Dark Matter Nov 10 2020 A terrifying 1930s ghost story set in the haunting wilderness of the far north. January 1937. Clouds of war are gathering over a fogbound London. Twenty-eight year old Jack is poor, lonely and desperate to change his life. So when he's offered the chance to join an Arctic expedition, he jumps at it. Spirits are high as the ship leaves Norway: five men and eight huskies, crossing the Barents Sea by the light of the midnight sun. At last they reach the remote, uninhabited bay where they will camp for the next year. Gruhuken. But the Arctic summer is brief. As night returns to claim the land, Jack feels a creeping unease. One by one, his companions are forced to leave. He faces a stark choice. Stay or go. Soon he will see the last of the sun, as the polar night engulfs the camp in months of darkness. Soon he will reach the point of no return - when the sea will freeze, making escape impossible. And Gruhuken is not uninhabited. Jack is not alone. Something walks there in the dark...

Parenting in the Present Moment Jul 07 2020 This generation of parents is overwhelmed with parenting advice; Carla Naumburg sets out to remind them that they have everything they need to raise healthy, happy children. Mindful parenting is about paying attention to what is going on with your children and yourself without judging it or freaking out about it or thinking everyone, including yourself and your child, should

be doing something differently. In *Parenting in the Present Moment*, Naumburg shares what truly matters in parenting—connecting with children in ways that are meaningful to them and you, staying grounded amidst the craziness of parenting, and staying present for whatever life throws your way. With reassuring, compassionate storytelling, she weaves the most current theories—about healthy relationships, compassionate self-care, and mindfulness—throughout vignettes of her own chaotic childhood and parental struggles. She shows how mindfulness creates a solid foundation for any style of parenting, regardless of your cultural background, socio-economic status, or family structure. She also introduces the STAY model for tough times: Stop whatever it is you're doing; Take a Breath; Attune to you thoughts and those of your child; and Yield to what is happening so you can respond from a place of connection and compassion. Parenting is an ongoing journey that constantly challenges every parent. *Parenting in the Present Moment* will help each family find its own way.

Climate Change, Production Trends, and Carrying Capacity of Pacific Salmon in the Bering Sea and Adjacent Waters Jan 13 2021 "The purpose of the symposium was to summarize BASIS research conducted during 2002 to 2006 and increase our understanding about how climate change will affect salmon growth and survival in the North Pacific Ocean. The symposium topics were: 1. Overviews of climate change,

Bering Sea ecosystems, and salmon production. 2. Biological responses by salmon to climate and ecosystem dynamics, 2.1. Migration and distribution of salmon, 2.2. Food production and salmon growth, 2.3. Feeding habits and trophic interactions, 2.4. Production trends and carrying capacity of salmon"--Pref.

Evolution in Investment Treaty Law and Arbitration Dec 12 2020 International investment law is in a state of evolution. With the advent of investor-State arbitration in the latter part of the twentieth century - and its exponential growth over the last decade - new levels of complexity, uncertainty and substantive expansion are emerging. States continue to enter into investment treaties and the number of investor-State arbitration claims continues to rise. At the same time, the various participants in investment treaty arbitration are faced with increasingly difficult issues concerning the fundamental character of the investment treaty regime, the role of the actors in international investment law, the new significance of procedure in the settlement of disputes and the emergence of cross-cutting issues. Bringing together established scholars and practitioners, as well as members of a new generation of international investment lawyers, this volume examines these developments and provides a balanced assessment of the challenges being faced in the field.

Leung's Encyclopedia of Common Natural Ingredients Jan 31 2020 The third

edition of the unparalleled reference on natural ingredients and their commercial use. This new Third Edition of Leung's Encyclopedia of Common Natural Ingredients: Used in Food, Drugs, and Cosmetics arrives in the wake of the huge wave of interest in dietary supplements and herbal medicine resulting from both trends in health and the Dietary Supplement and Health Education Act of 1994 (DSHEA). This fully updated and revised text includes the most recent research findings on a wide variety of ingredients, giving readers a single source for understanding and working with natural ingredients. The Encyclopedia continues the successful format for entries listed in earlier editions (consisting of source, description, chemical composition, pharmacology, uses, commercial preparations, regulatory status, and references). The text also features an easily accessible alphabetical presentation of the entries according to common names, with the index cross-referencing entries according to scientific names. This Third Edition also features: More than 50 percent more information than the Second Edition, reflecting the greatly increased research activity in recent years. A new section on traditional Indian medicine, with information on nine commonly used herbs. More than 6,500 references. Two new appendices explaining and illustrating the botanical terminology frequently encountered in the text. A revised and expanded index.

Leung's Encyclopedia of Common Natural Ingredients: Used in Food, Drugs, and

Cosmetics, Third Edition will continue to provide a comprehensive compilation of the existing literature and prominent findings on natural ingredients to readers with an interest in medicine, nutrition, and cosmetics.

