**El Único Dios Verdadero** Jan 26 2020 "The Only True God" is the originator of all the languages of the nations of this planet Earth (Genesis 11:1-9). Does He know the details of Grammar of those languages? How can we define in synthesis whatGrammar is? Does our wise and sovereign God presaw the need of talking to us in our own language? Does He also presaw that His dealing with the human race should be written in a book? Because these are facts that cannot be denied, it is evident He decreed that every word, phrase, sentence, concepts and complete paragraphs written in The Bible should be grammatically correct. The concept of the Three Persons of deity is evidenced with printine clarity, whenever this Book of God is grammatically interpreted. Inthe last night before His crucifixion, in His prayer to the Father, Jesus said: "This is eternal life, that they may know You, the only true God, and Jesus Christ whom You have sent. An now, Oh Father, glorify Me together with Yourself, with the glory which I had with You before the world was." "Me" and "I" explicitly defines two persons!

**Gringoismos** Mar 28 2020 I took two years of Latin at Grinnell (Iowa) High School and two years of French at Cornell College, but I never really committed to using these languages. However, when I spent three years in Mozambique I had an opportunity to pursue the Portuguese language in an everyday situation. When I returned to the U.S., I studied the spoken and written form of the language with a Brazilian speaking partner and developed a useful fluency. I then decided to use the basics of Portuguese in the study of Spanish. I had a number of Spanish speaking partners, did some work assignments in Tehuacan, Mexico and earned an M.A. from the University of Leon. Using some creativity, I was able to read, write and converse in Spanish as often as I wished in my places of residence in Iowa and Texas. I have written this book of bilingual essays called "Gringoismos" which is a presentation of personal experiences in the Hispanic culture as well as some take-offs on Spanish writings.

**History of Linguistics 2008** Jun 11 2021 This volume contains a selection of papers presented at the 11th International Conference on the History of the Language Sciences (Potsdam 2008) which are especially representative of the concerns of the conference and its thematic range. The reflection about language and the individual languages has characterized cultures since ancient times and has brought forth different traditions of the language sciences. The contributions cover the period from antiquity to contemporary history. In addition to terminological and social history approaches, they also include research results based on corpora or which reconstruct theoretical approaches. More than other scholars, linguists are turning to the history of their science for answers to current questions. This underscores the value of the history of language sciences for understanding the present state of linguistics and its development. Interdisciplinarity necessary for the research of many issues and manifestations of language makes historical reflections on the disciplines indispensable.
