The Nazi Olympics Apr 04 2020
The 1936 Olympic Games played a key role in the development of both Hitler's Third Reich and international sporting competition. This volume gathers original essays by modern scholars from the Games' most prominent participating countries and lays out the issues -- sporting as well as political -- surrounding individual nations' involvement. The Nazi Olympics opens with

an analysis of Germany's preparations for the Games and the attempts by the Nazi regime to allay the international concerns about Hitler's racist ideals and expansionist ambitions. Essays follow on the United States, Great Britain, and France -- three first-class Olympian nations with misgivings about participation -- as well as German ally Italy and future ally Japan. Other essays examine the issues at stake in Finland, Sweden, Norway, Denmark, and the Netherlands, which opposed Hitler's politics, despite embodying his Aryan ideal. Challenging the view of sport as a trivial pursuit, this collection reveals exactly how

high the political stakes were in 1936 and how the Nazi Olympics distilled many of the critical geopolitical issues of the time into a contest that was anything but trivial.

**Rethinking Chinese Popular
Culture** May 18 2021 Through
analyses of a wide range of
Chinese literary and visual
texts from the beginning of the
twentieth century through the
contemporary period, the
thirteen essays in this volume
challenge the view that
canonical and popular culture

are self-evident and
diametrically opposed
categories, and instead argue
that the two cultural
sensibilities are inextricably
bound up with one another. An
international line up of
contributors present detailed
analyses of literary works and
other cultural products that
have previously been neglected
by scholars, while also
examining more familiar
authors and works from
provocative new angles. The
essays include investigations
into the cultural industries and
contexts that produce the
canonical and popular, the
position of contemporary
popular works at the interstices
of nostalgia and amnesia, and

also the ways in which cultural
texts are inflected with
gendered and erotic
sensibilities while at the same
time also functioning as objects
of desire in its own right. As
the only volume of its kind to
cover the entire span of the
20th century, and also to
consider the interplay of
popular and canonical
literature in modern China with
comparable rigor, *Rethinking
Chinese Popular Culture* is an
important resource for
students and scholars of
Chinese literature and culture.

Object-Oriented Technology.

ECOOP 2003 Workshop Reader Jun 30 2022 This volume represents the seventh edition of the ECOOP Workshop Reader, a compendium of workshop reports from the 17th European Conference on Object-Oriented Programming (ECOOP 2003), held in Darmstadt, Germany, during July 21-25, 2003. The workshops were held during the first two days of the conference. They cover a wide range of interesting and innovative topics in object-oriented technology and offered the participants an opportunity for interaction and lively discussion. Twenty-one workshops were selected from a total of 24 submissions based

on their scientific merit, the actuality of the topic, and their potential for a lively interaction. Unfortunately, one workshop had to be cancelled. Special thanks are due to the workshop organizers who recorded and summarized the discussions. We would also like to thank all the participants for their presentations and lively contributions to the discussion: they made this volume possible. Last, but not least, we wish to express our appreciation to the members of the organizing committee who put in countless hours setting up and coordinating the workshops. We hope that this snapshot of current object-oriented technology will prove

stimulating to you. October

reflect obliquely or directly on

also a discussion of the
