Pulp Jul 09 2021 Pulp brings together in one volume chapters on the bestseller, detective fiction, popular romance, science fiction and horror. It combines a lucid and accessible account of the cultural theories that have informed the study of popular fiction with detailed readings of particularly Jackie Collins, Jilly Cooper, Colin Dexter, William Gibson, Stephen King, Iain Banks, Terry McMillan and Walter Mosley. Scott McCracken argues that popular fiction serves a vital function in the late twentieth century: it provides us with the means to construct a workable sense of self in the face of the disorientating pressures of modernity.

Timothy Top Vol. 1 Jul 29 2020 Timothy Top is a grade school kid going through a hard time. His parents are constantly quarreling, and he's feeling like an outsider among his classmates. His fascination with nature and superheroes makes for an unusual combination that few of his

peers can relate to. But when a crooked businessman moves into the neighborhood with plans to "reinvent the local park" into a concrete monstrosity devoid of nature and life, Timothy sets out on a mission to save a famous tree from the bulldozers. Being just a kid, he doesn't know how he'll be able to go about this, until one night he discovers that he's been given the power of a magical green thumb that can heal and grow plant life! He's a superhero! But will he be able to use this power to save the park or the relationship between his parents? As a simple tale but with many layers, this first volume supports respect for the environment, as well as dealing with bullies, quarreling parents, and school expectations. Future volumes tiptoe into other topics such as discrimination, forgiveness, and commitment.

2022 The third edition succeeds the fifth update of second edition. One of the main features has been the adoption of new and revised international standards, notably the International Standard Identifier for Libraries and Related Organizations, the ISBN 13 and the linking ISSN. New fields have been added for recording the Persistent Record Identifier. Uniform Conventional Headings for Legal and Religious texts are now catered for with separate fields. A number of fields have been revised: archival materials, manuscripts and documentation produced by the ISSN International Centre.

Writing Beloveds Aug 22 2022 "This study considers the way in which a poetic convention, the beloved to whom Renaissance amatory poetry was addressed, becomes influential political rhetoric, an instrument that both men and women used to shape and justify their claims to power. The author argues that Petrarchan poetic conventions were part of a social discourse that signaled anxiety concerning the rising place of women as intellectual interlocutors, public figures, and patrons of the arts."--

The Idiot Apr 06 2021 Towards the end of November, during a thaw, at nine o'clock one morning, a train on the Warsaw and Petersburg railway was approaching the latter city at full speed. The morning was so damp and misty that it was only with great difficulty that the day succeeded in breaking; and it was impossible to distinguish anything more than a few yards away from the carriage windows. train were returning from abroad; but the third-class carriages were the best filled, chiefly with insignificant persons of various occupations and degrees, picked up at the different stations nearer town. All of them seemed weary, and most of them had sleepy eyes and a shivering expression, while their complexions generally appeared to have taken on the colour of the fog outside. When day dawned, two passengers in one of the third-class carriages found themselves opposite each other. Both were young fellows, both were rather poorly dressed, both had remarkable faces, and both were evidently anxious to start a conversation. If they had but known why, at this particular moment, they were both remarkable persons, they would undoubtedly have wondered at the strange chance which had set them down opposite to one another in a third-class carriage of the Warsaw Railway Company.

Brigades. Two months after his disappearance on 9th May, Moro is found dead in the boot of a car. A trio of eleven-year-old schoolboys, Nimbo, Raggio, and Volo, avidly follow the news of the abduction as their admiration for the brigatisti grows. When the boys themselves resolve to abduct a classmate and incarcerate him in a makeshift 'people's prison', the darkness within their world, and the world of the novel, becomes all-pervasive. A vivid and hellish description of Sicily in the late seventies, *Time on my Hands* is an unforgettable novel from a significant new voice in Italian fiction.

The Mussolini Canal Apr 18 2022 *The Mussolini Canal* is one of the great achievements of contemporary Italian fiction. It spans 100 years of Italian history as seen through the lives of the Peruzzi family, who are among the 30,000 peasants from Northern Italy sent down to farm the newly-drained Pontine Marshes outside Rome in the 1930s. Mussolini is revered by the Peruzzi family,

who must reconcile their admiration for Il Duce with the failings of Fascism which slowly envelop them.