Disaster Risk Reduction for Economic Growth and Livelihood Apr 03 2020 The prevalence of natural disasters in recent years has highlighted the importance of preparing adequately for disasters and dealing efficiently with their consequences. This book addresses how countries can enhance their resilience against natural disasters and move towards economic growth and sustainable development. Covering a wide range of issues, it shows how well thought-out measures can be applied to minimize the impacts of disasters in a variety of situations. Starting with the need for coping with a rapidly changing global environment, the book goes on to demonstrate ways to strengthen awareness of the effectiveness of preventive measures, including in the reconstruction phase. The book also covers the roles played by different actors as well as tools and technologies for improved disaster risk reduction. It focuses on a variety of case studies from across Asia, Africa and Latin America, drawing out lessons that can be applied internationally. This book will be of great interest to professionals in disaster management, including national governments, donors, communities/citizens, NGOs and private sector. It will also be a highly valuable resource for students and

researchers in disaster management and policy, development studies and economics.

The Secret Keeper Apr 27 2022 Withdrawing from a family party to the solitude of her tree house, 16-year-old Laurel Nicolson witnesses a shocking murder that throughout a subsequent half century shapes her beliefs, her acting career and the lives of three strangers from vastly different cultures. By the best-selling author of *The Distant Hours*. Reprint. 200,000 first printing.

Inherit Midnight Dec 04 2022 The Competition Seventeen-year-old Avery VanDemere's ridiculously wealthy grandmother has decided to leave the family fortune to the relative who proves him or herself worthiest--by solving puzzles and riddles on a whirlwind race around the globe. The Contenders For Avery, the contest offers a chance to escape. As the black sheep of the VanDemere clan--the illegitimate daughter, sent away to boarding school--she'd love to use that prize money to run away from the family who ostracized her . . . and discover the truth about her long-lost mother. Marshall might be Avery's uncle by blood, but there's no love lost between them. He'll do anything to win, even if it means turning on his own children. Riley is the charming son of Grandmother VanDemere's lawyer. As the game progresses, Avery finds herself drawn to him--even though she isn't quite sure she can trust him. The Winner? Treacherous turns in the competition serve as brutal reminders that only one person can

win it all. Is Avery willing to risk both her heart and her life to claim the grand prize?

Girl Trouble Jul 31 2022 'A brilliant cultural history.' Irish Examiner Girls behave badly. If they're not obscenity-shouting, pint-swigging ladettes, they're narcissistic, living dolls floating around in a cloud of self-obsession, far too busy twerking to care. And this is news. In this witty and wonderful book, Carol Dyhouse shows that where there's a social scandal or a wave of moral outrage, you can bet a girl is to blame.

Whether it be stories of 'brazen flappers' staying out and up all night in the 1920s, inappropriate places for Mars bars in the 1960s or Courtney Love's mere existence in the 1990s, bad girls have been a mass-media staple for more than a century. And yet, despite the continued obsession with their perceived faults and blatant disobedience, girls are infinitely better off today than they were a century ago. This is the story of the challenges and opportunities faced by young women growing up in the swirl of the twentieth century, and the pop-hysteria that continues to accompany their progress.

Hidden Magic Jul 19 2021 A cursed witch, four intriguing young men, and a shadow realm hidden within their academy. After graduating high school, Willow Oliver watches her friends go away to college while she makes the ten-minute trip to Harper Academy, the school full of the ordinary. Even with the help of her uncle, staying close to home is crucial for her to continue to care for her mother's declining mental state and

constant talk about their family being cursed. When Willow notices things her fellow students don't, she starts to uncover mysteries about not only the school she now attends, but herself, and the four guys who seem to be drawn to her. Can Willow handle the truth of her lineage and fight the many battles she's soon to face in her first year at Harper Academy? Or will she succumb to the curse while risking the lives of the ones she can't help but care for? Hidden Magic is the first installment in a YA/NA paranormal academy reverse harem romance series full of magic, danger and tantalizing secrets.

Computational Models of Brain and Behavior May 17 2021 A comprehensive Introduction to the world of brain and behavior computational models This book provides a broad collection of articles covering different aspects of computational modeling efforts in psychology and neuroscience. Specifically, it discusses models that span different brain regions (hippocampus, amygdala, basal ganglia, visual cortex), different species (humans, rats, fruit flies), and different modeling methods (neural network, Bayesian, reinforcement learning, data fitting, and Hodgkin-Huxley models, among others). Computational Models of Brain and Behavior is divided into four sections: (a) Models of brain disorders; (b) Neural models of behavioral processes; (c) Models of neural processes, brain regions and neurotransmitters, and (d) Neural

modeling approaches. It provides in-depth coverage of models of psychiatric disorders, including depression, posttraumatic stress disorder (PTSD), schizophrenia, and dyslexia; models of neurological disorders, including Alzheimer's disease, Parkinson's disease, and epilepsy; early sensory and perceptual processes; models of olfaction; higher/systems level models and low-level models; Pavlovian and instrumental conditioning; linking information theory to neurobiology; and more. Covers computational approximations to intellectual disability in down syndrome Discusses computational models of pharmacological and immunological treatment in Alzheimer's disease Examines neural circuit models of serotonergic system (from microcircuits to cognition) Educates on information theory, memory, prediction, and timing in associative learning Computational Models of Brain and Behavior is written for advanced undergraduate, Master's and PhD-level students—as well as researchers involved in computational neuroscience modeling research.

