JULIUS CAESAR 1935: Shakespeare and Censorship in Fascist Italy Jun 18 2021 On 1 August 1935, only a few months before Mussolini launched the colonial enterprise in Ethiopia, Shakespeare's Julius Caesar was produced at the Maxentius Basilica in Rome. The performance was organised by The National Workers' Recreational Club (O.N.D.) and the script was submitted for censorship. However, the procedure followed a different course from the usual one as the commissioner was also part of the Fascist political system. This parallel edition presents for the first time the integral script of the censored text of Shakespeare's Julius Caesar, in Raffaello Piccoli's 1925 Italian translation, and explores the implications of this peculiar type of censorship at the moment when, through Shakespeare, censoring became one and the same with political propaganda.

Segni. Una introduzione alla semiotica Dec 13 2020

Petrarch and Boccaccio Jan 14 2021 The early modern and modern cultural world in the West would be unthinkable without Petrarch and Boccaccio.

Despite this fact, there is still no scholarly contribution entirely devoted to analysing their intellectual revolution. Internationally renowned scholars are invited to discuss and rethink the historical, intellectual, and literary roles of Petrarch and Boccaccio between the great model of Dante's encyclopedia and the ideas of a double or multifaceted culture in the era of Italian Renaissance Humanism. In his lyrical poems and Latin treatises, Petrarch created a cultural pattern that was both Christian and Classical, exercising immense influence on the Western World in the centuries to come. Boccaccio translated this pattern into his own vernacular narratives and erudite works, ultimately claiming as his own achievement the reconstructed unity of the Ancient Greek and Latin world in his contemporary age. The volume reconsiders Petrarch's and Boccaccio's heritages from different perspectives (philosophy, theology, history, philology, paleography, literature, theory), and investigates how these heritages shaped the cultural transition between the end of the Middle Ages and the early modern era, as well as European identity.

Il Vangelo e l'Apocalisse di Giovanni. Una introduzione Apr 28 2022 Il volume intende offrire non un commentario ma uno strumento, accessibile a tutti, anche ai meno ferrati nel campo biblico, per un primo approccio ai due testi principali della scuola giovannea. A tal fine si esaminano alcuni passi del Vangelo di Giovanni e del libro dell'Apocalisse, dando rilievo agli aspetti tematici principali.

Gruppi Jan 06 2023 Nato dai corsi universitari di Teoria dei Gruppi tenuti per vari anni dall'autore, questo libro affronta gli argomenti fondamentali della teoria: gruppi abeliani, nilpotenti e risolubili, gruppi liberi, permutazioni, rappresentazioni e coomologia. Dopo le prime nozioni, viene esposto il programma di Hölder per la classificazione dei gruppi finiti. Un lungo capitolo è dedicato all'azione di un gruppo su un insieme e alle permutazioni, sia sotto l'aspetto algebrico che combinatorio, con richiami alla teoria delle equazioni. Si considerano anche alcune

questioni di carattere logico, come la decidibilità del problema della parola per certe classi di gruppi. Un aspetto essenziale del libro è la presenza di una grande varietà di esercizi, circa 400, in gran parte risolti.

Vangeli Sinottici. Una introduzione Sep 02 2022

Raccogliendo e sintetizzando le lezioni tenute dall'autore sui Vangeli Sinottici - Matteo, Marco, Luca - il volume intende offrire uno strumento per un primo approccio ai più antichi testi narrativi del Nuovo Testamento. A tal fine si esaminano alcuni passi dando rilievo agli aspetti tematici principali e peculiari di ciascun evangelista, non rinunciando a cogliere il messaggio personale per la vita del credente

Mathematical Analysis I Sep 29 2019 The purpose of the volume is to provide a support for a first course in Mathematics. The contents are organised to appeal especially to Engineering, Physics and Computer Science students, all areas in which mathematical tools play a crucial role. Basic notions and methods of differential and integral calculus for functions of one real variable are presented in a manner that elicits critical reading and prompts a hands-on approach to concrete applications. The layout has a specifically-designed modular nature,

allowing the instructor to make flexible didactical choices when planning an introductory lecture course. The book may in fact be employed at three levels of depth. At the elementary level the student is supposed to grasp the very essential ideas and familiarise with the corresponding key techniques. Proofs to the main results befit the intermediate level, together with several remarks and complementary notes enhancing the treatise. The last, and farthest-reaching, level requires the additional study of the material contained in the appendices, which enable the strongly motivated reader to explore further into the subject. Definitions and properties are furnished with substantial examples to stimulate the learning process. Over 350 solved exercises complete the text, at least half of which guide the reader to the solution. This new edition features additional material with the aim of matching the widest range of educational choices for a first course of Mathematics.

Audi Alteram Partem in Criminal Proceedings

Oct 30 2019 This book analyses current developments in Europe and Latin America towards the greater involvement of the parties in the administration of criminal justice. Focusing on both national criminal proceedings and transnational cases, this study employs a comparative law

approach to examine the shift experienced by Italy and Brazil from the long tradition of mixed criminal justice to unprecedented adversarial trends. The identification of common needs and divergences from the national approach to criminal justice paves the way for a subsequent analysis of new solution models emerging from international human rights law and EU law. To a great extent, these developments are due to the increasing impact of international human rights case-law on the criminal justice systems of the countries in question. The book concludes by proposing a set of qualitative requirements for a participatory model of criminal justice.

The Delight of Art Dec 01 2019 "A study based on the text, the Lives of the Artists, by Giorgio Vasari. Discusses how the visual arts in the Renaissance were an occasion for delight or pleasure. Argues that such an attention was encouraged by certain social and intellectual practices"--Provided by publisher.

Liberty and Security in Europe Aug 28 2019 Over recent years, most of the criminal justice systems in Europe have witnessed a tendency to enhance the role of pre-trial inquiries. Different kinds of pre-trial measures have had a heavy impact on the fundamental rights of individuals involved in criminal

procedures. This book contains a comparative study of four European countries on pre-trial precautionary measures limiting personal liberty. This comparison is part of two general frameworks concerning the ECtHR case-law and the EU legislation in the field of the right to liberty and security. In its two level approach, the book provides a critical guide for understanding the most significant changes which occurred in the area of liberty and security in the pre-trial phases of criminal proceedings as well as the protection systems developed in Europe both at national and supranational level to face the new challenges of the modern criminal investigation.