Contemporary events permeate the book and the hardship and misery of earlier periods are seen against the background of modern prosperity. It won the Strega prize in 2010 in Italy and has sold over 400,000 copies in Italy

The Forgotten Revolution May 19 2022 The period from the late fourth to the late second century B. C. witnessed, in Greek-speaking countries, an explosion of objective knowledge about the external

world. While Greek culture had reached great heights in art, literature and philosophy already in the earlier classical era, it is in the so-called Hellenistic period that we see for the first time — anywhere in the world — the appearance of science as we understand it now: not an accumulation of facts or philosophically based speculations, but an organized effort to model nature and apply such models, or scientific theories in a sense we will make precise, to the solution of practical problems and to a growing understanding of nature. We owe this new approach to scientists such as Archimedes, Euclid, Eratosthenes and many others less familiar today but no less remarkable. Yet, not long after this golden period, much of this extraordinary development had been reversed. Rome borrowed what it was capable of from the Greeks and kept it for a little while yet, but created very little science of its own. Europe was soon smothered in the obscurantism

and stasis that blocked most avenues of intellectual development for a thousand years — until, as is well known, the rediscovery of ancient culture in its fullness paved the way to the modern age.

Economy of the Unlost Dec

22 2019 The ancient Greek lyric poet Simonides of Keos was the first poet in the Western tradition to take money for poetic composition. From this starting point, Anne Carson launches an exploration, poetic in its own right, of the idea of poetic economy. She offers a reading of certain of Simonides' texts and aligns these with writings of the modern Romanian poet Paul Celan, a Jew and survivor of the Holocaust, whose "economies" of language are notorious. Asking such questions as, What is lost when words are wasted? and Who profits when words are saved? Carson reveals the two poets' striking commonalities. In Carson's view Simonides and

Celan share a similar mentality or disposition toward the world, language and the work of the poet. Economy of the Unlost begins by showing how each of the two poets stands in a state of alienation between two worlds. In Simonides' case, the gift economy of fifth-century b.c. Greece was giving way to one based on money and commodities, while Celan's life spanned pre- and post-Holocaust worlds, and he himself, writing in German, became estranged from his native language. Carson goes on to consider various aspects of the two poets' techniques for coming to grips with the invisible through the visible world. A focus on the genre of the epitaph grants insights into the kinds of exchange the poets envision between the living and the dead. Assessing the impact on Simonidean composition of the material fact of inscription on stone, Carson suggests that a need for brevity influenced the exactitude and clarity of Simonides' style, and proposes a comparison with Celan's interest in the "negative

design" of printmaking: both poets, though in different ways, employ a kind of negative image making, cutting away all that is superfluous. This book's juxtaposition of the two poets illuminates their differences-- Simonides' fundamental faith in the power of the word, Celan's ultimate despair--as well as their similarities; it provides fertile ground for the virtuosic interplay of Carson's scholarship and her poetic sensibility.

2020 Digital technology is now a normal part of everyday life. The mutation of music and film into bits and bytes, downloads and streams is now taken for granted. For the world of book and magazine publishing however, this transformation has only just begun. Still, the vision of this transformation is far from new. For more than a century now, avant-garde artists, activists and technologists have been anticipating the development of networked and electronic publishing. Although in

hindsight the reports of the death of paper were greatly exaggerated, electronic publishing has now certainly become a reality. How will the analog and the digital coexist in the post-digital age of publishing? How will they transition, mix and cross over? In this book, Alessandro Ludovico rereads the history of the avant-garde arts as a prehistory of cutting through the so-called dichotomy between paper and electronics. Ludovico is the editor and publisher of Neural, a magazine for critical digital culture and media arts. For more than 20 years now, he has been working at the cutting edge (and the outer fringes) of both print publishing and politically engaged digital art.

A-Merica: il regno di Venere. Nov 01 2020 Aby Warburg, noto storico e critico dell'arte del XIX secolo, preferiva definire la "Primavera" del Botticelli con il titolo: "Il Regno di Venere", ed è con questo nome che mi piace pensare l'America: è così infatti che i primi esploratori dovevano considerare quella sorta di Paradiso Terrestre, dal clima mite e dalla natura esuberante e generosa! Ma Venere è anche un pianeta, tanto simile ad una stella, "Merica", la più lucente del cielo: è lei che fin dall'antichità ha guidato i navigatori che solcavano l'oceano nei viaggi verso il Vespero? Perché il continente "scoperto" da Cristoforo Colombo non porta il suo nome? Perché è stato chiamato "America"? Forse

pensando a quella stella? O forse per rendere giustizia al suo vero scopritore? Ormai siamo tutti certi che l'America fosse stata raggiunta e frequentata fin dai tempi più antichi, ma se essa fosse stata nota anche agli umanisti del primo Rinascimento, con largo anticipo rispetto ai viaggi di Colombo? Se il Vecchio Cosimo de' Medici non solo l'avesse conosciuta, ma addirittura visitata? E quali misteri si nascondono dietro i personaggi della famiglia Vespucci? Se l'Amerigo che ha dato il proprio nome al "Nuovo Mondo" non fosse quello che tutti conosciamo ma un suo omonimo antenato?
