The Story of British Animation Feb 10 2021

"Richly illustrated with unique material from the BFI archive, *British Animation* is the first authoritative account of the history, art and industry of animation in Britain, covering everything from the origins of animation at the end of the Victorian era to the 21st century's

pioneering digital techniques. Jez Stewart tells the story of this extraordinarily fertile area of British film, from the first experiments with stop-motion to contemporary viral videos on YouTube. Animation boomed during WWI and faltered during the 1930s, when creatives turned their hands to advertising and sponsored films for survival, but there was a flourishing encouraged by the GPO Film Unit, which commissioned films by visionary artists like Len Lye, Norman McLaren and Lotte Reiniger that were then shown in cinemas. Stewart highlights the integral role of women in the industry, the crucial boost delivered by the arrival of Channel 4 in 1982, the recent evolution of animation online and much more. The book also features focused 'close up' analyses of key animators, studios and classic films, such as Anson Dyer's *Animal Farm* (1954), Britain's second animated feature *Yellow Submarine* (1968), the children's classic *Watership Down* (1978) and the creations of Aardman Animations"--

The House by the Lake: The True Story of a House, Its History, and the Four Families Who Made It Home May 28 2022 History comes home

in a deeply moving, exquisitely illustrated tale of a small house, taken by the Nazis, that harbors a succession of families--and becomes a quiet witness to a tumultuous century. The days went around like a wheel. The sun rose, warming the walls of the house. On the outskirts of Berlin, Germany, a wooden cottage stands on the shore of a lake. Over the course of a hundred years, this little house played host to a kind Jewish doctor and his family, a successful Nazi composer, wartime refugees, and a secret-police informant. During that time, as a world war came and went and the Berlin Wall arose just a stone's throw from the back door, the house filled up with myriad everyday moments. And when that time was over, and the dwelling was empty and derelict, the great-grandson of the man who built the house felt compelled to bring it back to life and listen to the story it had to tell. Illuminated by Britta Teckentrup's magnificent illustrations, Thomas Harding's narration reads like a haunting fairy tale--a lyrical picture-book

rendering of the story he first shared in an acclaimed personal history for adult readers. [The Little Engine That Could](#) Oct 09 2020 "I think I can, I think I can, I think I can..." Story of Life Jan 04 2023 At first, nothing lived on Earth. It was a noisy, hot, scary place. Choking gas exploded from volcanoes and oceans of lava bubbled around the globe... Then in the deep, dark ocean, something amazing happened. This is an exciting and dramatic story about how life began and developed on Planet Earth, written especially for younger children. The authors explain how the first living cell was created, and how the cells multiply and create jellyfish and worms, and then fish with bendy necks, which drag themselves out of the water

into swampy forests. They tell the story of the biggest creatures that have ever walked on land - the dinosaurs. Long after that, hairy creatures who have babies, not eggs, take over, stand on two legs and spread around the world, some of them living through cataclysmic events such as ice ages and volcanic eruptions. Everyone living today is related to these survivors. With delightful illustrations including lots of detail and humour, all carefully researched and checked, this book shows the development of life on Earth in a truly accessible and simple way. the western world and beyond for over 2,000 years. From the persecutions of the early church to the papal-imperial conflicts of the Middle Ages, from the religious wars of 16th- and 17th-century Europe to the challenges of science and secularism in the modern era, and from the ancient Christian communities of Africa and Asia to the 'house churches' of contemporary China, **The Story of Christianity** triumphantly captures the complexity and diversity of Christian history. **The Story of China** Jan 24 2022 'A learned, wise, wonderfully written single volume history of a civilisation that I knew I should know more about' Tom Holland 'Masterful and engrossing...well-paced, eminently readable and well-timed. A must-read for those who want - and need - to know about the China of yesterday, today and tomorrow' Peter Frankopan China's story is extraordinarily rich and dramatic. Now Michael Wood, one of the UK's pre-eminent historians, brings it all together in a major new one-volume history of China that is

essential reading for anyone who wants to understand its burgeoning role in our world today. China is the oldest living civilisation on earth, but its history is still surprisingly little known in the wider world. Michael Wood's sparkling narrative, which mingles the grand sweep with local and personal stories, woven together with the author's own travel journals, is an enthralling account of China's 4000-year-old tradition, taking in life stationed on the Great Wall or inside the Forbidden City. The story is enriched with the latest archaeological and documentary discoveries; correspondence and court cases going back to the Qin and Han dynasties; family letters from soldiers in the real-life Terracotta Army; stories from Silk Road merchants and Buddhist travellers, along with memoirs and diaries of emperors, poets and peasants. In the modern era, the book is full of new insights, with the electrifying manifestos of the feminist revolutionaries Qiu Jin and He Zhen,

extraordinary eye-witness accounts of the Japanese invasion, the Great Famine and the Cultural Revolution under Chairman Mao, and fascinating newly published sources for the great turning points in China's modern history, including the Tiananmen Square crisis of 1989, and the new order of President Xi Jinping. A compelling portrait of a single civilisation over an immense period of time, the book is full of intimate detail and colourful voices, taking us from the desolate Mongolian steppes to the ultra-modern world of Beijing, Shanghai and Hong Kong. It also asks what were the forces that have kept China together for so long? Why was China overtaken by the west after the 18th century? What lies behind China's extraordinary rise today? The Story of China tells a thrilling story of intense drama, fabulous creativity and deep humanity; a portrait of a country that will be of the greatest importance to the world in the twenty-first century.
