Becoming a teacher May 10 2021 This book disseminates original research on learning in and from practice in pre-service teacher education. Authors such as Lederman and Lederman describe the student teaching practicum (or work-integrated learning [WIL]), which is an essential component of pre-service teacher education, as the 'elephant in the room'. These authors note that 'the capstone experience in any teacher education programme is the student teaching practicum... [a]fter all, this is where the rubber hits the road'. However, many teacher educators will agree that this WIL component is sometimes very insufficient in assisting the student teacher to develop their own footing and voice as a teacher. This is the 'gap' that this research book addresses. Most of the chapters in the book report empirical data, with the exception of two chapters that can be categorized as systematic reviews. WIL is addressed from various angles in the chapters. Chapter 6 focuses on research related to what makes Finnish teacher education so effective, and in Chapter 4 researchers of the University of Johannesburg disseminate their findings on establishing a teaching school (based on Finnish insights) in Johannesburg. Chapter 3 highlights the challenges faced in open-and distance

learning teacher education contexts. Several of the chapters disseminate research findings on alternative interventions to classic WIL, namely, where “safe spaces” or laboratories are created for student teachers to learn and grow professionally. These could either be simulations, such as software programmes and avatars in the intervention described in Chapter 2; student excursions, as the findings in chapters 5, 7 and 10 portray; or alternative approaches to WIL (e.g. Chapters 11 and 12). The book is devoted to scholarship in the field of pre-service teacher education. The target audience is scholars working in the fields of pre-service teacher education, work-integrated learning, and self-directed learning. The book makes a unique contribution in terms of firstly its extensive use of Cultural-Historical Activity Theory as a research lens, and secondly in drawing on various theoretical frameworks. Both quantitative and qualitative research informed the findings of the book.

Being a Teacher Aug 25 2022 Sharing the stories of educators working in a diverse range of international contexts, *Being a Teacher* uses personal narratives to explore effective teaching and learning in global settings. Demonstrating how personal values influence pedagogical practice, and asking how practice can be improved, authors reflect on their experiences not just as teachers, but also as learners, to offer essential guidance for all prospective educational professionals. The book focuses on teacher

narratives as a vehicle for consideration of teacher professionalism, and as a way of understanding issues which are important to teachers in different contexts. By sharing and analysing these narratives, the book discusses the increasing complexity of teaching as a profession, and considers the commonality within the narratives. Each chapter includes graphic representations of analysis and encourages its reader to reflect critically on central questions, thereby constructing their own narrative. *Being a Teacher* provides an in-depth and engaging insight into the education system at a global level, making it an essential read for anyone embarking on a teaching career within the international education market.

How to Handle Difficult Parents Dec 17 2021 "How to Handle Difficult Parents" is a funny, but practical, guide to working effectively with parents and avoiding unnecessary conflict. Whether you're a teacher (regular or special education) or a coach, this book will give you practical suggestions regarding what to say and how to say it to parents who question your lesson plans, challenge your disciplinary decisions, or threaten to tell the principal on you. Bringing years of experience as a teacher, principal, superintendent, and professor, the author shows teachers how to handle the most difficult parent types, including the Helicopter Mom, the Caped Crusader, Ms. "Quit Picking on My Kid," The Intimidator, No Show's Dad, and Pinocchio's Mom, among others. Emphasizing ways to help create constructive conversation, the revised edition of "How to Handle Difficult Parents" is a must-have for teachers everywhere,

both those just beginning and those already deep in the trenches.

A Teacher's Guide to Drama Oct 23 2019 Gary Langford is the author of 33 books, including 2 previous textbooks, reflecting his talent as a teacher writer. The others are 10 novels, such as *Vanities* (Macmillan), *Newlands* (Penguin) and *Sohrab* (Amazon Kindle), 14 books of poetry, including *The Sonnets of Gary Langford* as his 14th collection, and 4 collections of his short stories. He has also written 5 musicals in the period he founded and ran a theatre, The Playhouse, at what was then the Macarthur College of Advanced Education, Sydney. In this period he directed around 75 shows, many of which he wrote. He was also the director of shows that toured schools, utilizing puppets, along with revues that played to schools, whether in a school hall or outside. *A Teacher's Guide to Drama* grew from drama subjects he founded and ran, including Oral Communication, Drama in the Classroom, Children's Theatre and Puppetry, along with Writing and Performance that culminated in shows that also toured schools, notably high schools in the south-west of Sydney. A key to open the door for you is his teacher writer background enabling him to try all the exercises that you will find in here. Some are old and traditional, others he originated and used in drama workshops that he ran. Rest assured, there will be something for you in this practical and amusing textbook. A Teacher's Guide to Reading Piaget Nov 23 2019 Piaget helps us to see the developmental significance of a child's failures and successes in thought and action during everyday experience by breaking down each activity into its separate mental elements. We have to try to draw the educational implications from the developmental facts thus revealed. In recent years teachers have had to learn a great deal about mental measurement as this has become an important feature in our educational structure. This has led to much emphasis on the quantitative assessment of intellectual ability, since in most intelligence tests the main concern is with the number of right responses. In his 'open-ended tests' Piaget seeks to find in a large number of situations what it is that we take for granted which the children have not grasped. To do this he examines the processes of thought and the degree of success and failure, which should be of much greater diagnostic value to the practising teacher. It also gives further support to those who believe in the need for an individual approach to each child's learning. For many years, people who have worked in child centred education have had philosophical theory and intuitive judgment to guide them, but have lacked scientific justification for what they were doing. Piaget's work is now providing scientific evidence from experiments, with concrete examples and demonstration from

