**MASKS** Feb 18 2022 This interdisciplinary anthology explores the complex relationships in an artist's life between fact and fiction, presentation and existence, and critique and creation, and examines the work that ultimately results from these tensions. Using a combination of critical and personal essays and interviews, MASKS presents Bowie as the key exemplifier of the concept of the 'mask', then further applies the same framework to other liminal artists and thinkers who challenged the established boundaries of the art/pop academic worlds, such as Friedrich Nietzsche, Oscar Wilde, Søren Kierkegaard, Yukio Mishima and Hunter S. Thompson. Featuring contributions from John Gray and Slavoj Žižek and interviews with Gary Lachman and Davide De Angelis, this book will appeal to scholars and students of cultural criticism, aesthetics and the philosophy of art; practising artists; and fans of Bowie and other artists whose work enacts experiments in identity.

**Puppets, Masks, and Performing Objects** Jan 25 2020 This volume, which originally appeared as a special issue of TDR/The Drama Review, looks at puppets, masks, and other performing objects from a broad range of perspectives. Puppets and masks are central to some of the oldest worldwide forms of art making and performance, as well as some of the newest. In the twentieth century, French symbolists, Russian futurists and constructivists, Prague School semioticians, and avant-garde artists around the world have all explored the experimental, social, and political value of performing objects. In recent years, puppets, masks, and objects have been the focus of Broadway musicals, postmodernist theory, political spectacle, performance art, and new academic programs, for example, at the California Institute of the Arts. This volume, which originally appeared as a special issue of TDR/The Drama Review, looks at puppets, masks, and other performing objects from a broad range of perspectives. The topics include Stephen Kaplin's new theory of puppet theater based on distance and ratio, a historical overview of mechanical and electrical performing objects, a Yiddish puppet theater of the 1920s and 1930s, an account of the Bread and Puppet Theater's Domestic Resurrection Circus and a manifesto by its founder, Peter Schumann, and interviews with director Julie Taymor and Peruvian mask-maker Gustavo Boada. The book also includes the first English translation of Pyotr Bogatyrev's influential 1923 essay on Czech and Russian puppet and folk theaters. Contributors John Bell, Pyotr Bogatyrev, Stephen Kaplin, Edward Portnoy, Richard Schechner, Peter Schumann, Salil Singh, Theodora Skiptares, Mark Sussman, Steve Tillis

**Truth About Masks** Jan 05 2021 Do we really need to wear masks? From the New York Times Bestselling authors of *Plague of Corruption* comes the must-read guide on masks and re-opening following the COVID-19 pandemic. The *Truth About Masks* is the book all America needs to be reading as the COVID-19 pandemic rages on. Written by New York Times bestselling authors Dr. Judy Mikovits and Kent Heckenlively, this book reviews the evidence for and against widespread public masking as provided by the Centers for Disease Control and the Mayo Clinic, as well as top scientific publications such as the *New England Journal of Medicine* and *The Lancet*. This debate needs to take place without fear and paranoia. Important questions raised in this book are the effect of masks on oxygen and carbon dioxide levels, how COVID-19 spreads, the effectiveness of various types of masks, those who are most vulnerable to COVID-19, and what measures should be taken by schools as children continue to return to in-person classes. The authors' previous book, *Plague of Corruption*, was the runaway science bestseller of 2020, and the authors bring that same passion and attention to detail to the mask question. As politicians and bureaucrats of all stripes are weighing in on this question, with some again placing their cities and states under mandatory masking provisions, we need to understand the science behind their decisions. Are such measures a reasonable response to current circumstances, or is it a dramatic overreach, which in many cases might make the situation even worse? America desperately needs this public conversation to take place with the best science we have available. As Americans have always done during difficult times, we must summon the courage to have these challenging conversations.

