**An Essay on the Fundamental Principles of Operative Occultism** Oct 22 2019 First published in 1929, this is one of Canadian-born mystical writer Manly P. Hall’s essays on the art of self-realization, as expressed through the wisdom of the ages. An Essay on the Fundamental Principles of Operative Occultism provides an early description of the seven spinal chakras and the science of regeneration. Beautifully illustrated with three oil paintings by Mihran K. Serailian.

**An Essay on the Principle of Population** Oct 26 2022 Around 1796, Mr. Malthus, an English gentleman, had finished reading a book that confidently predicted human life would continue to grow richer, more comfortable and more secure, and that nothing could stop the march of progress. He discussed this theme with his son, Thomas, and Thomas ardently disagreed with both his father and the book he had been reading, along with the entire idea of unending human progress. Mr. Malthus suggested that he write down his objections so that they could discuss them point-by-point. Not long after, Thomas returned with a rather long essay. His father was so impressed that he urged his son to have it published. And so, in 1798, appeared An Essay on Population, by British political economist and demographer THOMAS ROBERT MALTHUS (1766-1834). Though it was attacked at the time and ridiculed for many years afterward, it has remained one of the most influential works in the English language on the general checks and balances of the world’s population and its necessary control. This is a replica of the 1826 sixth edition. Volume 1 includes: Book I: "Of the Checks to the Population in the Less Civilised Parts of the World and in Past Times" and Book II: "Of the Checks to the Population in the Different States of Modern Europe."

**How To Write An Essay** Apr 27 2020

**Academic Essay Writing for EFL Learners** Dec 24 2019 Document from the year 2018 in the subject English Language and Literature Studies - Literature, University of Saida Dr Moulay Tahar (Department of English), language: English, abstract: Writing is both a challenging and an interesting task that requires much writer’s attention, that is, it is a type of communication that expresses ideas and makes a chain between the writer and his readers. Thereby, it is unique, creative, and is done for purpose. Among the most essential forms of academic writings are essays that writers start to learn and write from college. They develop an idea in four or five paragraphs, or in a whole book, but the most commonly used are five paragraphs essays or timed essays because they can be written in class period. ‘Lectures on Academic Essay Writing’ is a booklet for second year students. It is an outgrowth of teaching academic writing for many years. Our experience as teachers and writers has taught us that writing is the most difficult task that requires much practice. Learning how to write essays needs more basics rather than instructions especially in classrooms. Indeed, classrooms are learning communities that are improved through evaluating their members’ writing skills. Henceforth, this booklet provides an unpretentious manner on teaching students how to write different types of essays through practices that reinforce their writing skill and provide them with a supportive learning environment that helps them to be good writers. The first part of the booklet provides a detailed rehearsal of the different stages of essay writing, followed by a part that introduces the different elements of an essay, while the last part displays essential explanations on argumentative, process, cause/effect, and comparison/contrast essays. Hence, this part addresses the writing process from paragraph to essay.

**MHRA Style Guide** Feb 18 2022 Now in its second edition, the MHRA Style Guide is an indispensable tool for authors and editors of scholarly books, contributors to academic publications, and students preparing theses. The Style Guide succeeds the best-selling MHRA Style Book, five editions of which were published from 1971 to 1996. Though originally designed for use in connection with the publications of the Modern Humanities Research Association, the Style Book became a standard book of reference, particularly in the humanities, and has been adopted by many other authors, editors, and publishers. This new edition of the Style Guide has been revised and updated by a subcommittee of the MHRA. It provides comprehensive guidance on the preparation of copy for publication and gives clear and concise advice on such matters as spelling (including the spelling of proper names and the transliteration of Slavonic names), abbreviations, punctuation, the use of capitals and italics, dates and numbers, quotations, notes, and references. Chapters on indexing, the preparation of theses and dissertations, and proof correcting are also included

**The Accursed Share** Feb 24 2020 'The Accursed Share' provides an introduction to Bataille the philosopher. Here he uses his unique economic theory as the basis for an incisive inquiry into the very nature of civilization. Unlike conventional economic models based on notions of scarcity, Bataille's theory develops the concept of excess - a civilization, he argues, reveals its order most clearly in the treatment of its surplus energy.

