Power and Resistance, 7th ed. Mar 25 2022 Power and Resistance debunks the dominant neoliberal, hyper-individualist approach to society's problems that sees poverty as a result of laziness, environmental crises as a result of market demands for products that pollute, and Indigenous Peoples' struggles as a result of not assimilating. We argue that it is social inequality and oppression that are the underlying causes of social problems. In a society like ours, powerful groups make choices that benefit them and force those choices onto others, creating life problems for others and society as a whole. The powerful also have influence over what is and is not called a "social problem." Solving social problems requires changing the structures of inequality and oppression. For example, industrial corporate agriculture has created huge profits for a few gigantic food corporations but left much of the world hungry. But farmers and their allies are pushing back through agroecology — an agriculture based on local, small-scale, ecologically sustainable farming that brings eaters and growers closer to one another. The seventh edition of Power and Resistance includes new chapters on anti-Black racism in schools, Indigenous people and mental health, food security and sovereignty, and work in the gig economy.

Thrive Aug 06 2020 Martha Boyne, Emily Clements and Ben Wright's Thrive: In your first three years in teaching equips trainee secondary school teachers with the know-how to lay the foundations for a successful career in teaching, long after the challenging first few years are over. Martha, Emily and Ben are thriving teachers. In Thrive they share their personal experiences and demonstrate how you too can thrive during the tricky training year, the daunting NQT year and the crucial RQT year. Using their collective insights, and plenty of evidence-informed strategies and advice, they detail how you can get to grips with the classroom basics – from behaviour management and lesson planning to differentiation and providing for SEND – and effectively continue your professional development. This book is not just a survival manual to help teachers get through their first three years in teaching. Nor is it an academic text that has been written by authors who have only a distant memory of what it takes to stand in front of a class of teenagers for the first time. Thrive is something very different. It gives both the aspiring and the newly qualified the support and guidance to become a thriving teacher, and has been co-authored by three recently qualified teachers who in this book invest their passion and practical knowledge to inspire and inform others who want to pursue enjoyable and rewarding careers in teaching. Thrive is divided into three parts – specifically detailing what can be expected in the training year, NQT year and RQT year respectively – with the authors' commentary threaded throughout to demonstrate how the ideas discussed can be successfully put into practice. Their accounts are also complemented by expert advice from two people who are at the very top of their profession, Lianne Allison and Dr Simon Thompson, who provide wider perspectives drawn from a wealth of teaching experience. Forty of the book's forty-six chapters begin with a checklist outlining what a developing teacher is expected to do, and each chapter ends with a to-do list that can be used as a quick reference point to structure the strategies implemented. These to-do lists are also followed by lists of suggested further reading so that readers can delve deeper into topics and fields of research that they find particularly interesting or relevant. Furthermore, the book offers helpful counsel on choosing the best training route as well as an in-depth analysis of the change in priorities for busy teachers as they

progress: encouraging constant reflection, outlining potential pathways and emphasising the importance of evidence-based practice and how new teachers can, and should, incorporate this into their teaching. Rooted in practical strategies and innovative ideas, Thrive is the essential guide for trainee secondary school teachers and teacher trainers.

Digital Cultural Transformation Jul 05 2020 *The hypercomplex digital-technological environment is exponential and revolutionary. Our social mindset adaptation, instead, is slower and evolutionary, as an individual's or an organization culture needs time to transform. This book offers students, institutions, and organisations innovative and interdisciplinary digital sociology tools to help build an adaptive, flexible, imaginative social mindset in order to cope with such a gap and to match a sustainable digital transformation (DT). By disrupting traditional linear approaches to understand the context into which business models are designed, institutions and students are challenged with innovative transdisciplinary holistic models grounded into business case studies. If the book stimulates students to learn how purposefully and autonomously to explore the web, to grasp the deeper meaning of DT and its social impact, institutions are solicited to answer to direct quests that go right to the core of their transformative DNA as: 'How effectively are you carrying on DT in a sustainable, people-centred way? Which is your socio-cultural DT profile and what are your DT areas of strength and areas of improvement?' In this frame of work, the innovative Four Paradigm Model indicates new coordinates and provides original tools to profile an institution's digital transformation strategy, to analyse it, and measure the level of sustainable socio-economic value. Sample syllabi, PowerPoint slides and quizzes are available online to assist in the teaching experience.*

