London's Hidden Corners, Lanes & Squares Nov 24 2019 London s Hidden Corners, Lanes & Squares was inspired by Samuel Johnson s advice to his friend and biographer James Boswell in the 18th century, on the occasion of the latter s arrival in London: survey its innumerable little lanes and courts. These are less numerous in the 21st century than in Dr Johnson s time, so we ve extended the great man s brief to include alleys, squares and yards, along with some roads and streets and the odd green space."

Him Feb 26 2020 The best-selling poet of HER & HER Vol. 2 returns with a different voice, on a different path, but with the same mission. HIM is a collection of "he-poetry" in a world of "she-poems" that tends to only refer to him when speaking ill. Through poetry and prose, Pierre wears his heart on paper and pens a tribute to men; their undelivered feelings, unrecognized strength, their loud silence, and their neglected complaints. HIM celebrates good men, their love, their worth, and their beauty. The characteristics that often fall into the shadows are now brought to life.

The Torn Skirt Mar 29 2020 "The Torn Skirt is a hot book, a thrilling romance of teen rage and longing -- like S.E. Hinton's *The Outsiders*, except about girls." — Mary Gaitskill, author of *Two Girls, Fat and Thin* At Mt. Douglas (a.k.a. Mt. Drug) High, all the girls have feathered hair, and the sweet scent of Love's Baby Soft can't hide the musk of raw teenage anger, apathy, and desire. Sara Shaw is a girl full of fever and longing, a girl looking for something risky, something real. Her only possible salvation comes in the willowy form of the mysterious Justine, the outlaw girl in the torn skirt. The search for Justine will lead Sara on a daring odyssey into an underworld of hookers and johns, junkies and thieves, runaway girls and skater boys, and, ultimately, into a violent tragedy.

Biodeconstruction Nov 17 2021 Analyzes Derrida's 1975 seminar "La vie la mort" as a deconstruction of biology with relevance to his work more broadly. In *Biodeconstruction*, Francesco Vitale demonstrates the key role that the question of life plays in Jacques Derrida's work. In the seminar *La vie la mort* (1975), Derrida engages closely with the life sciences, especially biology and evolution theory. Connecting this line of thought to his analysis of cybernetics in *Of Grammatology*, Vitale shows how Derrida develops a notion of biological life as itself a sort of text that is necessarily open onto further articulations and grafts. This sets the stage for the deconstruction of the traditional opposition between life and death, conceiving of death as an internal condition of the constitution of the living rather than being the opposite of life. It also provides the basis for the deconstruction of the rigidly deterministic concept of the genetic program, an insight that anticipates recent achievements of biological research in epigenetics and sexual reproduction. Finally, Vitale argues that this framework can enrich our understanding of Derrida's late work devoted to political issues, connecting his use of the autoimmunitarian lexicon to the theory of cellular suicide in biology. "This book is extremely interesting and engaging, and provides a very original and timely perspective on Derrida's work. Its greatest strength is bringing together Derrida's 'deconstruction' in his analysis of the life sciences under the heading of 'biodeconstruction.' This term is simple but ingenious, and captures beautifully the material dimension of Derrida's work." — Nicole Anderson, author of *Derrida: Ethics Under Erasure*

The Apostolic Church Sep 22 2019

Studies in Luke-Acts Aug 22 2019

The Theology of the Acts of the Apostles Mar 09 2021 Who are the people of God? Luke's purposes in the Acts of the Apostles are to identify the church, to establish the legitimacy of its gospel and to demonstrate that God was an active force in history. He wanted to show that the communities of Jewish and Gentile Christians are the true heirs of God's promises to Israel. He gives the history of the early church from the last decades of the first century as the communities become separated from their Jewish origins, and Paul plays the lead role. Acts offers an apologetic for the mixed mission of the church: to Jews and Gentiles. Luke was an eyewitness to some of what he reports, but his authorship and views have been questioned. This is a theological interpretation of the history of the church within history: Luke is an artist, a narrator rather than a systematic theologian, but writes about the roles of God, Christ and the Holy Spirit, and of the church.

Tramp Apr 10 2021 Charlie Chaplin made an amazing seventy-one films by the time he was only thirty-three years old. He was known not only as the world's first international movie star, but as a comedian, a film director, and a man ripe with scandal, accused of plagiarism, communism, pacifism, liberalism, and anti-Americanism. He seduced young women, marrying four different times, each time to a woman younger than the last. In this animated biography of Chaplin, Joyce Milton reveals to us a life riddled with gossip and a struggle to rise from an impoverished London childhood to the life of a successful American film star. Milton shows us how the creation of his famous character—the Tramp, the Little Fellow—was both rewarding and then devastating as he became obsolete with the changes of time. Tramp is a perceptive, clever, and captivating biography of a talented and complicated man whose life was filled with scandal, politics, and art.