**Why I Write** Mar 07 2021 George Orwell set out ‘to make political writing into an art’, and to a wide extent this aim shaped the future of English literature – his descriptions of authoritarian regimes helped to form a new vocabulary that is fundamental to understanding totalitarianism. While 1984 and Animal Farm are amongst the most popular classic novels in the English language, this new series of Orwell’s essays seeks to bring a wider selection of his writing on politics and literature to a new readership. In Why I Write, the first in the Orwell’s Essays series, Orwell describes his journey to becoming a writer, and his movement from writing poems to short stories to the essays, fiction and non-fiction we remember him for. He also discusses what he sees as the ‘four great motives for writing’ – ‘sheer egoism’, ‘aesthetic enthusiasm’, ‘historical impulse’ and ‘political purpose’ – and considers the importance of keeping these in balance. Why I Write is a unique opportunity to look into Orwell’s mind, and it grants the reader an entirely different vantage point from which to consider the rest of the great writer’s oeuvre. 'A writer who can – and must – be rediscovered with every age.' — Irish Times

**The Study Skills Handbook** May 21 2022 This is the ultimate guide to study skills, written by million copy bestselling author Stella Cottrell. Her tried and tested approach, based on over 20 years' experience of working with students, has helped over a million students to achieve their potential. **Oratio Obliqua, Oratio Recta** Jan 05 2021 Among the entities that can be mentally or linguistically represented are mental and linguistic representations themselves. That is, we can think and talk about speech and thought. This phenomenon is known as metarepresentation. An example is "Authors believe that people read books." In this book François Recanati discusses the structure of metarepresentation from a variety of perspectives. According to him, metarepresentations have a dual structure: their content includes the content of the object-representation (people reading books) as well as the "meta" part (the authors' belief). Rejecting the view that the object representation is mentioned rather than used, Recanati claims that since metarepresentations carry the content of the object representation, they must be about whatever the object representation is about. Metarepresentations are fundamentally transparent because they work by simulating the representation they are about. Topics covered in this wide-ranging work include the analysis of belief reports and talk about fiction, world shifting, opacity and substitutivity, quotation, the relation between direct and indirect discourse, context shifting, semantic pretense, and deference in language and thought.

**Ace the TOEFL Essay (TWE)** Dec 04 2020 EVERYTHING YOU NEED to write the TOEFL essay with confidence. **Essay Writing** May 09 2021 Get back to basics with this practical look at the foundations of good essay writing. With personal and classroom anecdotes, ideas and strategies, and samples and reproducibles, this cheerful and accessible book offers real-life advice that both teachers and students can really use. Each chapter contains easy-to-incorporate lessons along with teaching tips for teaching specific concepts that range from pre-writing exercises to revising and editing to celebrating the final product. The book includes a wide range of innovative approaches to teaching essay writing -- from how to picture and "act out" an essay to a winning format for a topic sentence and using scattergrams to turn brainstorming into constructive outlines. Throughout the book, assessment tools and marking keys support simple marking techniques that are visible and relatively frequent, and consider not just the essay, but effort and time on task.

**Of the Abuse of Words** Aug 24 2022 John Locke was one of the greatest figures of the Enlightenment, whose assertion that reason is the key to knowledge changed the face of philosophy. These writings on thought, ideas, perception, truth and language are some of the most influential in the history of Western thought. Throughout history, some books have changed the world. They have transformed the way we see ourselves • and each other. They have inspired debate, dissent, war and revolution. They have enlightened, outraged, provoked and comforted. They have enriched lives • and destroyed them. Now Penguin brings you the works of the great thinkers, pioneers, radicals and visionaries whose ideas shook civilization and helped make us who we are.

**Beyond the Essay Film** Nov 22 2019 In the wake of the explosion in the production of essay films over the last twenty-five years and its subsequent theorization in scholarly literature, this volume seeks to historicize these intertwined developments within the 'long duree' of the twentieth century and into the twenty-first. Beyond the Essay Film seeks to not only acknowledge the influential predecessors of this - in the view of many critics - most interesting type of contemporary filmmaking - but also to speculate about its possible transformation as we move forward into the uncharted waters of the twenty-first - digital -century. Focusing on three specific axes that underpin and shape the articulation of the essay film as a specific cultural form - subjectivity, textuality and technology - this book explores how changes along and across these dimensions affect historical shifts within essay film practice and its relation to other types of cinema and neighbouring art forms.

**The Myth of Sisyphus** Jan 25 2020 In this profound and moving philosophical statement, Camus poses the fundamental question: Is life worth living? If human existence holds no significance, what can keep us from suicide? As Camus argues, if there is no God to give meaning to our lives, humans must take on that purpose themselves. This is our 'absurd' task, like Sisyphus forever rolling his rock up a hill, as the inevitability of death constantly overshadows us. Written during the bleakest days of the Second World War, The Myth of Sisyphus argues for an acceptance of reality that encompasses revolt, passion and, above all, liberty. This volume contains several other essays, including lyrical evocations of the sunlit cities of Algiers and Oran, the settings of his great novels The Outsider and The Plague. Albert Camus is the author of a number of best-selling and highly influential works, all of which are published by Penguin. They include The Fall, The Outsider and The First Man. He is remembered as one of the few writers to have shaped the intellectual climate of post-war France, but beyond that, his fame has been international. Translated by Justin O'Brien With an Introduction by James Wood

