Novo Vino u Nove Mješine Feb 22 2022 S dubokim osjećajem zahvalnosti i radosti predstavljam vam Završni dokument Plenarnog vijeća Reda, koje je bilo u Konstancinu-Jeziorni, u Poljskoji, od 17. do 30. studenoga 2013. godine. Četrdeset i tri brata s pravom glasa sudjelovala su u ovom susretu, nadahnutom izazovom koji je svojim učenicima i svima nama predložio Gospodin Isus: "Novo vino u nove mješine" (Mt 9,17). Ova tema potiče sve nas kao Red da uvijek tražimo glas Gospodina Isusa, koji djeluje u našim bratstvima koja imaju kao temeljnu odgovornost to da izgrađuju centre zajedništva na način da kako svaki pojedini brat tako i bratstvo mognu postati živi svjedoci dobrote i milosrđa Božjega, uvijek djelujućih među nama, i da mogu ići svijetom kao "najmanja" braća Evandjelja.

Public Health and Informatics Aug 31 2022 For several years now, both eHealth applications and digitalization have been seen as fundamental to the new era of health informatics and public health. The current pandemic situation has also highlighted the importance of medical informatics for the scientific process of evidence-based reasoning and decision making at all levels of healthcare. This book presents the accepted full papers, short papers, and poster papers delivered as part of the 31st Medical Informatics in Europe Conference (MIE 2021), held virtually from 29-31 May 2021. MIE 2021 was originally due to be held in Athens, Greece, but due to the continuing pandemic situation, the conference was held as a virtual event. The 261 papers included here are grouped into 7 chapters: biomedical data, tools and methods; supporting care delivery; health and prevention; precision medicine and public health; human factors and citizen centered digital health; ethics, legal and societal aspects; and posters. Providing a state-of-the-art overview of medical informatics from around the world, the book will be of interest to all those working with eHealth applications and digitalization to improve the delivery of healthcare today.

Eurasian Business Perspectives Jul 18 2021 This volume presents selected papers on recent management research from the 20th Eurasia Business and Economics Society (EBES) Conference, which was held in Vienna in 2016. Its primary goal is to showcase advances in the fields of accounting, auditing, marketing, and human resources in emerging economies. This volume is unique in its special focus on empirical research perspectives from countries such as Lithuania, Russia, and the Visegrád Group (the Czech Republic, Hungary, Poland and Slovakia), among others.

Measuring the Psychological and Electrophysiological Attributes of Human Personality: Emerging Research and Opportunities Jan 24 2022 Significant progress has been made in the study of human psychology in recent years. However, certain aspects of personality, such as electrophysiological attributes, have yet to be fully examined. Measuring the Psychological and Electrophysiological Attributes of Human Personality: Emerging Research and Opportunities is a detailed scholarly resource that presents the latest findings in psychology as in relation to electrophysiology. Featuring coverage on relevant topics including personality theories, temperament analysis, and evoked brain potentials, this is an important reference publication that would be useful to psychologists, medical professionals, academicians, graduate students, and researchers that must keep abreast of the latest personality research in the psychological field.

Women and Yugoslav Partisans Apr 02 2020 This book focuses on one of the most remarkable phenomena of World War II: the mass participation of women, including numerous female combatants, in the communist-led Yugoslav Partisan resistance. Drawing on an array of sources - archival documents of the Communist Party and Partisan army, wartime press, Partisan folklore, participant reminiscences, and Yugoslav literature and cinematography - this study explores the history and postwar memory of the phenomenon. More broadly, it is concerned with changes in gender norms caused by the war, revolution, and establishment of the communist regime that claimed to have abolished inequality between the sexes. The first archive-based study on the subject, Women and Yugoslav Partisans uncovers a complex gender system in which revolutionary egalitarianism and peasant tradition interwove in unexpected ways.