children's behaviour for what was previously a matter of opinion. We have chosen the examples to cover a wide age range partly to emphasise the genetic approach and partly to appeal to as wide an audience of teachers as possible. In addition we tried to choose pieces that held special promise of applicability in schools.

Positive Discipline: A Teacher's A-Z Guide Feb 19 2022 Take back the classroom and make a positive difference in your students' lives. Many teachers today are facing problems and discipline issues they never dreamed of when they decided to become teachers. IN SEARCH Feb 07 2021 Teachers want more. Daniel Shindler's *In Search: Reimagining What it Means to be a Teacher*, is an optimistic, necessary book that invites us to identify our core values as teachers, school leaders, and policy-makers. With those values, we journey with him through a series of fundamental requisites that we can apply and nurture in our lives and places of work. Using his teaching experiences, practical examples, and storytelling, Daniel illustrates the requisites we should strive for - honing our expertise, creating powerful and memorable teaching experiences, enquiring with honesty about ourselves and those we teach, building meaningful one-to-one conversations, fostering curiosity and resilience, and building a wider school culture of community and pastoral care. By asking the biggest questions of what it means to be an educator and not seeking simple answers, the book is saying

here is what is possible. For Daniel, teaching is alchemy and craft that goes beyond career, intertwining our personal and professional lives. Only a holistic approach will do, if we are to create longevity, which is why Daniel is asking us to reimagine what it means to be a teacher by placing it in the intersection of the private and public self. Why else teach, if not to live? How many of us live in our careers but not our craft? In short, it speaks to the complexity of the human condition of teaching. Our journey is enhanced by Daniel's extensive experience as a teacher of drama, wellbeing and project-based learning within inner cities and internationally, and as lead architect of School21's ground-breaking oracy curriculum. The book includes a compelling foreword by Jeffrey Boakye, teacher and bestselling author of *Black, Listed and Hold Tight*. In a world of constant change and shifting priorities, never has the search for craft and meaning been more necessary. 'Teaching is a search. It's the effort to walk towards, not forward, or upwards, but inwards towards the self and outwards towards others, at the same time. We've all got a search in us and trust me, *In Search* is 100% a jumping off point for your own journey, whatever that may be.' Jeffrey Boakye – Bestselling author of *Black, Listed and Hold Tight* I loved its scope, the depth of thinking, the range of references, the way public and private, school and life, cross over. It got me thinking differently about things. It's also the perfect antidote to all the

books around that reduce teaching to chunks, or a series of moves and techniques. Peter Hyman, Co-Director of Big Education, Co-founder of School 21

Why Do I Need a Teacher When I've got Google? Nov 16 2021 Why do I need a teacher when I've got Google? is just one of the challenging, controversial and thought-provoking questions Ian Gilbert poses in this urgent and invigorating book. Questioning the unquestionable, this fully updated new edition will make you re-consider everything you thought you knew about teaching and learning, such as: • Are you simply preparing the next generation of unemployed accountants? • What do you do for the 'sweetcorn kids' who come out of the education system in pretty much the same state as when they went in? • What's the real point of school? • Exams – So whose bright idea was that? • Why 'EQ' is fast becoming the new 'IQ'. • What will your school policy be on brain-enhancing technologies? • Which is the odd one out between a hamster and a caravan? With his customary combination of hard-hitting truths, practical classroom ideas and irreverent sense of humour, Ian Gilbert takes the reader on a breathless rollercoaster ride through burning issues of the twenty-first century, considering everything from the threats facing the world and the challenge of the BRIC economies to the link between eugenics and the 11+. As wide-ranging and exhaustively-researched as it is entertaining and accessible, this book is designed to

challenge teachers and inform them – as well as encourage them – as they strive to design a twenty-first century learning experience that really does bring the best out of all young people. After all, the future of the world may just depend on it
