Summary of Justin Whitmel Earley's Habits of the Household Aug 30 2020 Please note: This is a companion version & not the original book. Sample Book Insights: #1 I was thinking about how this was a typical night for my boys, which meant their last image of me was of a wild taskmaster raging about how if they didn't get pj's on this instant, there would be dramatic physical consequences. I wondered if they sensed the irony. #2 The idea of a bedtime liturgy sounded strange at first, but the more I thought about it, the more it made sense. A liturgy is a pattern of worship we repeat over and over, hoping that the pattern will draw us into worship and form us in the image of the one we worship. #3 The significance of a family pattern is that it is not just a moment. It is not something you do once and say, Well, that went swimmingly! or, That was rough. It is a routine you practice, whether consciously or unconsciously. #4 The basal ganglia, which are the parts of our brains that perform on autopilot, are the basis of habits. They are the things we do over and over, unconsciously. Habits are the result of these habits. They occupy most of our time and form most of our minds.

No Little Women Nov 01 2020 Why are so many well-intentioned women falling for pooreven false theology? Public Economics and the Household Oct 12 2021 Economic models in much of the public economics literature have been slow to reflect the significant changes towards double-income households throughout the developed world. This graduate-level text develops a more sophisticated approach to household economics, one that allows for multiple-income earners and shared decision-making. This approach is used to present a fundamentally new view of consumption. It then applies this to an analysis of tax systems, combining theoretical analysis of optimal taxation and tax reform with careful empirical study of the characteristics of income tax systems in four different countries: Australia, Germany, the UK and the USA. The book is particularly concerned with analysing, both theoretically and empirically, the impact of taxation on female labour supply, and identifying its effects on work incentives and fairness of income distribution. All this adds up to a fascinating new approach to the economics of household for researchers in both public and private sectors.

Kinship in the Household of God Dec 26 2022 This unique volume contributes a profound-autism perspective to the ongoing discussion of belonging in the church. By taking readers into two church communities, the author explores the issues of belonging from those least welcomed by the church and consider what the church should do differently. Adopting a "we" approach, she emphasizes the unity of different members in Christ. As one body in Christ, all believers share Christ's sonship and become children of God. The household concept invites readers to reconceptualize Christian relationships as covenantal kinship. The kinship

relationship is established by God's covenantal commitment fulfilled in Christ. With or without autism, any person who obeys God's summons is incorporated into Christ's body by the Spirit to become God's child. Believers are thus siblings to one another. Viewing each person this way enables us to see beyond human differences and welcome one another as God's gifts and indispensable members of the community.

The Enemy in the Household May 07 2021 This fresh approach to troubling biblical texts explores the "family violence" passages in Deuteronomy, tracing their ancient interpretation and assessing their contemporary significance. Three laws in Deuteronomy command violence against a family member--the enemy in the household--who leads others away from covenantal obligations to God. This book examines such "constructive" violence carried out to protect the covenant community by investigating the reading practices of ancient Jewish and Christian interpreters of Scripture and their applications of these passages. It also helps modern readers approach biblical texts that command violence in the family, providing a model for the ethical interpretation of these difficult texts.

The Household of Jairus; Secrets, Lies & Miracles Sep 11 2021 This novel is a rich exploration of two New Testament healings: the bleeding woman who touched the hem of Jesus's garment and the daughter of Jairus the Pharisee. The Gospel of Luke (8:40-48) sets the miracles on the same day as Jesus and a crowd make their way to the house of Jairus. Could there be a connection between the woman who has bled for twelve years and the twelve-year-old girl who has died? If so, how are they related? What desperation drives the weakened woman to push through the crowd and emboldens her to touch the hem of Jesus? What compels a strict, faithful Pharisee to step outside the confines of his beliefs and risk ridicule and shunning from his neighbors to seek help from a questionable, itinerant rabbi? How does life change for them after the women are healed? This moving story has emerged from the author's knowledge of and reflection on scripture along with careful research into the time and place of the event. Characters come to life as their stories unfold, revealing intimate portraits of life and love in Roman-occupied Capernaum. Ultimately, this is a story of newfound faith that of Jairus and the members of his household as their belief in God's love and mercy is tested and transformed through the miracles of Jesus. The author has made every effort to present an accurate account of first-century life in Galilee during the lifetime of Jesus and the early years of Christian conversion that followed His resurrection. Anyone who has struggled with doubt and whose own faith has been tested will be inspired to learn how the members of a single household came to believe in miracles! The Global Political Economy of the Household in Asia Feb 04 2021 The household has traditionally been neglected in studies of Asian political economy. While there is an emergent literature that looks at this relationship, to date, it is fragmented. The contributors consider how the household economy has increasingly been incorporated into development planning and policy making within both states and multilateral development agencies. They examine the social consequences of the tendency to view households as marketizable spaces, and explore how the household economy relates to broader structures of industrial production in the region. With case studies on Singapore, Malaysia, Sri Lanka, India, Japan, South Korea, Vietnam and China, they provide a comprehensive picture of the centrality of the household economy to ongoing processes and struggles associated with the continuous economic transformation of the region.

