The Report not only projects the immediate impact of the crisis on investment flows, but also assesses how it could affect a long-term structural transformation of international production. The theme chapter of the Report reviews the evolution of international production networks over the past three decades and examines the configuration of these networks today. It then projects likely course changes for the next decade due to the combined effects of the pandemic and pre-existing megatrends, including the new industrial revolution, the sustainability imperative and the retreat of laissez faire policies. Governments worldwide will need to adapt their investment and development strategies to a changing international production landscape. At the request of the UN General Assembly, the Report has added a dedicated section on investment in the Sustainable Development Goals, to review global progress and propose possible courses of action.

Fully revised and updated to reflect today's financial realities, the Handbook of Alternative Assets, Second Edition covers the five major classes of alternative assets-hedge funds, commodity and managed futures, private equity, credit derivatives, and corporate governance-and outlines the strategies you can use to efficiently incorporate these assets into any portfolio. Throughout the book, new chapters have been added, different data sources accessed, and new conclusions reached. Designed as both an introduction to the world of alternative assets and as a reference for the active investor, the Handbook of Alternative Assets, Second Edition will help you match alternative assets with your various investment goals.

SOP 12-1 Reporting Pursuant to the Global Investment Performance Standards May 22 2021 Supersedes SOP 06-1, Reporting Pursuant to the Global Investment Performance Standards This Statement of Position (SOP) has been issued to guide practitioners with engagements to examine and report on aspects of an investment firm's compliance with

the Global Investment Performance Standards (GIPS® standards). In addition, this SOP provides guidance on engagements to examine and report on the performance results of specific composites in conformity with applicable guidance. Presentation of an investment firm's past performance can be a powerful tool for attracting new clients. These presentations have been the focus for the past several years due to market forces, competition, and consolidation. To promote fair representation and greater comparability in performance presentations, CFA Institute created the GIPS standards. Many investment firms' claim of compliance with these standards has been regarded as providing a competitive advantage. This SOP updates SOP 06-1, Reporting Pursuant to the Global Investment Performance Standards, for the most recent changes to the GIPS standards.