Conference proceedings - XLVI International Symposium on Operational Research SYMOPIS 2019 Oct 01 2022 The Faculty of Organizational Sciences, University of Belgrade traditionally, in cooperation with other higher education and scientific institutions and associations, organizes a SYM-OP-IS symposium to advance the theory and practice of operational research, business analytics and related disciplines. This year, the 46th Symposium on Operations Research - SYM-OP-IS is being organized as an international scientific conference. The symposium brings together domestic and international academic and scientific public, OR practitioners, public and non-governmental sector, as well as students who participate in discussing and analyzing relevant issues in the field of contemporary operational research. The aim of the Symposium is to provide a unique forum for discussion of current issues and exchange of the latest information, ideas and innovative solutions in the field of operational research in the context of improving business achievements and results. Authors have the opportunity to publish scientific and professional results as research papers or case studies. This year's conference program is organized through thematic sessions and consists of 132 papers by authors from 10 countries. In addition to thematic sections, plenary lectures of eminent scientists in the field of business intelligence data science, efficiency measurement and behavioral operational research will be held as well as a forum on "International Projects in Science and Education". Scientific Committee Chair Milan Martić

Fakultet organizacionih nauka Univerziteta u Beogradu tradicionalno u saradnji sa drugim visokoškolskim i naučnoistraživačkim organizacijama, kao i naučnim udruženjima, organizuje simpozijum SYM-OP-IS sa ciljem unapređenja teorije i prakse operacionih istraživanja, poslovne analitike i srodnih disciplina. Ove godine se organizuje 46. simpozijum operacionih istraživanja - SYM-OP-IS kao međunarodni naučni skup. Simpozijum okuplja domaću i međunarodnu akademsku i naučnu javnost, predstavnike korporativnog, javnog i nevladinog sektora, kao i studente osnovnih, masterskih i doktorskih studija koji

kroz predstavljanje svojih dosadašnjih rezultata, saznanja i iskustava učestvuju u razmatranju i analizi relevantnih pitanja iz oblasti savremenih operacionih istraživanja. Cilj Simpozijuma je da obezbedi jedinstven forum za diskusiju o aktuelnim pitanjima i razmenu najnovijih informacija, ideja i inovativnih rešenja u oblasti operacionih istraživanja menadžmenta u kontekstu unapređenja poslovnih dostignuća i rezultata. Autori imaju mogućnost da naučne i stručne rezultate publikuju kao istraživačke radove ili studije slučaja. Ovogodišnji program konferencije je organizovan kroz tematske sesije i sastoji se iz 132 rada autora iz 10 zemalja. Uz tematske sekcije, biće održana i plenarna predavanja eminentnih naučnika iz oblasti nauke o podacima poslovne analitike, merenja efikasnosti i bihevijoralnih operacionih istraživanja kao i forum na temu "Međunarodni projekti u nauci i prosveti". Predsednik Programskog odbora Milan Martić

Religiöse Bildung in Europa Nov 02 2022 Religionspädagogik in Europa, geht das? Als Dokumentation eines internationalen Forschungsseminars im September 2018 in Split angelegt, widmet sich dieser Band dem komplexen Feld einer komparativen Religionspädagogik. Der Reiz besteht darin, diese Frage im Dialog zwischen einer kroatischen und deutschen Religionspädagogik zu erörtern. Nach einer kurzen Skizzierung des jeweiligen Profils einer Religionspädagogik in Kroatien sowie in Deutschland, reflektieren Nachwuchswissenschaftlerinnen und -wissenschaftler beider Länder in diesem Horizont und in einem breiten Zugriff religiöses Lernen unter spätmodernen Bedingungen. Geleitet durch die jeweiligen landesspezifischen Herausforderungen, zeigt sich vor allem in den Querverbindungen der einzelnen Beiträge die Brisanz einer komparativen Religionspädagogik in europäischer Perspektive, deren Potential als Weg einer kritisch-reflexiven Begegnung noch lange nicht ausgeschöpft ist.

