The credibility of eyewitness testimony. Regarding the identification of a perpetrator Jul 05 2022 Seminar paper from the year 2014 in the subject Psychology - Social Psychology, grade: 1,3, University of Applied Sciences Osnabrück, language: English, abstract: This paper is about the role of credibility of eyewitness testimony when it comes to investigations. Eyewitness testimonies are of great importance for investigations and often are the main reason for suspects getting accused. Wrong statements by eyewitnesses can have fatal consequences for an innocent person. A conviction of an innocent person is an unbelievable incision in life. Even if the misidentified target does not get convicted, a charge can evoke emotional problems as well as bad reputation. These facts show the great importance of the reliability of eyewitnesses in our society. But according to Rademacher the credibility of eyewitness testimony is overestimated although it is of such a great importance. The foundation of this elaboration is the hypothesis that says that eyewitnesses often make mistakes when it comes to a culprit's identification. Initially, background information regarding the perception and identification of a person are constituted. Afterwards, the experiment Matching faces to photographs with its implementation and results is examined to prove the thesis. Also, possible reasons for people's misidentifications are given from which partly result suggestions for improvements for real-life situations.

Eyewitness Images from the American Revolution May 11 2020 See the revolution through the eyes of contemporary artists! Most images depicting the American Revolution are historically inaccurate nineteenth- and twentieth-century recreations. Historian Arthur S. Lefkowitz is working to change this. Lefkowitz gathered images from artists who were on-site for these pivotal moments in our nation's history. His research in museums and private collections in the United States, Canada, and England spanned years and brought together both professional and amateur artist renditions, including those from British soldiers. With over 60 examples of "eyewitness" artwork, Lefkowitz draws readers into our nation's fight for independence, appealing to those interested in American history and art history alike.

Cat's Eyewitness Feb 06 2020 It's no secret that cats are a mystery writer's best friend. Just ask the bestselling team of Rita Mae Brown and her furry partner, Sneaky Pie Brown, back on the prowl with another unforgettable whodunit. This time a controversial miracle in Virginia's Blue Ridge Mountains sparks religious fervor—and a suspicious death. Now the indefatigable felines Mrs. Murphy and Pewter, along with the dogged corgi Tee Tucker, must trust their animal instincts to sniff out the worst of human nature.... With the holidays approaching, Mary Minor "Harry" Haristeen and her best friend, Susan Tucker, take a much-needed time-out at the mountain monastery of Mount Carmel. There, under the benevolent gaze of the statue of the Virgin Mary, their worldly worries are soon overshadowed. For in front of their very eyes the statue begins to cry tears of blood. Legend has it that Mary's crimson tears are harbingers of crises. And though skeptical, the ever-practical Harry can already see one on the horizon. If leaked, news of the so-called miracle could turn the monastery and the town of Crozet into a circus. What Harry doesn't foresee is murder.... When Susan's great-uncle Thomas, a resident monk, is found frozen to death at the base of the statue, foul play is ruled out—at first. But at Harry's urging, the body is exhumed for an autopsy. There's just one problem: the coffin is empty. That's when Mrs. Murphy, Pewter, and Tucker get involved. Then there's the shocking revelation of a mystery that has perplexed the citizens of Crozet for ages. With Christmas around the corner and the monastery overrun by the faithful, all Harry's meddling menagerie can do is stay on her trail as she jumps knee-deep into an unofficial investigation—one that becomes more dangerous when another Crozet citizen meets an untimely demise. In this case it will be a miracle if Harry stays alive....

Journalism and Eyewitness Images Nov 16 2020 Building on the vast research conducted on war and media since the 1970s, scholars are now studying the digital transformation of the production of news. Little scholarly attention has been paid, however, to non-professional, eyewitness visuals, even though this genre holds a still greater bearing on the way conflicts are fought, communicated, and covered by the news media. This volume examines the power of new technologies for creating and disseminating images in relation to conflicts. Mortensen presents a theoretical framework and uses case studies to investigate the impact of non-professional images with regard to essential issues in today's media landscape: including new media technologies and democratic change, the political mobilization and censorship of images, the ethics of spectatorship, and the shifting role of the mainstream news media in the digital age.

Adult Eyewitness Testimony Aug 06 2022 Adult Eyewitness Testimony provides an overview of current empirical research on eyewitness testimony and identification accuracy, covering both theory and application. The volume is organized to address three important issues: First, what are the cognitive, social, and physical factors that influence the accuracy of eyewitness reports? Second, how should lineups be constructed and verbal testimony be taken to improve the chances of obtaining accurate information? And third, whose testimony should be believed? Are there differences between accurate and inaccurate witnesses, and can jurors make such a distinction? Adult Eyewitness Testimony is crucial reading for memory researchers, as well as police officers, judges, lawyers, and other members of the judicial system. It will also be of interest to advanced undergraduates and graduate-level courses in applied social or cognitive psychology, criminal justice and forensics.

