Essays in Technology Management and Policy Jul 17 2021 This book examines the manner in which successful firms develop, transfer, protect, and capture value from technological innovation. In essence, it is about “knowledge management”, which lies at the foundation of firm level competitive advantage in today's global economy. The essays contain some of the fundamental contributions to the field of knowledge management by one of its best-known thinkers; they also constitute an immensely practical guide for those managers who wish to look below the surface of what is going on in Silicon Valley and elsewhere. Contents: Capturing Value from Technological Innovation Sustaining Value Creation and Capture Licensing, Technology Transfer, and the Market for Know-How Technological Change and Competition Policy Technological Innovation and the Theory of the Firm Readership: Professionals and academics in management studies. Keywords: Reviews: “Anyone interested in strategy or policy towards knowledge industries will learn much from this collection, written throughout with the elegance and lucidity which is a hallmark of Teece's work.” Research Policy

The Academy of Management Annals Mar 13 2021 The Academy of Management is proud to announce the inaugural volume of The Academy of Management Annals. This exciting new series follows one guiding principle: The advancement of knowledge is possible only by conducting a thorough examination of what is known and unknown in a given field. Such assessments can be accomplished through comprehensive, critical reviews of the literature--crafted by informed scholars who determine when a line of inquiry has gone astray, and how to steer the research back onto the proper path. The Academy of Management Annals provide just such essential reviews. Written by leading management scholars, the reviews are invaluable for ensuring the timeliness of advanced courses, for designing new investigative approaches, and for identifying faulty methodological or conceptual assumptions. The Annals strive each year to synthesize a vast array of primary research, recognizing past principal contributions while illuminating potential future avenues of inquiry. Volume 1 of the Annals explores a wide spectrum of research: corporate control; nonstandard employment; critical management; physical work environments; public administration team learning; emotions in organizations; leadership and health care; creativity at work; business and the environment; and bias in performance appraisals. Ultimately, academic scholars in management and allied fields (e.g., sociology of organizations and organizational psychology) will see The Academy of Management Annals as a valuable resource to turn to for comprehensive, up-to-date information--published in a single volume every year by the preeminent association for management research.

Management of Pulp and Paper Mill Waste Aug 30 2022 Pulp and paper mill industries are always associated with the disposal problem of highly contaminated sludge or bio-solids. The development of innovative systems to maximize recovery of useful materials and/or energy in a sustainable way has become necessary. The management of wastes, in particular of industrial waste, in an economically and environmentally acceptable manner is one of the most critical issues facing modern industry, mainly due to the increased difficulties in properly locating disposal works and complying with even more stringent environmental quality requirements imposed by legislation. This book presents a general Introduction on waste management in the pulp and paper industry and contains topics on the generation of waste in pulp and paper mills, waste composition, methods of sludge pre-treatment, processes and technologies for conversion of pulp and paper mill waste into valuable products, waste reduction techniques employed in the pulp and paper Industry worldwide and future trends.

Selected Papers from the 8th Annual Conference of Energy Economics and Management Jun 27 2022 This collection represents successful invited submissions from the papers presented at the 8th Annual Conference of Energy Economics and Management held in Beijing, China, 22–24 September 2017. With over 500 participants, the conference was co-hosted by the Management Science Department of National Natural Science Foundation of China, the Chinese Society of Energy Economics and Management, and Renmin University of China on the subject area of “Energy Transition of China: Opportunities and Challenges”. The major strategies to transform the energy system of China to a sustainable model include energy/economic structure adjustment, resource conservation, and technology innovation. Accordingly, the conference and its associated publications encourage research to address the major issues faced in supporting the energy transition of China. Papers published in this collection cover the broad spectrum of energy economics issues, including building energy efficiency, industrial energy demand, public policies to promote new energy technologies, power system control technology, emission reduction policies in energy-intensive industries, emission measurements of cities, energy price movement, and the impact of new energy vehicle.