The Western Flyer Nov 03 2022 By many accounts, the Western Flyer is the world's most famous fishing vessel. It acquired its literary and scientific reputation in 1940 when John Steinbeck and Ed Ricketts chartered the vessel for a six-week expedition to Mexico's Gulf of California, also known as the Sea of Cortez. Ricketts a pioneer in the study of diverse sea life of the West Coast Steinbeck and the crew spent those weeks

collecting specimens along the margins of the sea. The Western Flyer hadn't been their first choice, but the local fisherman that dominated the sardine fisheries in Monterey at the time considered Steinbeck an activist in the labor movement who wanted to unionize their boat crews. The boat itself has been resurrected of recent, caught in a battle between its current owner, a developer who wants to turn it into a restaurant in Salinas, and the Western Flyer Project, a nonprofit group that wants the Flyer restored to its original working condition and used for educational voyages on Monterey Bay and elsewhere. After the Flyer's brief brush with celebrity, it worked for decades as a sardine seiner, a tuna boat, a crab boat in Alaska and a scientific research vessel along the West Coast. The author, who grew up in Salinas, uses the boat as a device to trace the depletion of marine life, from shrimp in the Sea of Cortez to sardines, to salmon and king crab. The boat is just one character, but so too are those who have owned it, fished from it, and also who now battle over rights to establish its final resting place. The author has used Steinbeck archives, interviewed family members, and drawn upon his 32 years in Pacific Northwest Fisheries, casting a wide net around this vessel and the ecology of waters in which it has traveled."

Music Education as Critical Theory and Practice Oct 22 2021 This collection of previously published articles, chapters and keynotes traces both the theoretical

contribution of Lucy Green to the emergent field of the sociology of music education, and her radical hands-on practical work in classrooms and instrumental studios. The selection contains a mixture of material, from essays that have appeared in major journals and books, to some harder-to-find publications. It spans issues from musical meaning, ideology, identity and gender in relation to music education, to changes and challenges in music curricula and pedagogy, and includes Greens highly influential work on bringing informal learning into formal music education settings. A newly-written introduction considers the relationship between theory and practice, and situates each essay in relation to some of the major influences, within and beyond the field of music education, which affected Greens own intellectual journey from the 1970s to the present day.

A Cooperative Species May 05 2020 Why do humans, uniquely among animals, cooperate in large numbers to advance projects for the common good? Contrary to the conventional wisdom in biology and economics, this generous and civic-minded behavior is widespread and cannot be explained simply by far-sighted self-interest or a desire to help close genealogical kin. In *A Cooperative Species*, Samuel Bowles and Herbert Gintis--pioneers in the new experimental and evolutionary science of human

behavior--show that the central issue is not why selfish people act generously, but instead how genetic and cultural evolution has produced a species in which substantial numbers make sacrifices to uphold ethical norms and to help even total strangers. The authors describe how, for thousands of generations, cooperation with fellow group members has been essential to survival. Groups that created institutions to protect the civic-minded from exploitation by the selfish flourished and prevailed in conflicts with less cooperative groups. Key to this process was the evolution of social emotions such as shame and guilt, and our capacity to internalize social norms so that acting ethically became a personal goal rather than simply a prudent way to avoid punishment. Using experimental, archaeological, genetic, and ethnographic data to calibrate models of the coevolution of genes and culture as well as prehistoric warfare and other forms of group competition, *A Cooperative Species* provides a compelling and novel account of how humans came to be moral and cooperative.

Place in Research Aug 27 2019 Bridging environmental and Indigenous studies and drawing on critical geography, spatial theory, new materialist theory, and decolonizing theory, this dynamic volume examines the sometimes overlooked significance of place in social science research. There are often important divergences and even competing logics at work in these areas of research, some which may indeed be incommensurable.

This volume explores how researchers around the globe are coming to terms - both theoretically and practically - with place in the context of settler colonialism, globalization, and environmental degradation. Tuck and McKenzie outline a trajectory of critical place inquiry that not only furthers empirical knowledge, but ethically imagines new possibilities for collaboration and action. Critical place inquiry can involve a range of research methodologies; this volume argues that what matters is how the chosen methodology engages conceptually with place in order to mobilize methods that enable data collection and analyses that address place explicitly and politically. Unlike other approaches that attempt to superficially tag on Indigenous concerns, decolonizing conceptualizations of land and place and Indigenous methods are central, not peripheral, to practices of critical place inquiry.

