made of are not simple but infinitely complex; our genus has been on Earth many times longer than they thought. And increasingly there is compelling evidence that scientists are wrong about our living relatives. One thing considered certain was that the giants and wildmen in stories from all over the world are entirely imaginary. Now that belief is under serious challenge. Forty-five years ago giant footprints found in northern California brought Bigfoot to the attention of Americans and revived interest in Canada's Sasquatch. Every year since then additional evidence has accumulated, and now that witnesses can submit information via the internet the trickle of reports has become a flood. John Green has been in the thick of things from the beginning. In *Sasquatch, The Apes Among Us*, first published in 1978, he sampled the evidence from the earliest records up the late 1970s and from all around the world, then concentrated on two aspects of the subject: the nature of the

animal described and the wealth of reports from parts of North America outside the Pacific Northwest. When it came out *The Apes Among Us* was acclaimed as the definitive work on the fascinating subject of whether humans share North America with a giant bipedal primate that is unknown to science. Since then evidence for the existence of that unknown primate has grown exponentially, and individual scientists have written books about aspects of it. Remarkably, however, to most of the scientific world the evidence remains unknown and unexplored, and for those who do follow the subject this is still the definitive book.

In the UK, a Bollywood starlet wins Big Survivor, the most popular reality TV show in the country. In Panama, Central America, a whistle-blower at a law firm brings down billionaires across the globe. And in India, a new RBI Governor is appointed. Aditya Kesavan is dynamic, charismatic and ambitious. And he's been handed the reins of the RBI on a platter. His only job: to make sure he doesn't rock the boat. But, unknown to him, the wheels have begun to turn, as the country heads towards the biggest financial event in modern Indian history. And Governor Kesavan is about to carry out the most brazen act of his life - and, perhaps, his most foolish. Will he be able to pull himself out of the mess he has got into or will he have to surrender to the manipulative forces behind the scenes? Running desperately out of time, the Governor must set things right.

**Red Famine** Nov 09 2020  
SUNDAY TIMES, THE TIMES,  
FT AND EVENING STANDARD  
BOOKS OF THE YEAR 2017

The momentous new book from the Pulitzer Prize-winning author of Gulag and Iron Curtain. In 1932-33, nearly four million Ukrainians died of starvation, having been deliberately deprived of food. It is one of the most devastating episodes in the history of the twentieth century. With unprecedented authority and detail, Red Famine investigates how this happened, who was responsible, and what the consequences were. It is the

fullest account yet published of these terrible events. The book draws on a mass of archival material and first-hand testimony only available since the end of the Soviet Union, as well as the work of Ukrainian scholars all over the world. It includes accounts of the famine by those who survived it, describing what human beings can do when driven mad by hunger. It shows how the Soviet state ruthlessly used propaganda to turn neighbours against each other in order to expunge supposedly 'anti-revolutionary' elements. It also records the actions of extraordinary individuals who did all they could to relieve the suffering. The famine was rapidly followed by an attack on Ukraine's cultural and political leadership - and then by a denial that it had ever happened at all. Census reports were falsified and memory suppressed. Some western journalists shamelessly swallowed the Soviet line; others bravely rejected it, and were undermined and harassed. The Soviet

authorities were determined not only that Ukraine should abandon its national aspirations, but that the country's true history should be buried along with its millions of victims. Red Famine, a triumph of scholarship and human sympathy, is a milestone in the recovery of those memories and that history. At a moment of crisis between Russia and Ukraine, it also shows how far the present is shaped by the past.

*An Abundance of Katherines* Jan 12 2021 From the bestselling author of *Turtles All the Way Down* and *The Fault in Their Stars*, a beautiful tale of love, loss and not so fool proof mathematic equations. When it comes to relationships, Colin Singleton's type is girls named Katherine. And when it comes to girls named Katherine, Colin is always getting dumped. Nineteen times, to be exact. On a road trip miles from home, this anagram-happy, washed-up child prodigy has ten

thousand dollars in his pocket, a bloodthirsty feral hog on his trail, and an overweight Judge Judy-loving best friend riding shotgun - but no Katherines. Colin is on a mission to prove The Theorem of Underlying Katherine Predictability, which he hopes will predict the future of any relationship, avenge Dumpees everywhere, and finally win him the girl. Love, friendship, and a dead Austro-Hungarian archduke add up to surprising and heart-changing conclusions in this ingeniously layered comic novel about reinventing oneself.

*An Absolutely Remarkable Thing* Jun 16 2021 IF YOU CAME ACROSS AN ABSOLUTELY REMARKABLE THING AT 3 A.M. IN NEW YORK CITY . . . WOULD YOU KEEP WALKING? OR DO THE ONE THING THAT WOULD CHANGE YOUR LIFE FOREVER? \*\*\*\*\*

The Carls just appeared . . . While roaming the streets of New York City at 3 a.m., twenty-three-year-old April May stumbles across a giant sculpture she calls *Bo*.

Delighted by its appearance - like a ten-foot-tall Transformer wearing a suit of samurai armour - April and her friend Andy make a video with it, which Andy uploads to YouTube. The next day April wakes up to a viral video and a new life. There are Carls in dozens of cities around the world - everywhere from Beijing to Buenos Aires - and April, as their first documentarian, finds herself at the centre of an international media spotlight. Now April has to deal with the pressure on her relationships, her identity and her safety that this new position brings, all while being on the front lines of the quest to find out not just what the Carls are, but what they want from us . . . Compulsively entertaining and powerfully relevant, *An Absolutely Remarkable Thing* grapples with how the social internet is changing fame and radicalisation; how our culture deals with fear and uncertainty; and how vilification and adoration can follow a life in the public eye.

Summary of John Green's The Anthropocene Reviewed Dec 23 2021 Buy now to get the key takeaways from John Green's The Anthropocene Reviewed Sample Key Takeaways: 1) "You'll Never Walk Alone" is a song written by Richard

Rodgers and Oscar Hammerstein. It is a song that inspires hope, and although cheesy it has been adopted as the official anthem of the English soccer club Liverpool, with the title etched on the iron gate of its official stadium. 2) Each species on earth has a temporal range, which is the length of time a species has existed on earth. The human species has existed for nearly 250,000 years, however, that number is minuscule in comparison to other species and planet earth's temporal range.