Intersections of Diversity, Literacy, and Learner Difficulties Apr 01 2020 *This book invites readers to challenge, corroborate, and add to the discourse on more inclusive pedagogical practice. Presenting theoretically and empirically informed research, it highlights potential considerations regarding the intersections of diversity, literacy, and learner difficulties. These three areas provide a stage where opposing paradigms often pose challenges for educators and create unnecessary barriers to providing the best education for all learners. These barriers might reveal how students are positioned through a deficit lens rather than one that recognizes individual differences and how these learner differences sometimes result in labels or put students at increased risk of encountering difficulties. The contributing authors' goals are to start and sustain a conversation that examines these perspectives and to offer counter-narratives to the deficit lens by recognizing that individual difference does not need to be a barrier to educational access. By examining opportunities for more inclusive educational success, this book encourages discourse among key stakeholders; further, it goes beyond problematizing to offer new avenues for optimal learning and inclusive pedagogy across multiple contexts.*

Thrive Mar 01 2020 Tired of feeling sorry for yourself? Sick of answering the same old questions about why you still haven't found your perfect match? Despite what many people think, singleness is not a disease. It's not the lesser option. Singleness is God's gift to you today. In Thrive, Lina AbuJamra—who has been single for over 40 years—will show you how you can make a difference with your life right now instead of sitting around waiting for something to happen to you. If you're ready to figure out what God has to say about singleness instead of relying on your own feelings and conclusions, this book is for you. Isn't it time you get excited about your life in Christ and quit falling back into the same old pattern of thinking? Freedom. Joy. Abundance. Hope. All these are yours the moment you embrace all that God has for you right here right now. Go ahead. It's okay to smile. Life as a single Christian is good.

Thrive Sep 30 2022 In Thrive, Arianna Huffington, the co-founder and editor-in-chief of the Huffington Post and one of the most influential women in the world, has written a passionate call to arms, looking to redefine what it means to be successful in today's world. She likens our drive for money and power to two legs of a three-legged stool. It may hold us up temporarily, but sooner or later we're going to topple over. We need a third leg — a Third Metric for defining success — in order to live a healthy, productive, and meaningful life. In this deeply personal book, Arianna talks candidly about her own challenges with managing time and prioritising the demands of a career and two daughters. Drawing on the latest groundbreaking research and scientific findings in the fields of psychology, sports, sleep and physiology that show the profound and transformative effects of meditation, mindfulness, unplugging and giving, Arianna shows us the way to a revolution in our culture, our thinking, our workplaces, and our lives.

CSR and Management Accounting Challenges in a Time of Global Crises Sep 06 2020 Modern companies are subject to increasing pressures to conduct their business in an environmentally responsible manner due to social and environmental problems. Management of sustainable performance is one of the phenomena faced by the current business environment and, in particular, management corporations. The focus of management on profitability remains the main objective of any company, but it must also take into account the sustainability of social, economic, and environmental aspects. Under these circumstances, managerial decisions need to be adjusted and strongly substantiated, considering the information required by internal and external stakeholders, including financial reporting. The information requirements of customers and other stakeholders are steadily increasing, and some companies face certain problems in implementing the concept of sustainability and environmental reporting. CSR and Management Accounting Challenges in a Time of Global Crises is a comprehensive reference source that explores various theoretical and practical approaches of management accounting and its impact in the 21st century and investigates new accounting and financial approaches where economic and social aspects become mutually supportive to

enhance their impact on community development. Covering topics such as CSR reporting, sustainability, and greenwashing, this book is an essential resource for academicians, specialty organizations, chief financial officers (CFOs), financial controllers, business analysts, financial planning and analysis (FP&A) analysts, budgeting managers, students, researchers, and business environment managers and specialists.
