West Country to the Scottish Border, and the offences examined include all of the major crimes, such as murder and theft, as well as some more arcane forms of deviance, including arson and coining. The factors that prompted women to offend, their likelihood of exposure when they did so, and their treatment before the courts and in the penal system are all considered in detail. In particular, the book examines the gendered differences found in female crime when compared to that of their male counterparts, and how women's experiences of the era's justice system differed from those of men. It also compares provincial women to those found in the Metropolis in these respects. Extensive use is made of primary sources in portraying the lives of female criminals from Kent to Cumberland, while comparison is also made with women from other parts of the British Isles and beyond, so that the respective roles of structural determinants and national 'culture' in crime and justice can be considered.

Crime and Punishment Jun 21 2022 In a timeless story of justice, morality, and redemption, an impoverished Russian student murders a miserly landlady, a crime that has severe repercussions on his life and his family as he battles his conscience.

Crime and Society in Britain May 08 2021 This book looks at how crimes are defined, socially constructed, researched and analyzed. Exploring the relationship between crime and social equality, the text applies these insights to specific patterns of crime.

Monstrous Crimes and the Failure of Forensic Psychiatry Sep 19 2019 The metaphor of the monster or predator—usually a sexual predator, drug dealer in areas frequented by children, or psychopathic

murderer—is a powerful framing device in public discourse about how the criminal justice system should respond to serious violent crimes. The cultural history of the monster reveals significant features of the metaphor that raise questions about the extent to which justice can be achieved in both the punishment of what are regarded as "monstrous crimes" and the treatment of those who commit such crimes. This book is the first to address the connections between the history of the monster metaphor, the 19th century idea of the criminal as monster, and the 20th century conception of the psychopath: the new monster. The book addresses, in particular, the ways in which the metaphor is used to scapegoat certain categories of crimes and criminals for anxieties about our own potential for deviant, and, indeed, dangerous interests. These interests have long been found to be associated with the fascination people have for monsters in most cultures, including the West. The book outlines an alternative public health approach to sex offending, and crime in general, that can incorporate what we know about illness prevention while protecting the rights, and humanity, of offenders. The book concludes with an analysis of the role of forensic psychiatrists and psychologists in representing criminal defendants as psychopaths, or persons with certain personality disorders. As psychiatry and psychology have transformed bad behavior into mad behavior, these institutions have taken on the legal role of helping to sort out the most dangerous among us for preventive "treatment" rather than carceral "punishment."

Crime and the Native American Jun 09 2021 It is popularly believed that Native Americans have a high frequency of criminal behavior and in addition are subjected to widespread discrimination by the criminal justice system, as are other minority groups; this book explores the data and research on criminal behavior in Native Americans, so as to determine whether these popular beliefs are valid. The research involved a literature review of all published articles on criminal behavior in Native Americans. Chapters are grouped into five sections. Part 1 covers the personal and social conditions of Native Americans and the frequency of crime and alcohol abuse. Part 2 explores crimes and misdemeanors, murder, and child abuse and neglect. Part 3 examines theories of Native

American criminal behavior, social structure, and social process theories. Part 4 addresses the criminal justice system, Native American policing, law and the courts, prisons and probation, and discrimination in the criminal justice system. Part 5 provides three individual cases and three major conclusions drawn from research and commentary presented in the book. The study concludes that Native Americans do not have high crime rates; in fact, they are extraordinarily low if offenses that result from public drunkenness are excluded. Further, although discrimination against Native Americans in the criminal justice system does occur on occasions, it is not widely prevalent. The author advises that the causes of criminal behavior in Native Americans may differ from the causes of criminal behavior in other ethnic groups. Any crime prevention efforts must, therefore, take these distinctive causes into account.

Crime and Victimization of the Elderly Nov 14 2021 Crime and Victimization of the Elderly provides a "state-of-the-art" review of the social scientific literature relating to the crime problems of older persons. Building upon a broad interdisciplinary base, the volume addresses a wide range of issues that will prove to be of interest and value to criminology and gerontology students and to practicing professionals. The book is divided into two major sections. The first focuses upon elderly offenders and the second is devoted to a discussion of elderly victims. All of the major topics normally covered in the criminology and victimology courses are given detailed consideration. These include: the nature and types of crimes committed by the elderly, theories of elderly crime, criminal justice reactions to the older offender, patterns of elderly victimization, explanations of elderly victimization patterns, fear of crime among older persons and the abuse of the elderly in domestic settings. The chapters provide a critical assessment of the formative as well as the most recent empirical research conducted in the United States, Canada and elsewhere. Each chapter includes lists of suggested readings and each major section includes an extensive list of bibliographic references. This book is an invaluable resource to criminologists, gerontologists and social service professionals as it raises questions and defines issues vital to an understanding of the elderly and

their association with various aspects of crime.