The Elderly Eyewitness in Court Apr 21 2021 The majority of research on eyewitness memory has traditionally studied children and young adults. By contrast, this volume is designed to provide an overview of empirical research on the cognitive, social, and health related factors that impact the accuracy of eyewitness testimony given by the elderly. The book takes a lifespan developmental perspective that incorporates research on witnesses of all ages, but uses the findings to focus on issues unique to the elderly. This includes research on recognition memory with lineup identifications and recall memory that occurs when an elderly witness is asked to describe an event in court. The *Elderly Eyewitness* also examines jurors' reactions to the testimony of an elderly witness, and the legal and social policy issues that emerge when the elderly witness participate in legal proceedings. While reviewing what is known about the elderly witness, the book also provides a direction for future research into this new frontier of scientific inquiry. Its audience spans researchers in cognitive and developmental psychology, and professionals working in the growing area of psychology and law.

Methods, Measures, and Theories in Eyewitness Identification

Tasks Oct 08 2022 *Methods, Measures, and Theories in Eyewitness Recognition Tasks* provides a comprehensive review of the fundamental issues surrounding eyewitness recognition phenomena alongside suggestions for developing a more methodologically rigorous eyewitness science. Over the past 40 years, the field of eyewitness science has seen substantial advancement in eyewitness identification procedures, yet theoretical and methodological developments have fallen behind. Featuring contributions from prominent international scholars, this book examines methodological and theoretical limitations and explores important topics, including how to increase the accuracy of identifying perpetrators when using CCTV images, how to create more identifiable facial composites, and the differences in accuracy between younger and older eyewitnesses. Providing in-depth discussion on the limitations of traditional lineups, eyewitness memory fallibility, and the complications that arise when using laboratory simulations, along with suggestions for new methods, this book will be an invaluable resource for researchers in eyewitness recognition, lawyers, players in the criminal justice system, members of innocence commissions, and researchers with interests in cognitive psychology.

The Psychology of Eyewitness Identification Sep 07 2022 This volume provides a tutorial review and evaluation of scientific research on the accuracy and reliability of eyewitness identification. The book starts with the perspective that there are a variety of conceptual and empirical problems with eyewitness identification as a form of forensic evidence, just as there are a variety of problems with other forms of forensic evidence. There is then an examination of the important results in the study of eyewitness memory and the implications of this research for psychological theory and for social and legal policy. The volume takes the perspective that research on eyewitness identification can be seen as the paradigmatic example of how psychological science can be successfully

applied to real-world problems.

The Psychology of Eyewitness Identification Nov 28 2021

Handbook of Psychology and Law Feb 17 2021 Shari Seidman

Diamond Scholars interested in psychology and law are fond of claiming origins for psycholegal research that date back four score and three years ago to Hugo von Munsterberg's *On the Witness Stand*, published in 1908. These early roots can mislead the casual observer about the history of psychology and law. Vigorous and sustained research in the field is a recent phenomenon. It is only 15 years since the first review of psychology and law appeared in the *Annual Review of Psychology* (Tapp, 1976). The following year saw the first issue of *Law and Human Behavior*, the official publication of the American Psychology-Law Society and now the journal of the American Psychological Association's Division of Psychology and Law. Few psychology departments offered even a single course in psychology and law before 1973, while by 1982 1/4 of psychology graduate programs had at least one course, and a number had begun to offer forensic minors and/or joint J. D. / Ph. D. programs (Freeman & Roesch, see Chapter 28). Yet this short period of less than 20 years has seen a dramatic level of activity. Its strengths and weaknesses, excitements and disappointments, are all captured in the collection of chapters published in this first *Handbook of Psychology and Law*. In describing what we have learned about psychology and law, the works included here also reveal the questions we have yet to answer and thus offer a blueprint for activities in the next 20 years.

Eyewitness at Dieppe May 23 2021 In August 1942, Allied forces mounted an attack on the German-held port of Dieppe; titled Operation Jubilee, it represented a rehearsal for invasion. The amphibious attack saw over 6,000 infantrymen, predominantly Canadian, put ashore, tasked with destroying German structures and gathering intelligence. The doomed raid was an abject failure, and became Canada's worst military disaster. *Eyewitness at Dieppe* is a long-overdue reissue of New Zealand-born writer Wallace Reyburn's dramatic account of the raid. He was with the first soldiers clambering ashore, and aboard the last ship returning to England after six hours of carnage. Awarded an OBE as the only war correspondent to witness the street fighting first-hand, Reyburn was fortunate not to be numbered among Dieppe's dead, suffering just a minor wound inflicted by mortar shell fragments. His book, *Rehearsal for Invasion* was a wartime bestseller. Accompanied by freelance journalist Ross Reyburn's new foreword on his father's account, this new edition tells us more about Wallace's intriguing life and details the shortcomings of his father's book, dictated by wartime censorship corrected in the post-war years through a withering condemnation of the raid's mastermind Lord Mountbatten.

The Eyewitness Jan 31 2022 Jack Solomon is a messenger of death. Working in the fractured remains of Yugoslavia, his task is to identify the victims of ethnic cleansing and to tell families that their loved ones are never coming home. Years of working in the killing fields have desensitized the former London policeman to the horrors of war, but when a truck containing twenty-six bodies is pulled from a lake, Solomon is unable to walk away from the case. He sets out to track down the only survivor of the massacre, a young girl on the run from the killers. Solomon's hunt for the last witness leads from the brothels of Sarajevo to the high-stakes world of London's internet prostitution - where he will discover that the killers are closer to home than he thinks . . .