**The Case for Masks** Feb 06 2021 The science behind wearing a mask to stop the spread of Coronavirus, from a top expert in the field. In America, the debate over whether or not masks should be worn to prevent the spread of COVID-19 has become enmeshed with political affiliation, views on religious and personal freedoms, and conflicting media reports on the benefits and dangers of facial coverings. But now, several months into this pandemic, what does science say? What have we learned from international case studies? Dr. Hashimoto, the chief medical officer who oversees the Workplace Health and Wellness division at Mass General Brigham, a Harvard Medical School affiliated healthcare system, presents the current research, making the case that wearing masks in public is a key part of saving lives and bringing this pandemic to a halt. Citing specific examples of situations where infected individuals wore masks versus ones who didn't and how that changed the outcome, as well as population-based studies in individual states and by country, and the undeniable effect that universal masking had on Mass Brigham Hospital's staff of 75,000, Dr. Hashimoto offers a clear and compelling argument for the benefits of masking. In addition, he explains the complementary roles of social distancing, washing hands, coronavirus testing, and face shields, and a thorough exploration of what kinds of masks are most effective at stopping the spread of viruses and how they should be fitted and worn. He addresses safety concerns and medical misconceptions about mask wearing, why the CDC didn't recommend universal mask wearing at the beginning of the pandemic, and how employers can promote mask wearing in their workplaces. Don't wear a mask just because someone told you to. Find out the real reasons for masking and understand the science for yourself.

**Masks and Masking** Aug 24 2022 For at least 20,000 years, masking has been a mark of cultural evolution and an indication of magical-religious sophistication in society. This book provides a comprehensive understanding of the mask as a powerful cultural phenomenon--a means by which human groupings attempted to communicate their dignity and sense of purpose, as well as establish a continuum between the natural and supernatural worlds. It addresses the distinctive environments within which masks flourished, and analyzes the mask as a manifestation of art, ethnology and anthropology.

**Masks and Human Connections** Sep 01 2020 This interdisciplinary collection explores four distinct perspectives about the mask, as object of use for protection, identity, and disguise. In part I, contributors address human identities within collective social performance, with chapters on performativity and the far right and masked identities in political resistance and communication. Part II focuses on the mask as a signifying object with strong representational challenges, exploring representations in festivals, literature, and film. Part III investigates the ambiguous use of the mask as a protective and concealing element, delving into visual culture and digital social media contexts. Finally, Part VI draws on the work of Levinas and Deleuze to investigate a philosophical view of the mask that addresses memory and ethics within intersubjective relationships. Questioning the contemporary world, using communication, sociology, visual culture, and philosophical theory, the volume provides a pedagogical and formative perspective on the mask.

**Ralph Eugene Meatyard** Oct 02 2020 In 1950s America there were neither likely nor logical paths for a photographer. Family man, optician, photographer and avid reader, Ralph Eugene Meatyard found himself in the midst of a cultural and philosophical movement in Lexington, Kentucky, which at that time included such figures as Thomas Merton, Wendell Berry and Guy Davenport. Through the camera, Meatyard explored and created a fantasy world of dolls and masks, where his family members played the central roles on an ever-changing stage. *Dolls and masks* opens the door on a decade of rich experimentation, presenting 55 mostly unseen works from the artist.

**Of Masks And Mirrors** Sep 20 2019 *Of Masks and Mirrors* is a collection of poetry written over the course of the COVID-19 pandemic. A year that has struck the entire world deeply but has more than ever taught us the value of art - be it literature, music, visual art, or poetry. This collection has sought to combine reverence for the past greats and the long-standing tradition of English literature with a sense of actuality and innovation. Traditional form and meter are indispensable to Capelle's verse and style of writing. This work is to be a journey through a world where the territory is not always tranquil and safe, at times even treacherous and completely lost in archaism. This journey, however, will always find herself back in the marvels, wonders and miracles of (human) nature and whatever beauty it is that we have been granted possession over. Its purpose is very much to console, reassure and comfort every soul that comes along, as literature has always managed to do.