Ribbons of Scarlet Sep 08 2020 “The French Revolution comes alive through the eyes of six diverse and complex women, in the skilled hands of these amazing authors.”-- Martha Hall Kelly, New York Times bestselling author of *Lilac Girls* A breathtaking, epic novel illuminating the hopes, desires, and destinies of princesses and peasants, harlots and wives, fanatics and philosophers—seven unforgettable women whose paths cross during one of the most tumultuous and transformative events in history: the French Revolution. *Ribbons of Scarlet* is a timely story of the power of women to start

a revolution—and change the world. In late eighteenth-century France, women do not have a place in politics. But as the tide of revolution rises, women from gilded salons to the streets of Paris decide otherwise—upending a world order that has long oppressed them. Blue-blooded Sophie de Grouchy believes in democracy, education, and equal rights for women, and marries the only man in Paris who agrees. Emboldened to fight the injustices of King Louis XVI, Sophie aims to prove that an educated populace can govern itself—but one of her students, fruit-seller Louise Audu, is hungrier for bread and vengeance than learning. When the Bastille falls and Louise leads a women’s march to Versailles, the monarchy is forced to bend, but not without a fight. The king’s pious sister Princess Elisabeth takes a stand to defend her brother, spirit her family to safety, and restore the old order, even at the risk of her head. But when fanatics use the newspapers to twist the revolution’s ideals into a new tyranny, even the women who toppled the monarchy are threatened by the guillotine. Putting her faith in the pen, brilliant political wife Manon Roland tries to write a way out of France’s blood-soaked Reign of Terror while pike-bearing Pauline Leon and steely Charlotte Corday embrace violence as the only way to save the nation. With justice corrupted by revenge, all the women must make impossible choices to survive—unless unlikely heroine and courtesan’s daughter Emilie de Sainte-Amaranthe can sway the man who controls

France's fate: the fearsome Robespierre.

The Power of Pedagogy Sep 20 2021 '[This book] is readable, engaging, informative and provoking' - Tony Rae, ESCalate 'The book is encompassing all my own passions as a holistic practitioner; I feel it is multi-cultural, offering powerfully diverse and inclusive ideas of pedagogy. In particular, the concepts of this book are like a breath of fresh air for the 'disabled' student, talking about alternative assessment etc.' - Helene McArthur, ESCalate 'Every now and again you come across a really important book that shifts and clarifies your thinking. *The Power of Pedagogy* is one of those books. Here you'll find a fascinating analysis of the myriad of issues and ideas surrounding teaching and learning today. Drawing on history, theory and vignettes from today's classrooms, these two experienced and active thinkers and practitioners have managed to provide new perspectives on the pedagogic mission. A remarkable piece of scholarship, it's a 'must' for all those setting out to teach and for those already teaching with the sort of intellectual curiosity that is the hallmark of the outstanding teacher' - Tim Brighouse, formerly Adviser for London Schools, is Visiting Professor at the Institute of Education 'This important book manages to combine an illuminating breadth of global reference with real insight into the practice of teaching and learning. Its highly readable investigative narrative integrates theory and practice with a quality

of analysis that is both rare and entirely convincing' - Sir David Winkley, former Headteacher Grove School, Handsworth and government education advisor

The concept of 'pedagogy' has become increasingly important as a frame of reference for debate about teaching and learning. In this book the authors analyse and explore contemporary ideas of pedagogy through the work of key figures including Freire, Montessori and Vygotsky, and explain how a new conception of pedagogy could transform educational institutions, particularly schools. In locating pedagogy as central to the process of education the authors:

- explore the historical and cultural antecedents of our understanding of pedagogy
- analyse the way understanding of the working of the human mind influences teaching and learning
- review and critique ideas about learning and the construction of knowledge
- examine the way new forms of communication are impacting on the processes and purposes of pedagogic activity.

Highly relevant for masters and doctoral students of education, this book will also be of interest to educational practitioners undertaking research on issues related to pedagogy, both in the UK and internationally. Bob Moon and the late Jenny Leach have written extensively on pedagogy, teacher education and international developments in the field, including *Learners and Pedagogies* (1999). They lead the Research Group on Teacher Education across Societies and Cultures (RITES) at the Open University, UK. Bob

Moon is Professor of Education at the Open University and Director of the Teacher Education in Sub-Saharan Africa (TESSA) Programme. Jenny Leach was Professor of Teacher Learning and Development at the Open University.

How Photography Became Contemporary Art May 29 2022 A leading critic's inside story of "the photo boom" during the crucial decades of the 1970s and 80s When Andy Grundberg landed in New York in the early 1970s as a budding writer, photography was at the margins of the contemporary art world. By 1991, when he left his post as critic for the New York Times, photography was at the vital center of artistic debate. Grundberg writes eloquently and authoritatively about photography's "boom years," chronicling the medium's increasing role within the most important art movements of the time, from Earth Art and Conceptual Art to performance and video. He also traces photography's embrace by museums and galleries, as well as its politicization in the culture wars of the 80s and 90s. Grundberg reflects on the landmark exhibitions that defined the moment and his encounters with the work of leading photographers—many of whom he knew personally—including Gordon Matta-Clark, Cindy Sherman, and Robert Mapplethorpe. He navigates crucial themes such as photography's relationship to theory as well as feminism and artists of color. Part memoir and part history, this perspective by one of the period's leading critics ultimately tells a larger story about

the crucial decades of the 70s and 80s through the medium of photography.