Household Worms Oct 20 2019 Stanley Donwood says of a selection of stories contained in *Household Worms* that were inspired by drinking red wine alone at night: 'These were written to avoid staring for too long at a night-filled window that only reflected my own sorry-for-itself face. Perhaps I should try writing with white wine too. A lighter tone may emerge. Champagne would probably get me writing jokes for crackers. Never mind, never mind.' Donwood is best known as an artist, but this collection confirms his prowess as an equally talented writer of prose.

Heroines of the household. By the author of *'The heavenward path'*. Apr 06 2021

Dwelling in the Household of God Nov 25 2022 In her remarkable first book, *God Dwells With Us: Temple Symbolism in the Fourth Gospel*, Mary L. Coloe, P.B.V.M., explored the profound insight of John's Gospel expressed in Jesus' invitation to his disciples: *Make your home in me, as I make mine in you* (John 15:4). For the gospel's author and audience, the dwelling of God among humans was, above all, the Jerusalem Temple. The gospel traces how 'after the trauma of the destruction of the Temple' the Johannine community came to expand and deepen its knowledge of God's dwelling among humans, finding it now in the person of Jesus and

in the community of believers. *Dwelling in the Household of God* moves us from seeing God's dwelling place as the Temple to seeing God's dwelling place within the community of believers. The starting point now is an image in John 14:2: my Father's house, which is given its Old Testament meaning of my father's household. Our awareness thus moves, like that of the first Christians, from understanding My father's house as the Temple (John 2:16) to My Father's Household as a community of believers drawn into Jesus' own divine filiation. Coloe invites us to re-read the gospel from the post-Easter perspective of those who have become brothers and sisters of Jesus and living Temples of God's presence. What emerges is nothing less than a profound mysticism of the mutual indwelling of God and believers. Mary Coloe, PBVM, DTh, holds a joint teaching position at the Australian Catholic University and St Paul's Seminary, Brisbane. Her publications include numerous articles and *God Dwells With Us: Temple Symbolism in the Fourth Gospel* (Liturgical Press, 2001).

Objects of affection May 27 2020 *Objects of affection* recovers the emotional attraction of the medieval book through an engagement with a fifteenth-century literary collection known as Oxford, Bodleian Library Manuscript Ashmole 61. Exploring how the inhabitants of the book's pages - human and nonhuman, tangible and intangible - collaborate with its readers then and now, this book addresses the manuscript's material appeal in the ways it binds itself to different cultural, historical and material environments. In doing so it traces the affective literacy training that the manuscript provided its late-medieval English household, whose diverse inhabitants are incorporated into the ecology of the book itself as it fashions spiritually generous and socially mindful household members.

The Household of God Jun 20 2022 This book discusses the question that the author regards as central in the present ecumenical debate: the nature of the Church itself. He thus describes the plan of the book: The First chapter sketches the present context of the discussion and touches on the Biblical meaning of the word Church. The next three chapters examine the three answers to the central question, which may be roughly categorized as Protestant, Catholic, Pentecostal. The last two chapters argue that the Church is only to be understood in a perspective that is at once eschatological and missionary, the perspective of the ends of the earth. Bishop Newbigin's evaluations are provocative, scholarly, and filled with profound passion and insight. He is concerned with the searching questions men today are asking: Is there in truth a family of God on earth to which I can belong, a place where all men can be truly at home? If so, where is it to be found and how is it that those who claim to be spokesmen of that holy fellowship are themselves at war with one another as to the fundamentals of its nature? I think there is no more urgent theological task than to try to give plain and simple answers. This he does, drawing deeply upon biblical sources.

