Teaching Social Studies that Matters Aug 09 2020 No plan to increase achievement and enact reform in the social studies classroom will succeed without recognizing the central importance of the teacher as the “gatekeeper” of instruction. In this book, Thornton details why teachers must develop strong skills in curriculum planning and teaching methods in order for effective instruction to occur. Thornton helps teachers to develop a vision of their practice that will build strong social studies programs and inspire students to learn. Features: An approach to preparing purposeful teachers, acknowledging that teachers make daily decisions concerning what to teach and how to teach it. Replicable examples of the kinds of reflective practice that will enable teachers to animate classroom instruction and create a dynamic social studies curriculum. An analysis of how teachers adapt and shape state and district level curricula and classroom materials to fit the specific needs of their students—a model of how to develop an instructional program with suggestions for lesson planning. In-depth examinations of alternative ways of educating teachers in subject matter and teaching methods. “In this important book, Steve Thornton brings a Deweyan perspective to current problems in social studies education. He does more, however, because his analysis can be extended profitably to every subject in the curriculum.” —From the Foreword by Nel Noddings “A thoughtful and carefully documented analysis. . . . Let us hope that this book encourages a richer dialogue than the now-tedious and generally unproductive separate disciplines v. integrated social studies debate.” —Linda S. Levstik, University of Kentucky, Lexington “A refreshingly clearheaded, historically grounded, altogether enlightening analysis. This is the book I’ve been waiting for.” —Walter Parker, University of Washington

Exemplary Elementary Social Studies Oct 11 2020 In many elementary classrooms, social studies has taken a back seat to English Language Arts and Mathematics in the wake of No Child Left Behind and Race to the Top This volume is not another hand-wringing lament. On the contrary, the elementary educators who have contributed to this volume have a positive set of stories to tell about how social studies can play a central role in the elementary classroom, how teachers can integrate social studies knowledge and skills throughout the school day, and how this learning can carry over into children’s homes and communities. The seven case studies in this book, one at each elementary grade level, highlight exemplary teachers in whose classrooms social studies is alive and well in this age of accountability. At the end of each case study, each teacher provides advice for elementary teachers of social studies. Our hope is that elementary teachers and prospective teachers, elementary principals, social studies supervisors, staff developers, and professors of elementary social studies methods who study the stories that we tell can be empowered to return social studies to its rightful place in the curriculum.

Social Studies, Literacy, and Social Justice in the Common Core Classroom Nov 04 2022 Inspired by the author's research and work with preservice and beginning teachers, this book presents a unique framework to help educators (grades 3–8) embed their efforts to teach social studies for social justice within the context of literacy. It is a resource for using primary and other sources to offer students new ways of thinking about history while meeting Language Arts Common Core Standards demands for information text and critical thinking. Grounded in the daily realities of today's public schools, the framework offers a way of planning that takes into account teaching factors that include pressures for content coverage, preparing students for high-stakes tests, and the low importance placed by many districts on including social studies in the curriculum. Each chapter explains how teachers can restructure, reshape, and work with mandated curriculum materials to teach from a critical perspective. The book also discusses how to meet Common Core Standards by teaching language arts and social studies as complementary subjects. Book Features: Sample lessons. Text boxes indicating connections to Common Core Standards. Reflection exercises that help further extend concepts and understandings into classroom practice. Social Studies Teacher Education Sep 21 2021 Over the past decade, the world has experienced a major economic collapse, the increasing racial inequity and high-profile police killings of unarmed Black and Brown people, the persistence of global terrorism, a large-scale refugee crisis, and the negative impacts of global warming. In reaction to social instability, there are growing populist movements in the United States and across the world, which present major challenges for democracy. Concurrently, there has been a rise of grassroots political movements focused on increasing equity in relation to race, gender, class, sexual orientation, and religion. The role of social studies teachers in preparing the next generation of democratic citizens has never been more important, and the call for more social studies teacher educators to help teachers address these critical issues only gets louder. This volume examines how teacher educators are (or are not) supporting beginning and experienced social studies teachers in such turbulent times, and it offers suggestions for moving the field forward by better educating teachers to address growing local, national, and global concerns. In their chapters, authors in social studies education present research with implications for practice related to the following topics: race, gender, sexual orientation, immigration, religion, disciplinary literacy, global civics, and social justice. This book is guided by the following overarching questions: What can the research tell us about preparing and developing social studies teachers for an increasingly complex, interconnected, and rapidly changing world? How can we educate social studies teachers to “teach against the grain” (Cochran-Smith, 1991, 2001b), centering their work on social justice, social change, and social responsibility?

Social Studies for the Twenty-First Century Dec 25 2021 Now in its 4th edition, this popular text offers practical, interesting, exciting ways to teach social studies and a multitude of instructional and professional resources for teachers. Theory, curriculum, methods, and assessment are woven into a comprehensive model for setting objectives; planning lessons, units, and courses; choosing classroom strategies; and constructing tests for some of the field's most popular and enduring programs. The reflective and integrative framework emphasizes building imagination, insight, and critical thinking into everyday classrooms; encourages problem-solving attitudes and behavior; and provokes analysis, reflection, and debate. The text includes separate chapters on teaching each of the major areas of the social studies curriculum. Throughout the text, all aspects of curriculum and instruction are viewed from a tripartite perspective that divides social studies instruction into didactic (factual), reflective (analytical), and affective (judgmental) components. These three components are seen as supporting one another, building the groundwork for taking stands on issues, past and present. At the center is the author's belief that the heart and soul of social studies instruction, perhaps all teaching, lies in stimulating the production of ideas; looking at knowledge from others' viewpoints; and formulating for oneself a set of goals, values, and beliefs that can be explained and justified in open discussion. New in the Fourth Edition: Clear links to the The National Council for the Social Studies College, Career and Civic Life C3 Framework for Social Studies State Standards Attention to impact of high-stakes testing, Common Core State Standards, and related ongoing developments Expanded and critical review of the use of internet, web, and PowerPoint technologies Coverage of how to incorporate the many social science, humanities, and STEM fields to enrich the social studies Updates and revisions throughout, including new research reports reflecting current findings, new examples, more media and materials resources,