The Intelligent School Jun 29 2022 In writing *The Intelligent School*, the authors offer a practical resource to schools to help them maximize their improvement efforts. The aim is to help schools to be intelligent organizations; to be the type of school that can synthesize different kinds of knowledge, experience and ideas in order to be confident about current achievements, and be able to decide what to do next.

The Wiley Encyclopedia of Personality and Individual Differences, 4 Volume Set Jun 05 2020 The *Encyclopedia of Personality and Individual Differences (EPID)* is organized into four volumes that look at the many likenesses and differences between individuals. Each of these four volumes focuses on a major content area in the study of personality psychology and individuals' differences. The first volume, *Models and Theories*, surveys the significant classic and contemporary viewpoints, perspectives, models, and theoretical approaches to the study of personality and individuals' differences (PID). The second volume on *Measurement and Assessment* examines key classic and modern methods and techniques of assessment in the study of PID. Volume III, titled *Personality Processes and Individuals Differences*, covers the important traditional and current dimensions, constructs, and traits in the study of PID. The final volume discusses three major categories: clinical contributions, applied research, and

cross-cultural considerations, and touches on topics such as culture and identity, multicultural identities, cross-cultural examinations of trait structures and personality processes, and more. Each volume contains approximately 100 entries on personality and individual differences written by a diverse international panel of leading psychologists Covers significant classic and contemporary personality psychology models and theories, measurement and assessment techniques, personality processes and individuals differences, and research Provides a comprehensive and in-depth overview of the field of personality psychology The Encyclopedia of Personality and Individual Differences is an important resource for all psychology students and professionals engaging in the study and research of personality.

Genderwatch Mar 27 2022 The first Genderwatch was published twenty years ago for teachers and school leaders who wanted to do something about discriminatory practices in their schools but were not quite sure what. This entirely new edition, designed to coincide with the Gender Equality Duty legislation coming into force in 2007, will help the same professional group. Times have changed but significant differences in children's schooling experiences persist--depending on who they are. Genderwatch: still watching... focuses on gender difference, also taking into account that boys and girls come from diverse backgrounds, cultures and heritages. The book contains sixty

schedules covering all aspects of school life and all phases from preschool to secondary. They examine whole school issues such as: inclusion; what happens in assemblies; working with boys; working with girls; how to ensure that when young people's views are sought all are heard; and the book offers detailed accounts of what might be done in each curriculum subject. Each schedule will help schools address their gender equality issues through reviewing practice, tackling inequalities and monitoring outcomes. *Genderwatch: still watching...* is essential reading for teachers, school leaders, support staff, governors, inspectors, advisers and consultants-in fact for anyone who wants to improve equality of opportunity in schools. The seventy contributors are educational practitioners and advisers and academics. All are donating their royalties to Book Aid International, a charity that provides books to libraries, hospitals, refugee camps and schools in sub-Saharan Africa and Palestine.

Classrooms as Learning Communities Mar 03 2020 This book presents the practice and vision of classrooms that operate as learning communities.

Radical Education and the Common School Aug 08 2020 What is education, what is it for and what are its fundamental values? How do we understand knowledge and learning? What is our image of the child and the school? How does the ever more pressing need to develop a more just, creative and sustainable democratic society affect our responses to these questions? Addressing these fundamental issues, Fielding and Moss contest the current mainstream dominated by markets and competition, instrumentality and standardisation, managerialism and technical practice. They argue instead for a radical education with democracy as a fundamental value, care as a central ethic, a person-centred education that is education in the broadest sense, and an image of a child rich in potential. Radical education, they say, should be practiced in the 'common school', a school for all children in its local catchment area, age-integrated, human scale, focused on depth of learning and based on team working. A school understood as a public space for all citizens, a collective workshop of many purposes and possibilities, and a person-centred learning community, working closely with other schools and with local authorities. The book concludes by examining how we might bring such transformation about. Written by two of the leading experts in the fields of early childhood and secondary education, the book covers a wide vista of education for children and young people. Vivid examples from different stages of education are used

to explore the full meaning of radical democratic education and the common school and how they can work in practice. It connects rich thinking and experiences from the past and present to offer direction and hope for the future. It will be of interest and inspiration to all who care about education - teachers and students, academics and policy makers, parents and politicians.

