I Never Liked Those C-130's Anyway Nov 30 2019 Your chance to relive a little piece of "The Good Old Days" and find the answers to these burning questions: Which future Coast Guard Captain said "Shit, Mal, let's do a 360 and get out of here." Which Coast Guard astronaut said, when asked to describe his scariest moment, "Flying as Malcolm Smith's co-pilot." Which Coast Guard aviator got the blame for putting training wheels and streamers on the commanding officer's and XO's new bicycles. Which Coast Guard aviator threw up in his glove while flying rather than make a mess in the cockpit. This book brings back some of the funniest moments of the Coast Guard during the time period between the "Old Guard" and the new modern Coast Guard. "For more than two decades, Mal has threatened to write a book to chronicle his many colorful experiences during his Coast Guard aviation career. Mal can spin a tale better than any sailor and his exploits in and out of the cockpit are indeed legendary. But the fact is, the closer he gets to the completion of this life-long dream of his, the more nervous I become. I can't wait to read it!" RADM David W. Kunkel, COAST GUARD AVIATOR #1726 "Malcolm Smith is a master storyteller with a flair for finding humor in everyday activities and recounting his observations with entertaining splendor that leaves you thirsting for another. Since meeting him when I was a teenager in Alaska, I have been absorbed by his colorful renditions and have long awaited this composition. I just hope I'm not the subject in one of his stories." Plato's Parmenides Jan 01 2020 Of all Plato's dialogues, the Parmenides is notoriously the most difficult to interpret. Scholars of all periods have disagreed about its aims and subject matter. The interpretations have ranged from reading the dialogue as an introduction to the whole of Platonic metaphysics to seeing it as a collection of sophisticated tricks, or even as an elaborate joke. This work presents an illuminating new translation of the dialogue together with an extensive introduction and running commentary, giving a unified explanation of the Parmenides and integrating it firmly within the context of Plato's metaphysics and methodology. Scolnicov shows that in the Parmenides Plato addresses the most serious challenge to his own philosophy: the monism of Parmenides and the Eleatics. In addition to providing a serious rebuttal to Parmenides, Plato here re-formulates his own theory of forms and participation, arguments that are central to the whole of Platonic thought, and provides these concepts with a rigorous logical and philosophical foundation. In Scolnicov's analysis, the Parmenides emerges as an extension of ideas from Plato's middle dialogues and as an opening to the later dialogues. Scolnicov's analysis is crisp and lucid, offering a persuasive approach to a complicated dialogue. This translation follows the Greek closely, and the commentary affords the Greekless reader a clear understanding of how Scolnicov's interpretation emerges from the text. This volume will provide a valuable introduction and framework for understanding a dialogue that continues to generate lively discussion today.

Guns, Guerillas, and the Great Leader Jun 29 2022 Far from always having been an isolated nation and a pariah state in the international community, North Korea exercised significant influence among Third World nations during the Cold War era. With one foot in the socialist Second World and the other in the anticolonial Third World, North Korea occupied a unique position as both a postcolonial nation and a Soviet client state, and sent advisors to assist African liberation movements, trained anti-imperialist guerilla fighters, and completed building projects in developing countries. State-run media coverage of events in the Third World shaped the worldview of many North Koreans and helped them imagine a unified anti-imperialist front that stretched from the boulevards of Pyongyang to the streets of the Gaza Strip and the beaches of Cuba. This book tells the story of North Korea's transformation in the Third World from model developmental state to reckless terrorist nation, and how Pyongyang's actions, both in the Third World and on the

Korean peninsula, ultimately backfired against the Kim family regime's foreign policy goals. Based on multinational and multi-archival research, this book examines the intersection of North Korea's domestic and foreign policies and the ways in which North Korea's developmental model appealed to the decolonizing world.

Brief Answers to the Big Questions Jan 25 2022 #1 NEW YORK TIMES BESTSELLER • The world-famous cosmologist and author of *A Brief History of Time* leaves us with his final thoughts on the biggest questions facing humankind. "Hawking's parting gift to humanity . . . a book every thinking person worried about humanity's future should read."—NPR NAMED ONE OF THE BEST BOOKS OF THE YEAR BY Forbes • The Guardian • Wired Stephen Hawking was the most renowned scientist since Einstein, known both for his groundbreaking work in physics and cosmology and for his mischievous sense of humor. He educated millions of readers about the origins of the universe and the nature of black holes, and inspired millions more by defying a terrifying early prognosis of ALS, which originally gave him only two years to live. In later life he could communicate only by using a few facial muscles, but he continued to advance his field and serve as a revered voice on social and humanitarian issues. Hawking not only unraveled some of the universe's greatest mysteries but also believed science plays a critical role in fixing problems here on Earth. Now, as we face immense challenges on our planet—including climate change, the threat of nuclear war, and the development of artificial intelligence—he turns his attention to the most urgent issues facing us. Will humanity survive? Should we colonize space? Does God exist? ??These are just a few of the questions Hawking addresses in this wide-ranging, passionately argued final book from one of the greatest minds in history. Featuring a foreword by Eddie Redmayne, who won an Oscar playing Stephen Hawking, an introduction by Nobel Laureate Kip Thorne, and an afterword from Hawking's daughter, Lucy, *Brief Answers to the Big Questions* is a brilliant last message to the world. Praise for *Brief Answers to the Big Questions* "[Hawking is] a symbol of the soaring power of the human mind."—The Washington Post "Hawking's final message to readers . . . is a hopeful one."—CNN "Brisk, lucid peeks into the future of science and of humanity."—The Wall Street Journal "Hawking pulls no punches on subjects like machines taking over, the biggest threat to Earth, and the possibilities of intelligent life in space."—Quartz "Effortlessly instructive, absorbing, up to the minute and—where it matters—witty."—The Guardian "This beautiful little book is a fitting last twinkle from a new star in the firmament above."—The Telegraph

To cushion up these effects the EU supports Polish SMEs by means of different Community funds, whose legal basis can be found in Art. 130, 130a and 130b of the Treaty of Maastricht, stipulating that: "In order to promote its overall harmonious development, the Community shall develop and pursue its actions in leading to the strengthening of its economic and social cohesion.