A Guide to Starting Your Hedge Fund Apr 29 2020 Successful hedge fund investing begins with well-informed strategy. A Guide to Starting Your Hedge Fund is a practical, definitive "how-to" guide, designed to help managers design and launch their own funds, and to help investors select and diligence new funds. The first book to examine the practical aspects of setting up and operating funds with a focus on energy commodity markets, this book scrutinises the due diligence process and comprehensively reviews the opportunities and risks of all energy commodity markets as hedge fund investments. Readers gain insight into practical matters including legal and commercial structures, due diligence, fund raising, operations, and more, allowing them to construct a concrete investment plan before ever touching a penny. This book provides the answers sorely lacking in hedge fund literature, giving investors and fund managers the background they need to make smarter decisions. Understand the markets' structures, opportunities, and risks. Develop a comprehensive, well-informed investment strategy. Conduct thorough due diligence with a detailed plan. Examine the practical aspects of fund raising, legal and tax structure, and more. Oil has long been traded by hedge funds, but electricity, the fuels that generate electricity, and the environmental products like emissions allowances and weather derivatives have become the new "hot" investment strategies. These high returns come with higher risk, but A Guide to Starting Your Hedge Fund ensures participants have essential information at their disposal.

Heavy Brain Jun 12 2021 We know we need to eat better. We know we should be more active. And we know we should be living an all around healthier lifestyle. So why is it so hard to stick to our diet and exercise efforts when we want to lose weight and take back control of our health? Is there a better way to succeed in our health and fitness goals? 'Heavy Brain' is the new release from the MetFlex-Rx Diet creators Tommy Caldwell and Dr. Laura Caria, M.D., and inside the pages of their new book they address how the mind is the root of all fitness failure. This eye opening book teaches the reader how to address and correct foundational issues in the way we think about our health. A task that must be accomplished in order for your diet and exercise efforts to 'stick' and give you long term results. Caldwell and Caria argue that the automatic thought patterns we do not address when trying to lose weight are the true root of the unhealthy habits and behaviours (overeating, snacking, technological distractions, and laziness for example) that we can't seem to gain control over and the real cause of most repeated fitness failures and weight problems. The formula for success that the pair of authors teach inside 'Heavy Brain' is quickly changing the face (and success rate) of the weight loss industry. With insightful weight loss principles and simple step by step instructions for how to set yourself up for life-long success, Heavy Brain may just be the last 'diet' book you ever have to read.

The Super-Afrikaners Oct 28 2022 The Super-Afrikaners, originally published in South Africa in 1978, scandalised a nation as it exposed the secret workings of a powerful Afrikaner organisation called the Broederbond. Out of print for over three decades, this new edition is available for a new generation and includes an introduction by Max du Preez. Formed in Johannesburg in 1918 by a group of young Afrikaners disillusioned by their role as dispossessed people in their own country, the first triumph of this remarkable organisation was the fact that it was largely responsible for welding together dissident factions within Afrikanerdom and thereby ensuring the accession of the National Party to power in 1948. This highly organised clique of Super-Afrikaners, by sophisticated political intrigue, waged a remarkable campaign to harness political, social and economic forces in South Africa to its cause ... and succeeded. Political journalists Hans Strydom and Ivor Wilkins traced, at great personal risk, its development from its earliest days. The book includes the most comprehensive list of Broeders ever published.

Four Things Women Want from a Man Jan 07 2021 After decades of preaching, teaching, and counseling, influential Christian leader A.R. Bernard reveals the four qualities women want in a man—qualities that contribute to a satisfying and happy relationship. As a longtime pastor of a big-city church, A.R. Bernard has witnessed couples in every stage of life. He's been with them as they experienced dizzying joys, unspeakable tragedies, and everything in between. As men and women have come to Bernard for spiritual counseling and advice, he's learned patterns of

behavior that are repeated time and again. After almost four decades of preaching, teaching, and counseling, he's seen that while every situation is unique, people's behaviors and consequences are amazingly consistent. With this in mind, Bernard has developed a simple system for understanding how couples relate to each other. Maturity, decisiveness, consistency, and strength—these are the four things women want and need most from a man. In his book, Bernard teaches readers how to identify and cultivate these traits toward a happy and long-lasting relationship—one built to weather any storm.

Social Aspects of Early Christianity, Second Edition Jul 13 2021 Comments on the First Edition... Those concerned with Christian beginnings will find Malherbe stimulating and incisive on the New Testament. Robert M. Grath, *Journal of Religion* The author is a scholar of great learning. I found the footnotes to be extremely useful, and the challenge of the book that a new consensus has emerged is a genuine contribution to continuing debate. Robin Scroggs, *Journal of the American Academy of Religion* An interesting and informed introduction to an important new development in the study of earliest Christianity. - Victor P. Furnish, *Perkins Journal* The book constitutes a major challenge to the depictions of early Christianity - especially of the Pauline Wing in earlier scholarly work. - Howard Clark Kee, *Reflection*