The Krinar Captive Jan 01 2020 A new standalone romance from the New York Times bestselling author of *Twist Me* and *The Krinar Chronicles* Emily Ross never expected to survive her deadly fall in the Costa Rican jungle, and she certainly never thought she'd wake up in a strangely futuristic dwelling, held captive by the most beautiful man she'd ever seen. A man who seems to be more than human... Zaron is on Earth to facilitate the Krinar invasion—and to forget the terrible tragedy that ripped apart his life. Yet when he finds the broken body of a human girl, everything changes. For the first time in years, he feels something more than rage and grief, and Emily is the reason for that. Letting her go would compromise his mission, but keeping her could destroy him all over again. NOTE: This is a full-length, standalone romance that takes place approximately five years before *The Krinar Chronicles* trilogy (aka Mia & Korum's story). You do not have to have read that trilogy to enjoy this book.

On Connection Jun 17 2021 Beneath the surface we are all connected . . . 'An authentically soothing, powerful, thought-provoker.' MATT HAIG 'On Connection is medicine for these wounded times.' MAX PORTER 'On Connection came to me when I needed it most, and reminded me that the links we have to places, people, words, ourselves, are what keep us alive.' CANDICE CARTY-WILLIAMS This is a book about connection. About how immersing ourselves in creativity can help us cultivate greater self-awareness and bring us closer to each other. Drawing on two decades of experience as a writer and performer, Kae Tempest champions the role of creativity - in whatever form we choose to practice it - as an act of love, helping us establish a deeper relationship to our true selves, and to others and the world we live in. Honest, hopeful and written with piercing clarity, *On Connection* is an inspiring personal meditation that will transform the way you see the world. 'Persuasive and profound.' OBSERVER 'Tempest's prose is crisp and thoughtful.' NEW STATESMAN

School Improvement for Real Jan 25 2022 As societies continue to set educational

goals that are, on current performance, beyond the capacity of the system to deliver, strategies for enhancing student learning through school and classroom intervention have become increasingly important. Yet, as David Hopkins argues in his book, many of the educational initiatives recently developed under the umbrella of school improvement are inadequate or unhelpful. Simply blaming teachers and delegating financial responsibility, he maintains, has little positive impact on classroom practice. This is the bleak context within which school improvement has to operate today. School Improvement for Real offers a genuine alternative: a strategy for educational change that focuses on student achievement by modifying classroom practice and adapting the management arrangements within the school to support teaching and learning. It outlines an approach to school improvement that has a medium term, systemic orientation, providing both principles and suggestions for better practice. The author's experience in the field of school improvement ensures that the text is informed by a practical wisdom that is so often lacking from the more typical managerial texts on improvement and effectiveness.

Bildungskontexte Apr 15 2021 Gemäß dem meritokratischen Prinzip sollte alleine die Leistung eines Schülers, gemessen u.a. durch Schulnoten, dessen Bildungschancen bestimmen. Jedoch weist die umfangreiche empirische Bildungsforschung darauf hin,

dass das deutsche Bildungssystem diesem Anspruch bei weitem und bis heute nicht gerecht wird. So belegen zahlreiche Studien ausgeprägte Ungleichheiten der Bildungschancen zwischen verschiedenen Sozialschichten und im Hinblick auf die ethnische Herkunft sowie das Geschlecht. Dabei gehen die angesprochenen empirischen Analysen (und die jeweils zugrunde liegenden theoretischen Konzepte) jedoch implizit häufig davon aus, dass alleine individuelle Determinanten für die festgestellten Bildungsungleichheiten ursächlich sind und es somit für die Bildungschancen vernachlässigbar ist, in welchem Klassen- und Schulkontext bzw. regionalem Umfeld oder sozialem Netzwerk sich eine Schülerin bzw. ein Schüler befindet. Neuere Untersuchungen auf Basis von Mehrebenenanalysen zeigen allerdings, dass auch die Bedingungen in den Klassen, Schulen und Regionen sowie die Lehrkräfte und die Zusammensetzung des Freundeskreises der Schüler einen erheblichen Einfluss auf den individuellen Bildungserfolg haben.

Democratic Leadership in Education Oct 10 2020 `This is an important book for

anyone who is serious about introducing or sustaining democratic leadership in schools. Busy practitioners will get much from it by going straight to the chapters about how democratic leadership could be made to work` - Kate Myers, Times Educational Supplement `I found this an interesting and stimulating book. The book's ideas are a useful counterpoint to some of the daft notions of macho leadership and management being peddled in education and indeed the public sector more widely. Woods' book has the merits that, though radical, it seeks to base its recommendations in the real world and to argue that there are possibilities for change that can bring about real improvements in everyone's experience and outcomes. Matching the rhetoric of democracy with reality - or at least making them closer - might also improve the quality of our political process, and hence increase interest and reduce cynicism about politics, something which surely should be welcomed. Woods' agenda is significant and his book certainly worth reading' - ESCalate `Philip Woods productively refocuses our attention, not on heroes and visions but on how we understand and practise within educational institutions in ways that are social and relational. He provides a realistic and yet challenging analysis of democratic leadership in ways that speak to practitioners, policy makers and researchers. We deal everyday with issues of social justice, and Philip Woods shows us how we might think differently about it, and so