The Two-Headed Household Nov 20 2019 *The Two-Headed Household* is an ethnographic account of gender relations and intrahousehold decisionmaking as well as a policy-oriented study of gender and development in the indigenous Andean community of Chanchalo, Ecuador. Hamilton's main argument is that the households in these farming communities are "two-headed." Men and women participate equally in agricultural production and management, in household decisionmaking, and share in the reproductive tasks of child care, food preparation, and other chores. Based on qualitative fieldwork and regional household survey data, this book

investigates the effect on women's lives of gender bias in agricultural development programs and labor and commodities markets. Despite household economic reliance on these programs and markets, there is extraordinary evidence of social and economic gender equality. Traditional Andean kinship structures enable women and men to enter marriage as materially equal partners. As seen in case studies of five women and their families, the author continually encounters joint decisionmaking and shared household and agricultural responsibilities. In fact, it often seems that women have the final say in many decisions. There is the belief that a dynamic balance of power between male and female heads provides an impetus toward mutually desired economic and social goals. Despite the strong influence of the patriarchal power of the hacienda system, Andean gender ideology accords women and men equal measures of physical, mental, and emotional fortitude. The belief that maintaining traditional forms of economic collaboration helped them survive on the hacienda was reinforced under the economic and political domination of the patriarchal systems of the landed elite, church, and state. Today, these people are proud of their strong women, strong families, and community solidarity which they believe distinguishes them from Ecuadorean and American societies. Hamilton suggests that women in developing countries should not be viewed as simply, or even inevitably, victims of gender-biased structural or cultural institutions. They may resist male bias, perhaps even with the support of local-level institutions. *The Two-Headed Household* demonstrates that analysis of gender relations should focus on forms of cooperation among women and men, as well as on forms of conflict, and will be of interest to scholars and students in anthropology, gender and development, and Latin American Studies.

Revitalisation of the Household Economy Mar 05 2021 With the transformation of the role of the welfare state, the "social engagement" and "active participation" were taking the place of passive benefits. The importance of individual actions is becoming more and more prominent. With the reduction of welfare benefits and expansion of the workfare model after the crisis of 2008, the main objective of the local integration programmes was to strengthen self-sufficiency of social group with precarious life situations in rural areas of Hungary. The purpose of this volume is to give a brief overview of the most important local integration programmes of the past quarter century, focusing on the social land programme. The analysis, summarising the results of an empirical study, presents the main turning points of the local integration models, the changing environmental conditions, as well as the adaptation strategies and the possible directions of development of local communities in Hungary.

Household Chores and Household Choices Sep 18 2019 Discusses the concepts of "home," "house," and "household" in past societies Because archaeology seeks to understand past societies, the concepts of "home," "house," and "household" are important. Yet they can be the most elusive of ideas. Are they the space occupied by a nuclear family or by an extended one? Is it a built structure or the sum of its contents? Is it a shelter against the elements, a gendered space, or an ephemeral place tied to emotion? We somehow believe that the household is a basic unit of culture but have failed to develop a theory for understanding the diversity of households in the historic (and prehistoric) periods. In an effort to clarify these questions, this volume examines a broad range of households—a Spanish colonial rancho along the Rio Grande, Andrew Jackson's Hermitage in Tennessee, plantations in South Carolina and the Bahamas, a Colorado coal camp, a frontier Arkansas farm, a Freedman's Town eventually swallowed by Dallas, and plantations across the South—to define and theorize domestic space. The essays devolve from many disciplines, but all approach households from an archaeological perspective, looking at landscape analysis, excavations, reanalyzed collections, or archival records. Together, the essays present a body of knowledge that takes the identification, analysis, and interpretation of households far beyond current conceptions.

Reconstructing the Household Jun 08 2021 In *Reconstructing the Household*, Peter Bardaglio examines the connections between race, gender, sexuality, and the law in the nineteenth-century South. He focuses on miscegenation, rape, incest, child custody, and adoption laws to show how southerners struggled with the conflicts and stresses that surfaced within their own households and in the larger society during the Civil War era. Based on literary as well as legal sources, Bardaglio's analysis reveals how legal contests involving African Americans, women, children, and the poor led to a rethinking of families, sexuality, and the social order. Before the Civil War, a distinctive variation of republicanism, based primarily on hierarchy and dependence, characterized southern domestic relations. This organic ideal of the household and its power structure differed significantly from domestic law in the North, which tended to emphasize individual rights and contractual obligations. The defeat of the Confederacy, emancipation, and economic change transformed family law and the governance of sexuality in the South and allowed an unprecedented intrusion of the state into private life. But Bardaglio argues that despite these profound social changes, a preoccupation with traditional notions of gender and race continued to shape southern legal attitudes.