**Masking Unmasked** Jul 11 2021 Acting with masks is one of the most ancient stage techniques still in use today. *Masking Unmasked* is a basic guide to using this ancient art to develop character and movement in four sections that correspond to mask size: Full-Face Masks, Clowning, Bag Masks, and Half-Face Masks. Each section addresses fundamental acting principles and shows how the ancient technique can be applied to the contemporary stage. It is the perfect book to use as background to traditional, non-masked acting principles. For instance, mask acting provides a great way of strengthening core acting skills. Actors in masks experience the primary goal of acting because they are required to tap into profound physical, vocal, emotional, and psychological transformations in the course of creating a character. In addition, masking promotes honest, believable, and detailed work. Illustrated profusely throughout, the hands-on exercises developed by Simon teach actors to shift cleanly between beats, execute moment-to-moment specificity, unleash creative impulses, take risks and expand character range, power and vulnerability. *Masking Unmasked* is a book of ancient acting techniques that are indispensable for the actor of today.

**The Face Mask In COVID Times** Nov 27 2022 The simple fabric face mask is a key agent in the fight against the global spread of COVID-19. However, beyond its role as a protective covering against coronavirus infection, the face mask is the bearer of powerful symbolic and political power and arouses intense emotions. Adopting an international perspective informed by social theory, *The Face Mask in COVID Times: A Sociomaterial Analysis* offers an intriguing and original investigation of the social, cultural and historical dimensions of face-masking as a practice in the age of COVID. Rather than Beck's 'risk society', we are now living in a 'COVID society', the long-term effects of which have yet to be experienced or imagined. Everything has changed. The COVID crisis has generated novel forms of sociality and new ways of living and moving through space and time. In this new world, the face mask has become a significant object, positioned as one of the key ways people can protect themselves and others from infection with the coronavirus. The face mask is rich with symbolic meaning as well as practical value. In the words of theorist Jane Bennett, the face mask has acquired a new 'thing-power' as it is coming together with human bodies in these times of uncertainty, illness and death. The role of the face mask in COVID times has been the subject of debate and dissension, arousing strong feelings. The historical and cultural contexts in which face masks against COVID contagion are worn (or not worn) are important to consider. In some countries, such as Japan and other East Asian nations, face mask wearing has a long tradition. Full or partial facial coverings, such as veiling, is common practice in regions such as the Middle East. In many other countries, including most countries in the Global North, most people, beyond health care workers, have little or no experience of face masks. They have had to learn how to make sense of face masking as a protective practice and how to incorporate face masks into their everyday practices and routines. Face masking practices have become highly political. The USA has witnessed protests against face mask wearing that rest on 'sovereign individualism', a notion which is highly specific to the contemporary political climate in that country. Face masks have also been worn to make political statements: bearing anti-racist statements, for example, but also Trump campaign support. Meanwhile, celebrities and influencers have sought to advocate for face mask wearing as part of their branding, while art makers, museums, designers and novelty fashion manufacturers have identified the opportunity to profit from this sudden new market. Face masks have become a fashion item as well as a medical device: both a way of signifying the wearer's individuality and beliefs and their ethical stance in relation to the need to protect their own and others' health. *The Face Mask in COVID Times: A Sociomaterial Analysis* provides a short and accessible analysis of the sociomaterial dimensions of the face mask in the age of COVID-19. The book presents seven short chapters and an epilogue. We bring together sociomaterial theoretical perspectives with compelling examples from public health advice and campaigns, anti-mask activism as well as popular culture (news reports, blog posts, videos, online shopping sites, art works) to illustrate our theoretical points, and use images to support our analysis.

