Gold Coins of the World - 9th edition Nov 05 2022 A unique and indispensable reference work Unsurpassed in content and scope When the first edition of *Gold Coins of the World* made its debut in 1958, it forever changed the way gold coins were collected, cataloged, traded, and priced. For the first time, one book provided a reliable guide for a subject which previously required an often expensive investment in multiple volumes of literature, some of it rare and antique, and much of it badly out-of-date. With the publication of this pioneering work, Robert Friedberg (1912-1963) established himself as an international icon in the field of numismatic literature. This book, and the 'Friedberg Numbering System' he developed became then, and is still today, the internationally-recognized standard for systematically identifying any gold coin ever made. From just 384 pages in 1958, *Gold Coins of the World* has expanded to the extent that it now contains more than triple the information of its ancestor. It still stands alone as the first and only book to describe, catalog and price two millennia of gold, platinum, and palladium coin issues from across the globe. From the first coins of the ancient Greeks to the most recently-issued modern commemoratives, they are all here, an astonishing compilation of more than 21,000 individual coin listings accompanied by over 8,000 actual-size photographs. The prices have been completely updated, for the most part raised substantially, to reflect the current market. Entire sections have been expanded, many illustrations have been added or improved, and hundreds of new discoveries and recent issues have been included for the first time. Arthur Friedberg, president of the International Association of Professional Numismatists from 2001 to 2007 and now its Honorary President, and Ira Friedberg, have completely revised and expanded their late father's work. They have had the valuable assistance and cooperation of a who's who of the leading numismatists on every continent in bringing this edition to fruition. For the numismatist, banker, economist, historian, institution of higher learning, or a fancier of the noble metal in all its forms, *Gold Coins of the World* is a book for every library, public and private.

Consonant Strength in Upper German Dialects Aug 22 2021 The present study examines the problem of fortis and lenis in approximately 150 dialects of southern Germany, Austria, German-speaking Switzerland, Alsace, and the German-speaking minorities in Italy, Hungary and the former Czechoslovakia and Yugoslavia. The Upper German dialects are of particular interest from this point of view, because voice and aspiration, the features traditionally associated with strength, are generally absent. Changes related to strength such as lenition, vowel lengthening, simplification of geminates, and

sandhi phenomena receive special attention. The findings are put into their appropriate context by comparison to the results of research on the status of strength in standard German and the modern Germanic languages. Although the realization of strength is language-specific and varies according to word-position, it can be equated with consonant length in standard German and Upper German dialects.

Movie History: A Survey Jun 27 2019 Covering everything from Edison to Avatar, Gomery and Pafort-Overduin have written the clearest, best organized, and most user-friendly film history textbook on the market. It masterfully distills the major trends and movements of film history, so that the subject can be taught in one semester. And each chapter includes a compelling case study that highlights an important moment in movie history and, at the same time, subtly introduces a methodological approach. This book is a pleasure to read and to teach. Peter Decherney, University of Pennsylvania, USA In addition to providing a comprehensive overview of the development of film around the world, the book gives us examples of how to do film history, including organizing the details and discussing their implications. Hugh McCarney, Western Connecticut State University, USA Douglas Gomery and Clara Pafort-Overduin have created an outstanding textbook with an impressive breadth of content, covering over 100 years in the evolution of cinema. *Movie History: A Survey* is an engaging book that will reward readers with a contemporary perspective of the history of motion pictures and provide a solid foundation for the study of film. Matthew Hanson, Eastern Michigan University, USA How can we understand the history of film? Historical facts don't answer the basic questions of film history. History, as this fascinating book shows, is more than the simple accumulation of film titles, facts and figures. This is a survey of over 100 years of cinema history, from its beginnings in 1895, to its current state in the twenty-first century. An accessible, introductory text, *Movie History: A Survey* looks at not only the major films, filmmakers, and cinema institutions throughout the years, but also extends to the production, distribution, exhibition, technology and reception of films. The textbook is divided chronologically into four sections, using the timeline of technological changes: Section One looks at the era of silent movies from 1895 to 1927; Section Two starts with the coming of sound and covers 1928 until 1950; Section Three runs from 1951 to 1975 and deals with the coming and development of television; and Section Four focuses on the

coming of home video and the transition to digital, from 1975 to 2010. Key pedagogical features include: timelines in each section help students to situate the films within a broader historical context case study boxes with close-up analysis of specific film histories and a particular emphasis on film reception lavishly illustrated with over 450 color images to put faces to names, and to connect pictures to film titles margin notes add background information and clarity glossary for clear understanding of the key terms described references and further reading at the end of each chapter to enhance further study. A supporting website is available at www.routledge.com/textbooks/moviehistory, with lots of extra materials, useful for the classroom or independent study, including: additional case studies – new, in-depth and unique to the website international case studies – for the Netherlands in Dutch and English timeline - A movie history timeline charting key dates in the history of cinema from 1890 to the present day revision flash cards – ideal for getting to grips with key terms in film studies related resources – on the website you will find every link from the book for ease of use, plus access to additional online material students are also invited to submit their own movie history case studies - see website for details Written by two highly respected film scholars and experienced teachers, Movie History is the ideal textbook for students studying film history.

Thomas More Dec 26 2021 This book explores the conscience and motivation of one of the most admired persons in history: St. Thomas More. Most people know that Thomas More wrote a book called Utopia about a perfect society and got his head chopped off by King Henry VIII. But there was much more to the man. More not only occupied England's most powerful position under the king as Lord Chancellor, but was also a devoted family man, a Renaissance figure of renown throughout Europe, and the author of works of apologetics as well as poetry, fiction and plays. Even while awaiting execution in the Tower of London, his multi-volume "Tower writings" poured out, evidence of his deep faith and life of prayer.