Lin transformacija i digitalizacija privrede Srbije Oct 21 2021 Skup privrednika i naučnika (SPIN) je naučni i stručni skup koji od 2003. godine organizuje Centar za operacioni menadžment Fakulteta organizacionih nauka Univerziteta u Beogradu. Pokretac Skupa je bio dr Zoran Radojević (1942-2015). Od 2009. godine Skup se organizuje svake druge godine, a nekoliko skupova je organizovano u saradnji sa Privrednom komorom Srbije. Tema XII Skupa privrednika i naučnika je „Lin transformacija i digitalizacija privrede Srbije“ koja objedinjuje dve oblasti koje su značajne za razvoj privrede jedne zemlje u savremenim uslovima poslovanja. Prva oblast se odnosi na lin pristup, kao dominantnu proizvodnu paradigmu u svetu, i usmerena je na stvaranje vrednosti za korisnika kroz eliminaciju svih vrsta rasipanja u proizvodnim ili neproizvodnim procesima. Lin proizvodnja je nastala u Tojoti tokom XX veka, i njena glavna karakteristika je kontinualno unapređivanje procesa kroz neprekidan, zajednički rad svih zaposlenih u preduzeću, kako bi se putem timskog rada na projektima unapređenja, u relativno kratkom roku i uz niske troškove, eliminisala rasipanja i bolje koristili ograničeni resursi. Druga oblast se tice primene savremenih digitalnih trendova u poslovanju (internet inteligentnih uređaja, veštacka inteligencija i mašinsko učenje, cloud platforme, blockchain tehnologije i automatizacija proizvodnih i poslovnih procesa), i mogućnostima za unapređenje efektivnosti i efikasnosti stvaranja i isporuke proizvoda ili usluga korisnicima kroz integraciju digitalnih tehnologija u operacioni menadžment. Integracija ove dve oblasti je značajna iz nekoliko razloga. Prvo, lin pristup promoviše unapređivanje kroz oslanjanje na sopstveno znanje i postojeće resurse, što ga čini pogodnim za primenu u privredi Srbije koja se bori sa konstantnim nedostatkom resursa. Drugo, lin transformacija omogućava stvaranje zdravih osnova za kasniju digitalizaciju privrede. I konačno, digitalizacija treba da omogući privredi Srbije da postane i ostane konkurentna na globalnom tržištu. Kao i svake godine, osnovni cilj XII Skupa privrednika i naučnika - SPIN `19 je okupljanje predstavnika akademske zajednice i privrede, kako bi razmenili znanja i iskustva i doprineli razvoju privrede Srbije. Treba napomenuti da se XII Skup privrednika i naučnika - SPIN `19 održava u godini u kojoj Fakultet organizacionih nauka slavi značajan jubilej, 50 godina od osnivanja Fakulteta. U 50 godina postojanja, Fakultet organizacionih nauka je prepoznat kao institucija od autoriteta u polju lin pristupa i razvoju digitalnih tehnologija, kao i njihovoj primeni u poslovnom svetu, zahvaljujući kontinuiranom razvoju teorije i prakse u posmatranoj oblasti.

Managing Infrastructure Assets for Sustainable Development (Serbian language) Aug 19 2021 This publication provides guidance for national and local policymakers on the management of their assets in support of the 2030 Agenda for Sustainable Development. It introduces the reader to the basic principles of managing physical assets □ like equipment and machinery, public land, buildings, and infrastructure facilities □ in the most cost-effective and sustainable manner. Providing a number of practical and field-tested tools, it aids local and central governments in assessing their asset management needs and developing comprehensive and proactive asset management frameworks, policies, and strategies. The publication also places special emphasis on far-sighted and effective actions that integrate financial, lifecycle, and demand aspects of asset management. Topical deep dives cover the implications of Covid-19 and climate change on asset management, measures that help build statistical and data capacity, as well as guidance on creating an enabling environment for local asset management at the national level. Short case studies, practical exercises, and references to reading materials throughout the book aim to further contextualize the content and engage the reader.