**Masks** Mar 27 2020 **Masks** is the first novel in the dystopian fantasy **Masks of Aygrima** series. Cataclysmic events have left the Autarchy of Aygrima—the one land blessed with magical resources—cut off from its former trading partners across the waters, not knowing if any of those distant peoples still live. Yet under the rule of the Autarch, Aygrima survives. And thanks to the creation of the **Masks** and the vigilance of the Autarch's **Watchers**, no one can threaten the security of the empire. In Aygrima, magic is a Gift possessed from birth by a very small percentage of the population, with the Autarch himself the most powerful magic worker of all. Only the long-vanquished **Lady of Pain** and **Fire** had been able to challenge his rule. At the age of fifteen, citizens are recognized as adults and must don the spell-infused **Masks**—which denote both status and profession—whenever they are in public. To maintain the secure rule of the kingdom, the **Masks** are magically crafted to reveal any treasonous thoughts or actions. And once such betrayals are exposed, the **Watchers** are there to enforce the law. **Mara Holdfast**, daughter of the Autarch's Master Maskmaker, is fast approaching her fifteenth birthday and her all-important **Masking** ceremony. Her father himself has been working behind closed doors to create **Mara's Mask**. Once the ceremony is done, she will take her place as an adult, and Gifted with the same magical abilities as her father, she will also claim her rightful place as his apprentice. But on the day of her **Masking** something goes horribly wrong, and instead of celebrating, **Mara** is torn away from her parents, imprisoned, and consigned to a wagon bound for the mines. Is it because she didn't turn the unMasked boy she discovered over to the **Night Watchers**? Or is it because she's lied about her Gift, claiming she can only see one color of magic, when in truth she can see them all, just as she could when she was a young child? Whatever the reason, her **Mask** has labeled her a traitor and now she has lost everything, doomed to slavery in the mines until she dies. And not even her Gift can show **Mara** the future that awaits her—a future that may see her freed to aid a rebel cause, forced to become a puppet of the Autarch, or transformed into a force as dangerous to her world as the legendary **Lady of Pain** and **Fire**.

**Madness, Masks, and Laughter** Jun 22 2022 "Madness, Masks, and Laughter: An Essay on Comedy is an exploration of narrative and dramatic comedy as a laughter-inducing phenomenon. The theatrical metaphors of mask, appearance, and illusion are used as structural linchpins in an attempt to categorize the many and extremely varied manifestations of comedy and to find out what they may have in common with one another. As this reliance on metaphor suggests, the purpose is less to produce **The Truth** about comedy than to look at how it is related to our understanding of the world and to ways of understanding our understanding. Previous theories of comedy or laughter (such as those advanced by Hobbes, Kant, Hegel, Schopenhauer, Bergson, Freud, and Bakhtin) as well as more general philosophical considerations are discussed insofar as they shed light on this approach. The limitations of the metaphors themselves mean that sight is never lost of the deep-seated ambiguity that has made laughter so notoriously difficult to pin down in the past." "The first half of the volume focuses in particular on traditional comic masks and the pleasures of repetition and recognition, on the comedy of imposture, disguise, and deception, on dramatic and verbal irony, on social and theatrical role-playing and the comic possibilities of plays-within-plays and "metatheatre," as well as on the clichés, puns, witticisms, and torrents of gibberish which betray that language itself may be understood as a sort of mask. The second half of the book moves to the other side of the footlights to show how the spectators themselves, identifying with the comic spectacle, may be induced to "drop" their own roles and postures, laughter here operating as something akin to a ventilatory release from the pressures of social or cognitive performance. Here the essay examines the subversive madness inherent in comedy, its displaced anti-authoritarianism, as well as the violence, sexuality, and bodily grotesqueness it may bring to light. The structural tensions in this broadly Hobbesian or Freudian model of a social mask concealing an anti-social self are reflected in comedy's own ambivalences, and emerge especially in the ambiguous concepts of madness and folly, which may be either celebrated as festive fun or derided as sinfulness. The study concludes by considering the ways in which nonsense and the grotesque may infringe our cognitive limitations, here extending the distinction between appearance and reality to a metaphysical level which is nonetheless prey to unresolvable ambiguities." "The scope of the comic material ranges over time from Aristophanes to Martin Amis, from Boccaccio, Chaucer, Rabelais, and Shakespeare to Oscar Wilde, Joe Orton, John Barth, and Philip Roth. Alongside mainly Old Greek, Italian, French, Irish, English, and American examples, a number of relatively little-known German plays (by Grabbe, Tieck, Buchner, and others) are also taken into consideration."--BOOK JACKET. **Masks in Horror Cinema** Mar 07 2021 Why has the mask been such an enduring generic motif in horror cinema? This book explores its transformative potential historically across myriad cultures, particularly in relation to its ritual and mythmaking capacities, and its intersection with power, ideology and identity. All of these factors have a direct impact on mask-centric horror cinema: meanings, values and rituals associated with masks evolve and are updated in horror cinema to reflect new contexts, rendering the mask a persistent, meaningful and dynamic aspect of the genre's iconography. This study debates horror cinema's durability as a site for the potency of the mask's broader symbolic power to be constantly re-explored, re-imagined and re-invented as an object of cross-cultural and ritual significance that existed long before the moving image culture of cinema.