work for a better system of learning and schooling' - Professor Helen Gunter, School of Education, University of Manchester 'Not another bunny, but a welcome academic fox' - Kevin Avison, Steiner Waldorf Schools' Fellowship 'The theory and practice of democracy and democratic leadership have implications for how we understand what ought to be counted as 'improving schools' In this book the author focuses on the idea of democratic leadership. He examines what is meant by democratic leadership, and what forms it can take, and shows how it is relevant to school education and learning. The author shows how the ideals and theories of democratic leadership can translate into practice, and sets out some of the challenges that democratic leadership poses in the context of contemporary education . This book challenges many of the assumptions inherent in educational policy and conventional approaches to leadership. It is about understanding and exploring both the idea of democratic leadership and its practical relevance through examples drawn from practice and research. This book is for practitioners and students on professional development and academic courses. It will be essential reading for all policy-makers, academics and others (such as inspectors) who critically examine leadership and management of educational institutions. 'Every now and then a book is written in the field of leadership that stands out, says something different, is coherent, original and makes us really ponder and think. This is such a

book - it will provoke policy-makers, academics, experienced practitioners and advanced students' - Cambridge Journal & Education

Policy Options for Interventions in Failing Schools Sep 01 2022 Discusses the theory underlying various responses to the problem of failing schools, including parental choice and government interventions. Examines New Zealand's experience with failing schools and intervention strategies in underperforming schools in California; applies the results of the research education reform in the Emirate of Qatar.

Principles of Management Mar 15 2021 Principles of Management is designed to meet the scope and sequence requirements of the introductory course on management. This is a traditional approach to management using the leading, planning, organizing, and controlling approach. Management is a broad business discipline, and the Principles of Management course covers many management areas such as human resource management and strategic management, as well as behavioral areas such as motivation. No one individual can be an expert in all areas of management, so an additional benefit of this text is that specialists in a variety of areas have authored individual chapters.

The Wiley Encyclopedia of Personality and Individual Differences, Models and Theories Sep 28 2019 Volume 1, Models and Theories of The Wiley Encyclopedia of Personality and Individual Differences The Encyclopedia of Personality and Individual Differences (EPID) is organized into four volumes that look at the many likenesses and differences between individuals. Each of these four volumes focuses on a major content area in the study of personality psychology and individuals' differences. The first volume, *Models and Theories*, surveys the significant classic and contemporary viewpoints, perspectives, models, and theoretical approaches to the study of personality and individuals' differences (PID). The second volume on *Measurement and Assessment* examines key classic and modern methods and techniques of assessment in the study of PID. Volume III, titled *Personality Processes and Individuals Differences*, covers the important traditional and current dimensions, constructs, and traits in the

study of PID. The final volume discusses three major categories: clinical contributions, applied research, and cross-cultural considerations, and touches on topics such as culture and identity, multicultural identities, cross-cultural examinations of trait structures and personality processes, and more. Each volume contains approximately 100 entries on personality and individual differences written by a diverse international panel of leading psychologists. Covers significant classic and contemporary personality psychology models and theories, measurement and assessment techniques, personality processes and individual differences, and research. Provides a comprehensive and in-depth overview of the field of personality psychology. The Encyclopedia of Personality and Individual Differences is an important resource for all psychology students and professionals engaging in the study and research of personality.

Brand New Ancients Dec 24 2021 Kate Tempest is one of the most exciting and innovative performers to have emerged in spoken-word poetry in many years; her dramatic poem *Brand New Ancients* won the prestigious Ted Hughes Prize for innovation in poetry. Tempest's wholly unique blend of street poetry, rap and storytelling – combined with the spellbinding delivery of an open-air revivalist – has won her legions of followers all over the UK. Her remarkable stage presence is wholly audible in this poem, a spoken story written to be told with live music. *Brand New*

Ancients is the tale of two families and their intertwining lives, set against the background of the city and braided with classical myth. Here, Tempest shows how the old myths still live on in our everyday acts of violence, bravery, sacrifice and love – and that our lives make tales no less dramatic and powerful than those of the old gods.

The Law Is No Lady Oct 29 2019 Everyone was talking about the sudden marriage between Kate Randall and Ethan Walker. Why would an honorable court judge want to marry a disreputable outlaw? Maybe it was her compassion for the child he sought custody of. Or maybe she'd made the mistake of falling for a rugged loner who could never give her more than his name.