The Crime and the Silence Dec 03 2020 Winner of the European Book Prize 'A masterpiece' Jan T. Gross 'Terrifying and necessary' Julian Barnes 'Scrupulously objective and profoundly personal' Kate Atkinson On 10 July 1941 a horrifying crime was committed in the small Polish town of Jedwabne. Early in the afternoon, the town's Jewish population - hundreds of men, women and children - were ordered out of their homes, and marched into the town square. By the end of the day most would be dead. It was a massacre on a shocking scale, and one that was widely condemned. But only a few people were brought to justice for their part in the atrocity. The truth of what actually happened on that day was to be suppressed for more than sixty years. Part history, part memoir, part investigation, *The Crime and the Silence* is an award-winning journalist's account of the events of that day: both the story of a massacre told through oral histories of survivors and witnesses, and a portrait of a Polish town coming to terms with its dark past.

On Crimes and Punishments and Other Writings Jul 30 2020 This volume offers a new English translation of *On Crimes and Punishments* alongside writings by a number of Beccaria's contemporaries. Enlightened luminaries and monarchs alike looked to this text for ideas that might help guide the various reform projects of the day. Of particular interest is Voltaire's commentary on the text, which is included in its entirety. The supplementary materials testify not only to the power and significance of Beccaria's ideas, but to the controversial reception of his book. At the same time that philosophes proclaimed that it contained principles of enduring importance to any society grappling with matters of political and criminal justice, allies of the ancien régime roundly denounced it, fearing that the book's attack on feudal privileges and its call to separate law from religion (and thus crime from sin) would undermine their longstanding privileges and powers.

Money Laundering and the Proceeds of Crime Feb 23 2020 The pursuit of the financial proceeds of criminal activity has become a central theme of contemporary crime control. Initially conceived to tackle the global trade in illegal drugs, these methods have been more recently employed

in the context of terrorism. This work offers a judicious account of the national and international strategies which seek to cope with crime by attacking its financial underpinnings. The book focuses on the increasingly civil legal orientation of these strategies - a sea change from criminal prosecutions to civil legal instruments. The author focuses on developments of the civil strategy in the US and the UK beginning with its historical origins. The work reveals the contradictions that animate the civil approach to criminal finance and discloses the failure of civil devices, as presently constituted, to comply with rights. It bridges the gap between two jurisdictions prominent in this area; the United States and the United Kingdom. This comparative element distinguishes the project from other work in the area that focuses on a single jurisdiction. emergent area of national and international interest. Money Laundering and the Proceeds of Crime analyzes rather than merely describes the proceeds of crime laws, anti-money laundering regimes and the civil legal approach to criminal finance and as such will have a wide readership. The book will appeal to, amongst others, government actors involved in constructing instruments to confront criminal finance, scholars and researchers working in the area and banks, financial institutions, lawyers and other professional private actors charged with anti-money laundering functions.

International Crime and Punishment May 28 2020 "International crime and punishment has captivated (or recaptured) our attention since the early 1990s. Both the substantive contents of international crimes and the ways and means of punishing them have given us a great deal of food for thought. The entry into force on July 1, 2002 of the Rome Statute of the International Criminal Court has spurred further soul searching on these issues. This collection presents some voices in this debate. The issues tackled herein are among the more difficult and the less-treated ones. They relate to the definition of aggression, mistake of law as a defense, the doctrine of command responsibility, and the International Committee of the Red Cross as a witness before international criminal tribunals. These are more or less unsettled issues, and they cry out for

rigorous treatment." -- from the Preface, p. [v].

Crime and Punishment in England Sep 12 2021 Designed to complement "Crime and Punishment: An Introductory History" UCL Press, 1996, this sourcebook contains documents specifically selected to illuminate major issues raised in the textbook. In the first part of the book, extracts of laws and royal, local and church records from Anglo- Saxon England to the 18th century reveal changing patterns of crime and punishment. The first sociology of English crime Harman's Caveat, 1566 as well as Henry Fielding's reform proposals of the mid-eighteenth century are included and the growing use of imprisonment is reflected in the later sections.; The second part covers the 19th century. Documents range from commentaries on the day-to-day crimes of theft, drunkenness And Assault To The Sensationalism Of Garroting And Murder. Documents charting the impressive growth of the police force are included. Criminal justice is approached through the minutiae of police charge books and newspaper column's, the personal reminiscences of magistrates, the sweeping arguments of law reformers and the pleading voices of Petitioners For Mercy. In A Chapter On Punishment, The Emotions Unleashed by public hanging and transportation can be compared with the relentless monotony of prison life.

Globalization and the State in Contemporary Crime Fiction Jun 28 2020 Why has crime fiction become a global genre? How do writers use crime fiction to reflect upon the changing nature of crime and policing in our contemporary world? This book argues that the globalization of crime fiction should not be celebrated uncritically. Instead, it looks at the new forms and techniques writers are using to examine the crimes and policing practices that define a rapidly changing world. In doing so, this collection of essays examines how the relationship between global crime, capitalism, and policing produces new configurations of violence in crime fiction - and asks whether the genre can find ways of analyzing and even opposing such violence as part of its necessarily limited search for justice both within and beyond the state.