**Lillie Langtry** Jun 10 2021 Mrs Langtry - born a provincial in 1853, died rich and lonely in 1929 - was surrounded by scandal, luxury and gossip; but this new book goes beyond these outward trappings to lift the masks that Oscar Wilde, her friend and mentor, taught her to wear. It is not so much a life as a series of lives - each one distinct from the next - as Lillie reinvented herself. At its centre are the love letters written by Lillie to Arthur Jones, her childhood friend and secret lover, at the time of her fall from Society, her near-bankruptcy, and the birth of her illegitimate daughter at a hidden address in Paris. Laura Beatty captures exactly the spirit of the age, and reveals a passionate woman for whom the charge of opportunism was by no means the whole story.

**The Case Against Masks** Mar 19 2022 Do we really need to wear masks? From the New York Times Bestselling authors of Plague of Corruption comes the must-read guide on masks and re-opening following the COVID-19 pandemic. THE CASE AGAINST MASKS is the book all America needs to be reading as we emerge from the COVID-19 pandemic. Written by New York Times bestselling authors Dr. Judy Mikovits and Kent Heckenlively, this book reviews the evidence for and against widespread public masking as provided by the Centers for Disease Control and the Mayo Clinic, as well as top scientific publications such as the New England Journal of Medicine and The Lancet. This debate needs to take place without fear and paranoia. Important questions raised in this book are the affect of masks on oxygen and carbon dioxide levels, how SARS-CoV-2 spreads, the effectiveness of various types of masks, those who are most vulnerable to COVID-19, and whether our children should go back to school in the fall, and if so, what measures they should take. The authors' previous book, PLAGUE OF CORRUPTION, was the runaway science bestseller of 2020, and the authors bring that same passion and attention to detail to the mask question. As politicians and bureaucrats of all stripes are weighing in on this question, with some placing their cities and states under mandatory masking provisions, we need to understand the science behind their decisions. Are such measures a reasonable response to current circumstances, or is it a dramatic overreach, which in many cases might make the situation even worse? America desperately needs this public conversation to take place with the best science we have available. As Americans have always done during difficult times, we must summon the courage to have these challenging conversations.

**Masks and Faces** Feb 24 2020 Everyone on deck! All hands on deck! Fire! Fire! Bring the hose quick! As the steamship lurched in the heavy seas, Harry Braham grabbed what clothes he could and struggled with the other terrified passengers to climb the ladders. On deck, with the rain lashing down and the wind howling, he gripped the rails of the ship tightly, trying to stay upright. With horror he saw the flames leaping high in the hold and he thought his time had come. It was June 1891. A music-hall star famous for his comic songs and his ability to 'pull mugs', Harry - a seasoned traveler - was on his way from New York to his home in London, after a busy season appearing in a play by W H Crane. As the crew prepared the lifeboats, Harry looked back at his life - his apprenticeship with the Royal Christy Minstrels, his acclaimed tours of Australia and the USA, and his marriage to the vivacious but temperamental singer Lizzie Watson. Was this to be the end? In this well-researched and lively biography, full of fascinating social background, Janet Muir (Harry Braham's great-great-niece) brings to life the world of the Victorian music-hall and traces Harry's career from minstrelsy through to 'legitimate' theatre and finally to moving pictures, where he landed a part in D W Griffith's Birth of a Nation.