Leadership for Mortals Nov 30 2019 'Overall, and as one has come to expect from Fink, this is a readable text that thinks outside the box of leadership theory... I have no doubt that the text will be welcomed by many readers for an engaging style that places human interest at the heart of the discourse in the field' - Mark Brundrett, writing in Educational Management Administration and Leadership 'It is a 'must read' for those in educational leadership roles in schools, both to gain invaluable insights and to draw on a framework for individual reflection' - Professor Brent Davies, University of Hull 'I enjoyed reading this book. The combination of critical reflection of his experience in the light of relevant literature makes for a lively and thought-provoking book. I was

going to say "little" book, because at times I would have liked to have read more. But on the other hand, it is the sort of book one - the academic and the leader - could read in one sitting, enjoy and come back to for some ideas. I recommend you to do so' - ESCalate `This book provides a refreshing alternative to the rhetoric about 'superheads', and 'mavericks' that has been prevalent in some of the recent discourse about leadership. Dean Fink draws heavily upon the work of Andy Hargreaves, Michael Fullan and his own research with Louise Stoll so some of the ideas are familiar. However, what makes Leadership for Mortals interesting is the way in which he untangles the complexities of leadership by using genuine examples alongside the theory. Dean Fink's writing is accessible and his anecdotal style should resonate with his intended audience of current and prospective leaders' - LDR, The Magazine for School Leaders `This book is a welcome antidote to the notion of school leaders as heroic figures. Dean Fink's commitment to enhancing the life chances of young people shines through the pages' - Kate Myers, Times Educational Supplement `With great wisdom and insight, Dean Fink invites us into his leadership stories to masterfully illustrate that school leadership is no longer a person but an intricate network of 'mortals' working together to enhance learning experiences for students. They are truly leaders of learning, where commitment to successful learning for all students is the

locus of their passion, perseverance and persuasion. Balanced with connections to respected leadership literature, this lucid and eloquent book will inspire current and future school leaders to reflect and develop their leadership practice to higher levels of effectiveness. An outstanding and optimistic read for all school leadership mortals, practitioners and scholars alike. I enjoyed it immensely' - David Eddy, Director, First-time Principals Programme, The University of Auckland`Practitioners will find this book at the same time reassuring and challenging. Fink includes stories of leadership that highlight effective strategies and some approaches that have gone wrong. They are real and ring true and therefore credible and instructive' - Ken Thompson Principal, Gladstone Park Secondary College, Australia`A great story about schools and their leaders progressing towards a knowledge driven world and the roads they choose to travel. Building sustainable communities of practice and the credible and varied examples of how the combination of leadership behaviour and enabling and disabling processes can make or break a successful school are clearly illustrated in Leadership for Mortals. A significant read for all aspirant and accomplished leaders' - - Jenny Lewis, Executive Officer, Australian Council for Educational Leaders 'Dean Fink brings together a wealth of learning from his own experience as a leader and learner to provide some powerful messages. This is a well-informed book with a strong

theoretical basis but it is also personal and real, making sense of educational leadership in a way that is both profound and down-to-earth. School leaders in the UK and elsewhere will find inspiration, reassurance and challenge in this book' - Steve Munby, Chief Executive, National College for School Leadership 'Grounded in solid knowledge base and profound lived experience, Dean Fink's Leadership for Mortals provides deep insights on how ordinary practitioners could become great and sustainable leaders of learning. Fink's book is not a "quick-fix" how-to-do-it manual. It stimulates us to reflect on education leadership both as a personalized, value-laden journey and an art as well as reminds us of the imperative issues of extraordinary commitment, effort and determination in making a difference on leading students and teachers' learning. This is a must-read book for aspiring and serving leaders in the field of education' - Professor John Chi-kin Lee, Dean of Education, The Chinese University of Hong Kong, Hong Kong 'Its style is conversational and unpatronizing, yet it makes powerful statements about the key components that contribute to successful leadership. It is always practical, and readers will come away from this book knowing they have learned something that they will be keen to try out for themselves...Readers will recognise leaders good and bad that they have come across, at times being reassured that they are getting it right and at others despairing as they identify situations in which

they, too, got it wrong. Fink's writing makes it clear that leadership is not exact science! He reminds us that, although we are mortals, with good mentoring and better training our own potential has a better chance of being realised, and that this is the best way to enable our students to achieve their own potential.' Journal of Research in International Education Leadership in recent years has become a growth industry. Politicians demand more of it, academics decry the lack of it, and potential school leaders are deciding 'to hell with it'we are making the business of leadership so complicated that we seem to need John Wayne at his mythological best or Xena the Warrior Princess to run a school. Most educational leaders are not 'heroic' but rather ordinary people who through extraordinary commitment, effort, and determination have become extraordinary, and have made the people around them exceptional. Educational leadership is more art than science; it is more about character than technique; it is more about inspiration than charisma; it is more about leading students and teachers' learning than the management of things This resource for prospective and practising school leaders: - motivates and inspires - addresses the challenges of contemporary school leadership - presents a model for leadership development, selection and succession - challenges existing and prospective leaders to develop and live by a set of core values based on students' learning - describes and explains the

'learnings' required by effective leaders of learning - describes the intellectual 'tool kit' that leaders can develop - describes the trajectories through which leaders proceed, and the 'learnings' required at each stage of the leaders evolution - presents a template for leadership development and succession.