Sustainable Entrepreneurship Jan 23 2022 Sustainable Entrepreneurship stands for a business driven concept of sustainability which focusses on increasing both social as well as business value - so called Shared Value. This book shows why and how this unique concept has the potential to become the most recognised strategic management approach in our times. It aims to point out the opportunities that arise from putting sustainable entrepreneurship into practice. At the same time, this book is a wake-up call for all those companies and decision makers who underestimated Sustainable Entrepreneurship before or who are simply not aware of its greater dimension. Well structured chapters from different academic and business perspectives clearly outline how Sustainable Entrepreneurship contributes to solving the world's most challenging problems, such as Climate Change, Finance Crisis and Political Uncertainty, as well as to ensuring business success. The book provides a framework of orientation where the journey might go: What can a successful concept of SE look like? What are the key drivers for its realisation? What is the role of business in shaping the future of our society? The book also presents best practices and provides unique learnings as well as business insights from the international Sustainable Entrepreneurship Award (www.se-award.org). The Sustainable Entrepreneurship Award (short SEA) is an award for companies today who are thinking about tomorrow by making sustainable business practices an integral part of their corporate culture. Companies that receive the SEA are being recognised for the vision they have shown in combining economic and sustainable responsibility.

Data Analytics and Management in Data Intensive Domains Sep 06 2020 This book constitutes the post-conference proceedings of the 21st International Conference on Data Analytics and Management in Data Intensive Domains, DAMDID/RCDL 2019, held in Kazan, Russia, in October 2019. The 11 revised full papers presented together with four invited papers were carefully reviewed and selected from 52 submissions. The papers are organized in the following topical sections: advanced data analysis methods; data infrastructures and integrated information systems; models, ontologies and applications; data analysis in astronomy; information extraction from text; distributed computing; data science for education.

Paper Contracting Apr 01 2020 Risk, and the headaches that go with it, have always been a major part of any construction project -- risk of loss, negative cash flow, construction claims, regulations, excessive changes, disputes, slow pay -- sometimes you'll make money, and often you won't. But many contractors today are avoiding almost all of that risk by working under a construction management contract, where they are simply a paid consultant to the owner, running the job, but leaving him the risk. This manual is the how-to of construction management contracting. You'll learn how the process works, how to get started as a CM contractor, what the job entails, how to deal with the issues that come up, when to step back, and how to get the job completed on time and on budget. Includes a link to free downloads of CM contracts legal in each state.

Academic Writing Mar 01 2020 This book helps students and researchers write better assignments, better dissertations, and better papers for publication. Characterizing academic writing as an integral part of the knowledge generation and dissemination process, it focuses on three main aspects: understanding research, documenting and sharing the process and

results of research, and acknowledging the use of other people's ideas in the documentation. The authors use various samples of good as well as defective writing to illustrate the features of academic writing. They describe in detail the structure and contents of academic papers, especially conceptual and empirical research papers for journals. This lucidly written book will be a rich resource for MBA students and researchers working for MPhil and PhD degrees, especially in the fields of management, behavioural sciences and communications.

Disaster Prevention Feb 09 2021 Leading editors have curated collections of important Routledge research in ebook form to share recommended paths to understanding cutting-edge topics. In this book Ilan Kelman presents his guide to the must-read research on the subject of Disaster Prevention.

Organization and Management Nov 01 2022 Barnard was prompted by Vilfredo Pareto's seminal four volume work Mind and Society to apply his theories of sociology to management studies. Barnard's study of interaction between people in economic settings was contentious in that he concluded that human behaviour within these settings is largely non-economic and instead approaches ritualistic symbolism.

Papers Presented at the Norway-FAO Expert Consultation on the Management of Shared Fish Stocks Sep 18 2021 A critical input into the proceedings of this Expert Consultation were two discussion papers and 12 cases studies, contained in this document. The first discussion paper addresses the basic requirements and principles for successful management of shared fish stocks derived from game theoretical considerations and practical experiences. The second discussion paper presents the legal aspects of the management of shared fish stock.
