The Spike Feb 07 2021 The story of a neural impulse and what it reveals about how our brains work. We see the last cookie in the box and think, can I take that? We reach a hand out. In the 2.1 seconds that this impulse travels through our brain, billions of neurons communicate with one another, sending blips of voltage through our sensory and motor regions. Neuroscientists call these blips "spikes." Spikes enable us to do everything: talk, eat, run, see, plan, and decide. In *The Spike*, Mark Humphries takes readers on the epic journey of a spike through a single, brief reaction. In vivid language, Humphries tells the story of what happens in our brain, what we know about spikes, and what we still have left to understand about them. Drawing on decades of research in neuroscience, Humphries explores how spikes are born, how they are transmitted, and how they lead us to action. He dives into previously unanswered mysteries: Why are most neurons silent? What causes neurons to fire spikes spontaneously, without input from other neurons or the outside world? Why do most spikes fail to reach any destination? Humphries presents a new vision of the brain, one where fundamental computations are carried out by spontaneous spikes that predict what will happen in the world, helping us to perceive, decide, and react quickly enough for our survival. Traversing neuroscience's expansive terrain, *The Spike* follows a single electrical response to illuminate how our extraordinary brains work.

Drastic Measures Aug 16 2021 This is a True Crime Case OPINION Book - key word OPINION - ON A HIGH-PROFILE TRUE CRIME CASE WHICH ENTERED ONTO THE PUBLIC STAGE ON AUGUST 13, 2018. Like most books written in the TRUE CRIME genre - this true crime case opinion book includes opinions and theories on sensitive subject matters including but not limited to abuse, violence, and mental illness. Therefore, if you or a loved one has been a victim of violent crime, domestic violence, or child abuse please DO NOT READ THIS BOOK. If you choose to ignore this trigger warning and you experience any signs or symptoms of mental or emotional disturbance, please seek professional help immediately. DRASTIC MEASURES ~ THE CASE OF CHRISTOPHER WATTS is written to share opinions I have formed after extensive research of this case over the last three years, including speaking directly with Christopher Watts' mother - Cindy Watts - multiple times following the tragedy which occurred on August 13, 2018 at the Watts' family home in Frederick, Colorado. While I am supportive of Cindy Watts - and her right to speak - this book is not written at her direction or on her behalf. However, this book is written with EXPRESS PERMISSION from Cindy Watts, who has directly stated her blessings for any book I write - or audiobook/video that I create. This true crime case opinion book is written to explore my OPINIONS on the case itself, primarily to include my thoughts specific to Cindy's relationship with her daughter-in-law Shanann (pronounced "shan-uhn" - Shannon - by her birth family), and the dynamics of her

daughter-in-law's relationships with Cindy's son and their two children. I will also explore my opinion on whether it is reasonable to believe that Christopher Watts may have been telling the truth when he insisted that he did not murder his children, Bella and Ce Ce Watts. And I will include my opinion on whether the threshold of the legal standard "BEYOND A REASONABLE DOUBT" would have been crossed by the prosecution had this case proceeded to trial. Over the last three years, since the public was initially told that poor little Bella and Ce Ce were murdered in what should have been the safety of their own home, there has been a narrative promoted on this case portraying Christopher Watts as nothing but an evil monster, while his wife always was and will forever be a saint. People who openly question the narrative in the comment sections on social media are oftentimes harassed, threatened, and intimidated right along with those of us who have been targeted for abuse and harassment from the start, before many of us had ever even heard of this case. The attackers are an organized group of ruthless criminals, in my opinion, who are using multiple fake profiles, and who openly boast they will not stop harassing us, and our families, and our employers, etc. until they succeed in "DESTROYING" our lives. Clearly, their goal is to frighten all of us into silence, including Christopher Watts' mother, Cindy Watts. In my opinion, Christopher Watts is not evil - nor is his mother, who has been unfairly maligned and targeted for abuse and harassment since the day her son's case first hit the headline news. Also, in my opinion, contrary to the narrative being pushed by the attackers, Cindy Watts' daughter-in-law was probably not a saint. Maybe that's my opinion because I know the rest of the story. And, in my opinion, THE REST OF THE STORY deserves to be told. ~