**Academic Writing from Paragraph to Essay** Dec 28 2022

**An Essay on Economic Theory** Sep 20 2019 LARGE PRINT EDITION! More at LargePrintLiberty.com At last, and finally, here is the first accurate and beautiful translation of Richard Cantillon's 1755 masterpiece on economics. This treatise is widely credited with being the first to describe the market process as one driven by entrepreneurship. William Stanley Jevons, in the first blush of discovery, proclaimed Cantillon's Essai, "the cradle of political economy." A cradle holds new life; and there can be little doubt that the Essai added new life to the organizing principles of economics. But "political economy" does not accurately describe the subject Cantillon addressed. Indeed, he scrupulously avoided political issues in order to concentrate on the mechanics of eighteenth-century economic life. When confronted by "extraneous" factors, such as politics, Cantillon insisted that such considerations be put aside, "so as not to complicate our subject," he said, thus invoking a kind of ceteris paribus assumption before it became fashionable in economics to do so. Murray Rothbard, for this reason, called Cantillon the "founding father of modern economics." This book preceded Adam Smith by a generation. Unlike any previous writer, Cantillon explicated the vital role of the entrepreneur with perception and vigor. Hence, he deserves to be called "the father of enterprise economics." We know little of Cantillon's life and the circumstances of his authorship. The manuscript that was eventually published in 1755 circulated privately in France for almost two decades before; when published, it appeared under mysterious circumstances. Mark Thornton and Chantal Saucier have accomplished the arduous task of bringing forth a new and improved translation of Cantillon's famous work. Heretofore the only English translation of the Essai available has been the 1931 edition produced by Henry Higgs for the Royal Economic Society. Though competent, it has become less serviceable over time, as more and more of its shortcomings devolved (not the least of which is the antiquated use of "undertaker" in place of "entrepreneur"). Saucier provides a more accurate and lucid account, better suited to the 21st century. Thornton's hand shows not only in competent guidance of the translator but in the inclusion of numerous explanatory footnotes that add historical context.

**How to Read Like a Writer** Oct 02 2020 When you Read Like a Writer (RLW) you work to identify some of the choices the author made so that you can better understand how such choices might arise in your own writing. The idea is to carefully examine the things you read, looking at the writerly techniques in the text in order to decide if you might want to adopt similar (or the same) techniques in your writing. You are reading to learn about writing. Instead of reading for content or to better understand the ideas in the writing (which you will automatically do to some degree anyway), you are trying to understand how the piece of writing was put together by the author and what you can learn about writing by reading a particular text. As you read in this way, you think about how the choices the author made and the techniques that he/she used are influencing your own responses as a reader. What is it about the way this text is written that makes you feel and respond the way you do?

**Free Software, Free Society** Feb 06 2021 Essay Collection covering the point where software, law and social justice meet.

**An Essay on the Nature and Significance of Economic Science** Jun 22 2022 This book by Lionel Robbins first appeared in 1932 as an outstanding English-language statement of the Misesian view of economic method, namely that economics is a social science and must advance its propositions by means of deductive reasoning and not through the methods used in the natural sciences. The case is argued here with patience and attention to scholarly details. The unfortunate second edition of this book, which is more available today, introduces confusions by departing from Austrian microeconomic theory. Thus does the Mises Institute celebrate the 75th anniversary of the first edition with this reprint. "Reading Robbins," writes Samuel Bostaph of the University of Dallas, "is an excellent way of contrasting his explanation of the basic nature of economics with that of the Austrian School, as found in the work of Mises as an extension of Carl Mengers's foundations. Such a reading wonderfully clarifies one's understanding of the basic conception of economics as a science of human action, rather than one of mere 'economizing.' "

**The Basics of Essay Writing** Nov 03 2020 Nigel Warburton, bestselling author and experienced lecturer, provides all the guidance and advice you need to dramatically improve your essay-writing skills. The book opens with a discussion of why it is so important to write a good essay, and proceeds through a step-by-step exploration of exactly what you should consider to improve your essays and marks. The Basics of Essay Writing is packed full of good advice and practical exercises. Students of all ages and in every subject area will find it an easy-to-use and indispensable aid to their studies.

**Writers at Work: The Essay Student's Book** Mar 27 2020 Following on from Writers at Work: The Paragraph and Writers at Work: the Short Composition, Writers at Work: The Essay will teach the basics of academic essay writing to intermediate-level students. In Writers at Work: The Essay, college and university students use the process approach to write different genres of essays common at the post-secondary level, the most important being expository writing, persuasive writing, and timed essay exams. Each chapter uses the same five-step approach to writing that is used in the two lower-level books. In each chapter, students analyze a model essay, noticing key organizational and linguistic features; brainstorm ideas; write multiple drafts; revise their work; engage in peer reviews; and share their finished work. Chapters recycle and build upon previously taught material.