Family and Friends in Eighteenth-Century England Mar 25 2020 This 2001 book concerns the history of the family in eighteenth-century England. Naomi Tadmor provides an interpretation of concepts of household, family and kinship starting from her analysis of contemporary language (in the diaries of Thomas Turner; in conduct treatises by Samuel Richardson and Eliza Haywood; in three novels, Richardson's *Pamela* and *Clarissa* and Haywood's *The History of Miss Betsy Thoughtless* and a variety of other sources). Naomi Tadmor emphasises the importance of the household in constructing notions of the family in the eighteenth century. She uncovers a vibrant language of kinship which recasts our understanding of kinship ties in the period. She also shows how strong ties of 'friendship' formed vital social, economic and political networks among kin and non-kin. *Family and Friends in Eighteenth-Century England* makes a substantial contribution to eighteenth-century history, and will be of value to all historians and literary scholars of the period.

Controlling Corporeality Apr 25 2020 Human bodily existence is at the core of the Torah and the rest of the Hebrew Scriptures--from birth to death. From God's creation of Adam out of clay, to the narratives of priests and kings whose regulations governed bodily practices, the Hebrew Bible focuses on the human body. Moreover, ancient Israel's understanding of the human body has greatly influenced both Judaism and Christianity. Despite this pervasive influence, ancient Israel's view of the human body has rarely been studied and, until now, has been poorly understood. In this beautifully written book, Jon L. Berquist guides the reader through the Hebrew Bible, examining ancient Israel's ideas of the body, the unstable roles of gender, the deployment of sexuality, and the cultural practices of the time. Conducting his analysis with reference to contemporary theories of the body, power, and social control, Berquist offers not only a description and clarification of ancient Israelite views of the body, but also an analysis of how these views belong to the complex logic of ancient social meanings. When this logic is understood, the familiar Bible becomes strange and opens itself to a wide range of new interpretations.

Household Economic Behaviors Jul 09 2021 Significant recent changes in the structure and composition of households make the study of the economic relationships within the household of particular interest for academics and policy-makers. In this context, *Household Economic Behaviors*, through its focus on theoretical and empirical chapters on a range of economic behaviors within the household, provides a new and timely viewpoint. Following the Introduction and one or two surveys which give a general background, the volume includes theoretical and empirical perspectives on allocation of available time within the household, monetary and non-monetary transfers between household members, and intra-household bargaining.

Martha Lloyd's Household Book Aug 10 2021 This is the first facsimile publication of 'Martha Lloyd's Household Book', the manuscript cookbook of Jane Austen's closest friend. Martha's notebook is reproduced to scale in a colour facsimile section with complete transcription and detailed annotation. Introductory chapters discuss its place among other household books of the long eighteenth century. Martha Lloyd befriended a young Jane Austen and later lived with Jane, her sister Cassandra and their mother at the cottage in Chawton, Hampshire, where Jane wrote or revised her novels. Martha later married into the Austen family. Her collection features recipes and remedies handwritten during a period of over thirty years and includes the only surviving recipes from Mrs Austen and Captain Francis Austen, Jane's mother and brother. There are many connections between

Martha's book and Jane Austen's writing, including white soup from 'Pride and Prejudice' and the author's favourites - toasted cheese and mead. The family, culinary and literary connections detailed in the introductory chapters of this work give a fascinating perspective on the time and manner in which both women lived, thanks to this extraordinary artefact passed down through the Austen family.

The Household of Bouverie Dec 22 2019

[The Household](#) Jan 23 2020 Some people dwell alone, many in family-based households, and an adventuresome few in communes. The Household is the first book to systematically lay bare the internal dynamics of these and other home arrangements. Legal underpinnings, social considerations, and economic constraints all influence how household participants select their homemates and govern their interactions around the hearth. Robert Ellickson applies transaction cost economics, sociological theory, and legal analysis to explore issues such as the sharing of household output, the control of domestic misconduct, and the ownership of dwelling units. Drawing on a broad range of historical and statistical sources, Ellickson contrasts family-based households with the more complex arrangements in medieval English castles, Israeli kibbutzim, and contemporary cohousing communities. He shows that most individuals, when structuring their home relationships, pursue a strategy of consorting with intimates. This, he asserts, facilitates informal coordination and tends ultimately to enhance the quality of domestic interactions. He challenges utopian critics who seek to enlarge the scale of the household and legal advocates who urge household members to rely more on written contracts and lawsuits. Ellickson argues that these commentators fail to appreciate the great advantages in the home setting of informally associating with a handful of trusted intimates. The Household is a must-read for sociologists, economists, lawyers, and anyone interested in the fundamentals of domestic life.
